Racism And Black Resistance In Britain:

Black resistance to British policing Adam Elliott-Cooper, 2021-05-01 As police racism unsettles Britain's tolerant self image Black resistance to British policing details the activism that made movements like Black Lives Matter possible Elliott Cooper analyses racism beyond prejudice and the interpersonal arguing that black resistance confronts a global system of racial classification exploitation and violence Imperial cultures and policies as well as colonial war and policing highlight connections between these histories and contemporary racisms But this is a book about resistance considering black liberation movements in the 20th century while utilising a decade of activist research covering spontaneous rebellion campaigns and protest in the 21st century Drawing connections between histories of resistance and different kinds of black struggle against policing is vital it is argued if we are to challenge the cutting edge of police and prison power which harnesses new and dangerous forms of surveillance violence and criminalisation Blackening Britain James G. Cantres, 2020-12-10 Covering the period from the interwar years through the arrival of the steamship SS Empire Windrush from Jamaica in 1948 and culminating in the period of decolonization in the British Caribbean by the early 1970s this project situates the development of networks of communication categories of identification and Caribbean radical politics both in the metropole and abroad Blackening Britain explores how articulations of Caribbean identity formation corresponded to the following themes organic collective action political mobilization cultural expressions of shared consciousness and novel patterns of communication Blackening Britain shows how colonial migrants developed tools of resistance in the imperial center predicated on their racialized consciousness that emerged from their experiences of alienation and discrimination in Britain This book also interrogates the ways in which prominent West Indian activists intellectuals political actors and artists conceived of their relationship to Britain Ultimately this work shows a move away from British identity and a radical revolutionary consciousness rooted in the West Indian background and forged in the contentious space of metropolitan Britain *Middle-Class Blacks in Britain* Sharon J. Daye, 2016-07-27 This book examines the relationship between race and class and considers how these two concepts articulate to determine class relationships in British society Daye argues that race in the form of structural racism plays a significant role at two levels Firstly it serves to determine the class position of black labour and secondly determines the type of race class and political consciousness generated by black labour in Britain Using empirical data this volume provides an important contribution to the race class debate British Communism and the Politics of Race Evan Smith, 2017-10-02 British Communism and the Politics of Race explores the role that the Communist Party of Great Britain played within the anti racism movement in Britain from the 1940s to the 1980s As one of the first organisations to undertake serious anti colonial and anti racist activism within the British labour movement the CPGB was a pioneering force that campaigned against racial discrimination popular imperialism and fascist violence in British society The book examines the balancing act that the Communist Party negotiated in its anti racist work between making appeals to the

labour movement to get involved in the fight against racism and working with Britain's ethnic minority communities who often felt let down by the trade unions and the Labour Party Transitioning from a class based outlook to an embrace of the new social movements of the 1960s 70s the CPGB played an important role in the anti racist struggle but by the 1980s it was eclipsed by more radical and diverse activist organisations

South Asian Resistances in Britain, 1858 - 1947 Sumita Mukherjee, Rehana Ahmed, 2011-12-22 This volume offers an alternative way of conceiving the history of Britain by excavating and exploring the numerous ways in which South Asians in Britain engaged in radical

discourse and political activism from 1858 to 1947 before their more permanent migration and settlement The book focuses on a tumultuous period of resistance against the backdrop of high imperialism under the reign of Victoria through the turmoil of two World Wars and Partition in 1947 As well as addressing resistances against empire and hierarchies of race the authors investigate how South Asians in Britain mobilized to campaign for women's suffrage the Indian princess Sophia Duleep Singh for example or for an international socialism the Communist MP Shapurji Saklatvala thereby contributing to and complicating notions of freedom equality and justice This volume reframes these pioneers as social and political agents and activists and shows how Britain's contemporary multicultural society is rooted in their mobilization for equality of citizenship

Citizenship and Immigration in Postwar Britain

Randall Hansen, 2000-06-01 In this contentious and ground breaking study the author draws on extensive archival research to provide a new account of the transformation of the United Kingdom into a multicultural society through an analysis of the evolution of immigration and citizenship policy since 1945 Against the prevailing academic orthodoxy he argues that British immigration policy was not racist but both rational and liberal In this ground breaking book the author draws extensively on

archival material and theoretical advances in the social science literature *Citizenship and Immigration in Post war Britain* examines the transformation since 1945 of the UK from a homogeneous into a multicultural society Rejecting a dominant strain of sociological and historical inquiry emphasizing state racism Hansen argues that politicians and civil servants were overall liberal relative to the public to which they owed their office and that they pursued policies that were rational for any liberal democratic politician He explains the trajectory of British migration and nationality policy its exceptional liberality in the 1950s its restrictiveness after then and its tortured and seemingly racist definition of citizenship The combined effect of a 1948 imperial definition of citizenship adopted independently of immigration and a primary commitment to migration from the Old Dominions locked British politicians into a series of policy choices resulting in a migration and nationality regime that was not racist in intention but was racist in effect In the context of a liberal elite and an illiberal public Britain's current restrictive migration policies result not from the failing of its policy makers but from those of its institutions **A**

Black British Intellectuals and Education Paul Warmington, 2014-02-24 Ask any moderately interested Briton to name a black intellectual and chances are the response will be an American name Malcolm X or Barack Obama Toni Morrison or Cornel West Yet Britain has its own robust black intellectual traditions and its own master teachers among them C L R James Claudia Jones Ambalavaner Sivanandan Stuart Hall and Paul Gilroy However while in the USA black public intellectuals are an embedded if often embattled feature of national life black British thinkers remain routinely marginalized Black British Intellectuals and Education counters this neglect by exploring histories of race education and social justice through the work of black British

public intellectuals academics educators and campaigners The book provides a critical history of diverse currents in black British intellectual production from the eighteenth century through post war migration and into the post multicultural present focusing on the sometimes hidden impacts of black thinkers on education and social justice Firstly it argues that black British thinkers have helped fundamentally to shape educational policy practice and philosophy particularly in the post war period Secondly it suggests that education has been one of the key spaces in which the mass consciousness of being black and British has emerged and a key site in which black British intellectual positions have been defined and differentiated Chapters explore the early development of black British intellectual life from the slave narratives to the anti colonial movements of the early twentieth century how African Caribbean and Asian communities began to organize against racial inequalities in schooling in the post Windrush era of the 1950s and 60s how from out of these grassroots struggles black intellectuals and activists of the 1970s 80s and 90s developed radical critiques of education youth and structural racism the influence of multiculturalism black cultural studies and black feminism on education current developments in black British educational work including post racial approaches Critical Race Theory and black social conservatism Black British Intellectuals and Education will be of key relevance to undergraduates postgraduates and academics engaged in research on race ethnicity education social justice and cultural studies
