Neal, 2006-01-01 Employment protection in Britain once seen as resting on collective bargaining supported by public policy has increasingly come to be framed in terms of individual legal rights enforceable before judicial forums such as employment tribunals This dramatic shift towards juridification of the individual employment relationship has not only contributed towards significant changes to the institutional landscape of employment relations in Britain but also carries important implications for the future of employment law and regulation in the home of collective bargaining This comprehensive evaluation of current institutional reality and trends prepared to mark the 30th anniversary of the Advisory Conciliation and Arbitration Service Acas provides a unique look inside the key institutions of British employment relations Each contributor leading academics and senior practitioners all closely associated with particular institutions locates their institution in terms of purpose origins and context discusses its structure governance and composition and assesses its operation considering current challenges and future direction In the course of examining issues relating to institutional choice and roles the presentations offer contemporary views on the impact of decentralisation and the shrinking of collective bargaining decline in trade union membership and strength and the political effects of increasing global competition The influence of EU social policy initiatives upon British legislative policy is identified while attention is drawn to the consequences of an increased feminisation of the workforce along with an increasing incidence of non standard workers and continuing service sector growth Set alongside the evidence of decline in manufacturing restructuring of the public sector and the growth of the SME sector this volume demonstrates the remarkable pressures for change which have impacted upon the institutions of British employment relations over the past thirty years These essays offer an especially valuable mix of expert independent discussion along with personal insights gained from direct involvement in the operation of the key bodies As a much needed overview and basis for evaluation of the current institutional map of British employment relations as well as a contemporary consideration of lessons to be drawn from the changing institutional face of employment relations in Britain this book will be of inestimable value to policy makers and practitioners in the field as well as to students academics and more generally interested observers of the British experience **Race and Law in Great Britain** Anthony Lester, Geoffrey Bindman, 1972 **Immigration and Social Policy in Britain** Catherine Jones, 2013-10-11 Tavistock Press was established as a co operative venture between the Tavistock

The Making of the Black Working Class in Britain Ron Ramdin, 2017-08-22. This is the first comprehensive historical perspective on the relationship between Black workers and the changing patterns of Britain's labour needs. It places in an historical context the development of a small black presence in sixteenth century Britain into the disadvantaged black working class of the 1980s. The book deals with the colonial labour institutions: slavery, indentureship and trade unionism and the ideology underlying them and also considers the previously neglected role of the nineteenth century Black radicals in British working class struggles. Finally, the book examines the emergence of a Black radical ideology that has underpinned the twentieth century struggles against unemployment, racial attacks and workplace grievances among them, employer and trade union racism.

An Immigration History of Britain Panikos Panayi, 2014-09-11. Immigration, ethnicity, multiculturalism and racism have become part of daily discourse in Britain in recent decades, yet far from being new, these phenomena have characterised British life since the 19th century. While the numbers of immigrants increased after the Second World War, groups such as the Irish, Germans and East European Jews have been arriving, settling and impacting on British society from the Victorian period onwards. In this comprehensive and fascinating account, Panikos Panayi examines immigration as an ongoing process in which ethnic communities evolve as individuals choose whether to retain their ethnic identities and customs or to integrate and assimilate into wider British norms. Consequently, he tackles the contradictions in the history of immigration over the past two centuries: migration versus government control, migrant poverty versus social mobility, ethnic identity versus increasing Anglicisation and, above all, racism versus multiculturalism. Providing an important historical context to contemporary debates and taking into account the complexity and variety of individual experiences over time, this book demonstrates that no simple approach or theory can summarise the migrant experience in Britain.

The contract of employment is the central legal institution of modern English employment law. It provides the foundation upon which most statutory employment rights are constructed; it provides a conduit for the implementation of norms negotiated in collective bargaining and it continues to provide a contractual structure for the terms and conditions of employment for a significant proportion of the working population. Under the general

editorship of Professor Mark Freedland the text has been produced by a team of world leading experts in employment law Part I examines the theoretical context to the contract of employment studying its structure and development from a wide variety of theoretical and comparative perspectives Part II provides an exposition and analysis of the doctrinal aspects of the contract of employment The coverage of The Contract of Employment is unrivalled in its depth detail and sophistication The legal analysis is always informed by a keen sense of the modern labour market context of the contract of employment and it is sensitive to contemporary challenges such as precariousness the interaction with migration law the role of legislation in the contract of employment and the decline of collective bargaining It will be the principal reference point for the practitioners judges and academics concerned with the contract of employment as a legal category both nationally and internationally
