Radicalism, Anti-Racism and Representation Alastair Bonnett,2023-02-14 First published in 1993 Radicalism Anti
Racism and Representation is a study set within a wider political context for the discussion of racial representation and anti
racism The second half of the book is devoted to interview based exploration of the ambiguities and political characteristics
of race equality consciousness amongst public educators It is shown that there is no one anti racism Different ideals and
assumptions have been arrived at within different historical and geographical contexts It is suggested that this intellectual
plurality provides a resource for those wishing to rethink anti racism in the light of its contemporary malaise The study also
explores and explains the development of self critical reflexive anti racist and radical consciousness amongst educators The
book provides the first sociological study of anti racism Indeed it is the first to provide a substantive critique of anti racism
from outside the New Right It is also the first to look at this phenomenon geographically and to compare anti racism in
multiracial and white areas This book will be of interest to students of human geography sociology history ethnic studies and
race studies *'Race', Sport and British Society* Ben Carrington,Ian McDonald,2002-01-04 Contrary to the popular belief
that sport is an arena largely free from the corrosive effects of racism this book argues that racism is evident throughout
British sport From playing fields and boardrooms of sports organisations to the offices of sports policy makers and the media
this book breaks new ground in showing how discourses of race and nation continue to pervade our sporting life Looking at a
range of sports including football rugby league and cricket this book covers key topics such as British nationalism and
nationalist ideology racial science and the images of Asian and black physicality sport racism and the law black feminism and
the issues of race gender and sport the role of the media in perpetuating and challenging racial stereotypes Challenging the
prevailing liberal view that sport is one area of society where good race relations are developed this book offers a wealth of
research material and a strong theoretical perspective on contemporary British sport It will therefore be of vital interest to
