Rediscovering The Sacred Perspectives On Religion In Contemporary Society:

Rediscovering the Sacred Robert Wuthnow,1992 Claiming that the realm of the sacred in modern societies is characterized more by rediscovery than by revival Wuthnow examines the main theoretical approaches toward religion that have emerged of late in the social sciences and shows how these approaches can help explain the shifting location of the sacred

The Ambivalence of the Sacred Scott R. Appleby,2000 This text explains what religious terrorists and religious peacemakers share in common and what causes them to take different paths in fighting injustice

God's Mission in Asia Ken Christoph Miyamoto,2007-06-15 Ecumenism in postwar Asia institutionalized in the Christian Conference of Asia displayed a remarkable this worldliness from its inception in the 1940s This tendency was in contrast to the tension between the church centric and world centric approaches to Christian mission that marked conciliar mission thinking in the West This work examines the development of such this worldly holiness in Asian ecumenism focusing on M M Thomas of India and C S Song from Taiwan Special attention is drawn to the idea of God s this worldly presence that considers God as redemptively at work in world history apart from the church The study first compares the development of this worldly holiness in the West and Asia and then examines the thinking of Thomas and Song The chapters on these two theologians discuss their backgrounds the basic concerns motivating their intellectual searches and responses to the questions arising from such concerns These chapters also try to understand how these theologians view the relationship between God and the world In so doing the study highlights the significance of the idea of God s this worldly presence shared by Thomas and Song in spite of differences in their backgrounds approaches and theological formulations Having compared Thomas and Song the study concludes that the idea of God s this worldly presence became central to Asian ecumenism because it offered a common unifying vision to Asian Christians who come from a region characterized by tremendous diversity The idea helped them to see the diverse peoples cultures and religions in Asia under one God who transcends the diversity and still takes it seriously

The Dispensational-Covenantal Rift

R. Todd Mangum, 2007-06-01 This groundbreaking study explores how the fight between dispensationalists and covenant theologians started and how a unique dynamic of personalities and sociological factors enflamed it. Readers may be surprised to discover that even the terminology of dispensationalists and covenant theologians originated in the 1930s disputes that the majority of the original protagonists on both sides were Presbyterians and that soteriology rather than eschatology was the original bone of contention between them. This study examines how two respective strands of fundamentalism came to identify one another as theological rivals as they each vied for position in their recently formed separatist bodies. The significance of disagreements over dispensationalism is explored in the founding of the Orthodox Presbyterian and Bible Presbyterian churches. And then as the debate traveled southward, the response of the PCUS is examined with special attention given to the consummative reports of an ad hoc committee that found dispensationalism to be out of harmony with the Westminster doctrinal standards. Significant misunderstandings that impeded fruitful dialogue from the beginning are clarified, particularly those that have persisted most stubbornly to the present day. Perhaps most surprising of all, the reader will discover that nearly all of the original points of debate between dispensationalists and covenant theologians have since been resolved as each side has honed its position in light of pertinent critiques. Why has this development gone almost unnoticed? This study suggests an answer and proposes that understanding how the feud began may hold the key to rapprochement today.

Nursing the Spirit Don Grant, 2023-05-23 Illness and death have always raised profound spiritual concerns. However, today most people experience suffering and treatment in hospitals and other impersonal bureaucratic facilities whose employees are expected to follow scientific, rationalized norms of behavior. How do professional caregivers—the nurses and other workers who tend to patients—navigate between science and spirituality? Don Grant investigates the subtle ways that nurses at an academic medical center incorporate spirituality into their care work. Based on extensive fieldwork and an in-depth survey on spirituality, this book finds that many nurses see themselves as responsible for not only patients' physical health but also their spiritual well-being. They believe they are able to reconcile science and spirituality through storytelling and claim that they can provide more spiritual care than chaplains. However, nurses rarely talk about religion among themselves because they are concerned that their colleagues are uncomfortable discussing spirituality. Nevertheless, by seeking to honor patients' ultimate worth as human beings, many nurses are able to instantiate spiritual values of care. Grant interweaves his experiences as a hospital volunteer chaplain and a living liver transplant donor with empirical analyses of nurses' spiritual work. Developing a new understanding of the social significance of religion, *Nursing the Spirit* recasts the intersection of science and spirituality by centering the perspectives of the people who provide care.

Steel City Gospel Keith A. Zahniser, 2013-04-15 Demonstrating the power religious language, ideas, and institutions had in shaping progressive reform in Pittsburgh, this cross-disciplinary study addresses significant debates in the fields of

Progressive Era political history and American religious history while telling the story of an industrial city in a crucial era of change

Above All Earthly Powers David F. Wells, 2006-08 In this prophetic call to the evangelical church Wells stresses that Christians need to confess Christ as the center in a society lacking a center as the sovereign in a world seemingly ruled by chance and as the one who can give meaning in a nihilistic culture *Broadcasting the Faith* Michael E. Pohlman, 2021-02-02 *Broadcasting the Faith* tells the riveting story of the American church's embrace of radio in the early decades of the twentieth century By investigating major radio personalities like Walter Maier Aimee Semple McPherson Harry Emerson Fosdick and Charles Fuller this study considers the implications for theology in America when Christianity moved to the airwaves In the heyday of radio religious radio preachers sought to use their programs to counter the secularization of American culture Ultimately however their programs contributed to secularization by accelerating changes already evident in both the conservative and liberal streams of American Christianity To reach a vast American audience radio preachers transformed their sectarian messages into a religion more suitable to the masses thereby altering the very religion it aimed to preserve To make religion accessible to large and diverse audiences radio preachers accommodated their messages in ways suited to the medium of radio Although religious radio preachers set forth to advance the influence of religion in American society their choice to limit theological substance ironically promoted the secularization of the American church

