Why Don't You Just Talk to Him? Kathleen R. Arnold, 2015-08-03 *Why Don t You Just Talk to Him* looks at the broad political contexts in which violence specifically domestic violence occurs Kathleen Arnold argues that liberal and Enlightenment notions of the social contract rationality and egalitarianism the ideas that constitute norms of good citizenship have an inextricable relationship to violence According to this dynamic targets of abuse are not rational make bad choices are unable to negotiate with their abusers or otherwise violate norms of the social contract they are thus second class citizens In fact as Arnold shows drawing from Nietzsche and Foucault s theories of power and arguing against much of the standard policy literature on domestic violence the very mechanisms that purportedly help targets of domestic abuse actually work to compound the problem by exacerbating or ignoring the power differences between the abuser and the abused The book argues that a key to understanding how to prevent domestic violence is seeing it as a political rather than a personal issue with political consequences It seeks to challenge Enlightenment ideas about intimacy that conceive of personal relationships as mutual equal and contractual Put another way it challenges policy ideas that suggest that targets of abuse can simply choose to leave abusive relationships without other personal or economic consequences or that there is a clear and consistent level of help once they make the choice to leave Asking *Why Don t You Just Talk to Him* is in reality a suggestion riven with contradictions and false choices Arnold further explores these issues by looking at two key asylum cases that highlight contradictions within the government s treatment of foreigners and that of long term residents These cases expose problematic assumptions in the approach to domestic violence more generally Exposing major injustices from the point of view of domestic violence targets this book promises to generate further debate if not consensus The

Migrant Protest and Democratic

States of Exception Kathleen R. Arnold, 2023-08-11 Recognizing the radical disparity between migration border policy and constitutional law inside these borders Kathleen R Arnold focuses on two main forms of migrant protest to explore the meaning of resistance in a sovereign context self harming protest by detainees and faith based sanctuary of individuals scheduled for detention This activism creates a democratic state of exception interrupting the legal process altering discretionary forms of sovereign power and enacting rights not formally granted these efforts go beyond the assertion of liberal rights or merely restoring the rule of law even if these are also goals challenging the warfare state while constituting a demos that is formally illegible Migrant Protest and Democratic States of Exception will be of interest to scholars migrant

advocacy professionals including INGO and IGO officers graduate students and advanced undergraduate students in a variety of fields from legal studies to forced migration and refugee studies political science human rights protest history and contemporary movements

The Victorian Reinvention of Race Edward Beasley,2010-07-02 Not until the early nineteenth century would polygenetic and racist theories win many adherents But by the middle of the nineteenth century in England racial categories were imposed upon humanity How the idea of race gained popularity in England at that time is the central focus of *The Victorian Reinvention of Race* *New Racisms and the Problem of Grouping in the Human Sciences*

Modern France Malcolm Cook,Grace Davie,2002-01-04 Modern France is an up to date and accessible introduction to the nature of French society at the end of the twentieth century The book examines the transition of France and French life as the nation moves from an industrial to a post industrial economy and the cultural and social dislocations that such an evolution implies Sociological concepts and categories of class race gender age and region are discussed as well as how they combine together to produce inequalities and identities These concepts are then applied to a range of issues such as work politics education health religion and leisure Modern France reveals the nature of French society at a critical moment in her evolution and how a member of the European Union reflects distinctiveness and commonality in the development of Europe as a whole

Rethorizing Race and Whiteness in the 21st Century Charles A. Gallagher,France Winddance Twine,2014-01-02 *Rethorizing Race and Whiteness in the 21st Century* examines the role whiteness and white identities play in framing and reworking racial categories hierarchies and boundaries within the context of nation class gender and immigration It takes as its theoretical starting point the understanding that whiteness is not and nor has it ever been a static uniform category of social identification The scholarship in this book uses new empirical studies to show whiteness as a multiplicity of identities that are historically grounded class specific politically manipulated and gendered social relations that inhabit local custom and national sentiment Contributors to this book examine a wide range of issues yet all chapters are linked by one common denominator they examine how power and oppression are articulated redefined and asserted through various political discourses and cultural practices that privilege whiteness even when the prerogatives of the dominant group are contested *Rethorizing Race and Whiteness in the 21st Century* is an important new contribution to the study of

whiteness for academics researchers and advanced students of Ethnic Studies Sociology Political Science and Ethnography This book was originally published as a special issue of *Ethnic and Racial Studies*

Colonialism and National Identity Paolo Bertella Farnetti,Cecilia Dau Novelli,2015-09-04 Until the latter part of the twentieth century Italy s colonial past was a largely neglected topic in historical studies Before then only a handful of historians had shown any inclination for rescuing it from the dusty shelves of history to which it had been relegated With a few exceptions most notably Angelo Del Boca not many had the courage to venture into such treacherous territory Colonial studies experienced a resurgence at the start of the new millennium with remarkable progress in the quantity and quality of research along with the wider public s newfound

interest as evidenced by an important conference held in Milan in 2006 and the large audience it attracted This book addresses the relationship between national identity and colonial culture in Italy The centrality of the construction of Otherness in the identity formation of the colonizer has been extensively reported both in Europe and elsewhere and the relevance of colonial heritage has also been attested In Italy however this relationship has been neglected in existing historiography and the colonial experience has traditionally been side lined and marginalized This volume is divided into several sections each organized around an underlying theme Within each theme a broad array of topics and methodologies reflect the authors approach in analysing the role of colonialism in the process of Italian identity formation The rather heterogeneous works contained in this book which attest the vitality and complexity of the debate on Italian colonialism are clustered around one central theme the reconstruction of uncomfortable memories and a past that will not pass which overlap the challenging present circumstances of rigidity racism and rejection As such this book is a work of critical reflection assembled using varied resources and scientific tools in order to shed light on a common past that is still so near and vivid in the minds of Italians but at the same time so denied distorted and forgotten in the collective memory

Wrestling with Archons Jonathan Cahana-Blum,2018-11-15 This book demonstrates that ancient Christian Gnosticism was an ancient form of cultural criticism in a mythological garb It establishes that much like modern forms of critical theory ancient Gnosticism was set on deconstructing mainstream discourses and cultural premises Strains of critical theory dealt with include the Frankfurt School queer theory and poststructural philosophy The book documents how in both ancient Gnosticism and modern critical theories issues that used to serve as premises for discussion or as concepts relegated to the realms of the natural and the given in their respective historical contexts are transformed into objects of contention The main aim of this book is to salvage the historical category of Gnosticism from its present scholarly disavowal if only because Gnosticism when read as a cultural and not only a religious phenomenon presents us an ancient form of culture criticism which would be hard to parallel until post modernity While Hans Jonas remarked many years ago that something in Gnosticism knocks at the door of our Being and of our twentieth century Being in particular by the 21st century global world this something has already entered and lives with us We can thus still benefit from another perspective even if it comes from Mediterranean people who lived almost 2 000 years ago