Religions of Modernity Stef Aupers, Dick Houtman, 2010-07-07 *Religions of Modernity* challenges the social scientific orthodoxy that once unleashed the modern forces of individualism science and technology inevitably erode the sacred and evoke the profane The book's chapters some by established scholars others by junior researchers document instead in rich empirical detail how modernity relocates the sacred to the deeper layers of the self and the domain of digital technology Rather than destroying the sacred tout court then the cultural logic of modernization spawns its own religious meanings unacknowledged spiritualities and magical enchantments The classical theoretical accounts of modernity by Max Weber Emile Durkheim and others it is argued in the introductory chapter already hinted that there's a future for such religions of modernity Contributors Stef Aupers Kelly Besecke Kirsten Marie Bovbjerg Siobhan Chandler Olav Hammer Dick Houtman Murray Lee Carly Machado Karen P. rna Adam Possamai Linda Woodhead and Dorien Zandbergen

You Can't Put God in a Box Kelly Besecke, 2014 The advent of modernity brought with it a crisis of faith Science had upended the religious certainties of earlier eras and believers in the West were cast adrift Some turned to a strident fundamentalism while more recently growing numbers have shunned religion altogether In *You Can't Put God in a Box* Kelly Besecke offers a fascinating examination of people who have found a middle way what is known as reflexive spirituality Those who practice reflexive spirituality Besecke shows draw equally on religious traditions and traditions of reason in the pursuit of transcendent meaning They prefer metaphor to literalism spiritual experience to doctrinal belief religious pluralism to religious exclusivism or inclusivism and ongoing inquiry to final answers They find inspiration in liberal theologies of any

number of faiths and allies among the spiritual but not religious Besecke draws on original qualitative data to describe how people practiced reflexive spirituality in an urban United Methodist church an interfaith adult education center and a variety of secular settings By doing so she provides a window into the theological thinking of educated spiritual seekers and religious liberals and shows how they have come up with a unique way of addressing the problem of modern meaninglessness

Stories of a Recovering Fundamentalist James C. Alexander, 2008-04-30 It has been said that the opposite of faith is not doubt but certainty Drawing on this notion *Stories of a Recovering Fundamentalist Understanding and Responding to Christian Absolutism* recounts the author's journey as a member of the fundamentalist subculture as a child and his life among the Jesus Freaks Jesus Movement a congregation of deserters from the hippie drug culture of the late 1960s and early 1970s This movement though of great importance in the culture of the times now largely goes unrecognized although the Jesus Movement provided the cover stories for many prominent secular magazines chronicling the youth culture of the late 60s and early 70s While not devoted to a history of the Jesus Movement the book does a service in bringing a discussion of the Jesus Freak phenomenon to the attention of today's readers The book goes on to recount the author's eventual abandonment of fundamentalism As the story unfolds critical research related to the psychology sociology and history of the subculture provides a framework for understanding Christian fundamentalism *Stories of a Recovering Fundamentalist* recounts a gripping personal pilgrimage at times both humorous and painful that is rooted in honest reflection and informed by theory and research It offers worthwhile reading for mainline Christians curious evangelicals recovering fundamentalists or anyone wanting to understand this timely topic

Secularism and the Pursuit of Transcendence, Volume I Stanley E. Porter, Wendy J. Porter, 2025-02-20 We live in a secular age or so we have been told Nevertheless the Christian church strongly believes that we still experience and in fact are surrounded by acts of transcendence encounters with God that often defy imagination and explanation And yet we do try to explain such phenomena whether theologically experientially biblically historically philosophically literarily or even or especially artistically These two volumes are more than just papers from a major conference on secularism and the pursuit of transcendence held at McMaster Divinity College in Hamilton Ontario They contain genuine attempts by people deeply engaged with their secular surroundings to explain what we mean by transcendence Transcendence has been a longstanding topic among the best thinkers of this and previous ages and the same is true for these volumes which include contributions by Charles Taylor Robert Wuthnow Merold Westphal and Christina Gschwandtner but also by a wide range of others who address the question from divergent vantage points The responses vary as much as the orientations of those involved in the pursuit of defining not only what it means to live in our secular age but to be involved in the pursuit of transcendence or even to perceive the Transcendent s pursuit of us

Berger on Religion** Titus Hjelm, 2024-04-30 Peter L Berger on Religion provides an overview and critical assessment of the work of one of the most influential sociologists of the 20th century Situating Berger s writings on religion and secularisation in the broader framework of social constructionism the book argues that neither he nor the research influenced by him consistently followed the constructionist paradigm This assessment is informed by a close examination of The Sacred Canopy 1967 in particular The volume also offers a Berger inspired constructionist framework for the study of religion This book is an excellent resource for students and researchers interested in the intersection of religion and social theory
