Loves Silence And Other Poems:

A Lifetime of Love and Other Poems Don Mirabel, 2011-02-16 This volume of lifetime poems traces the awakening and development of love in one man's journey of fifty eight years through married life Now eighty years old he is still discovering how love evolves with age and is attempting to capture each new revelation and process it through his unique poetic filter He is a devotee of the sonnet form and you will find that the majority of his poems are sonnets written in every standard rhyme sequence In several instances he even experiments with unusual rhyme schemes In the second part of the book Other Poems the author explores other aspects of the human condition Where he feels it necessary to clarify the subject of a poem or explain its origin he provides an explanatory preface or footnote This book is Mr Mirabel's debut anthology although he has been urged by family and friends for many years to publish his poetry His reason for finally succumbing to the pressure It would be nice to be discovered while I am still alive and able to be aware of it rather than after I'm gone and never to know it

Beauty. A Poem. By the Author of "Silent Love" [i.e. Andrew Park]. Andrew PARK, 1853 **Love Idylls, Ballads, and Other Poems** Henry Dryerre, 1884 **And Quiet Flows the Teesta & Other Poems** Saakal Ulysses Dewan, 2022-04-06 And Quiet Flows the Teesta Other Poems is a collection of poems that are based on themes as diverse as love politics and science As the title of the anthology suggests the book seeks to highlight the plight of the river Teesta which is culturally significant and a major river in the Sikkim North Bengal riparian region of the Indian sub continent The river worshipped by the indigenous Lepcha community has been exploited for hydel power generation in the face of opposition by the peace loving community and environmental activists who are concerned by the ecological repercussions of the development Drawing inspiration from Lepcha community myth the book begins with stifled love between Teesta and Rangeet rivers and celebration of nature's beauty by the poet The poems run through the entire spectrum of the poet's experience affected by the events occurring around him from the perspective of his personal love to the challenges posed by decadent politics environmental pollution and the Corona pandemic In his anthology the poet weaves a child's curiosity with a lover's intense passion tempered by a philosopher's sagacity Peppered with philosophical satirical romantic and imaginative elements the anthology presents an eclectic feast of different shades of human emotion to be relished by the readers [Life, Love and Death in Latin Poetry](#) Stavros Frangoulidis, Stephen J. Harrison, 2018-03-19 Inspired by Theodore Papanghelis Propertius A Hellenistic Poet on Love and Death 1987 this collective volume brings together seventeen contributions written by an international team of experts exploring the different ways in which Latin authors and some of their modern readers created narratives of life love and death Taken together the papers offer stimulating readings of Latin texts over many centuries examined in a variety of genres and from various perspectives poetics and authorial self fashioning intertextuality fiction and reality gender and queer studies narratological readings temporality and aesthetics genre and meta genre structures of the narrative and transgression of boundaries on the ideological and the formalistic level reception

meta dramatic and feminist accounts the female voice Overall the articles offer rich insights into the handling and development of these narratives from Classical Greece through Rome up to modern English poetry

Love and Other Poems Alex Dimitrov, 2021-02-18 Alex Dimitrov's third book *Love and Other Poems* is full of praise for the world we live in Taking time as an overarching structure specifically the twelve months of the year Dimitrov elevates the everyday and speaks directly to the reader as if the poem were a phone call or a text message From the personal to the cosmos the moon to New York City the speaker is convinced that love is our best invention Dimitrov doesn't resist joy even in despair These poems are curious about who we are as people and shamelessly interested in hope

Non-Elegiac Latin Love Poetry of Late Antiquity Vasileios Pappas, 2025-05-19 For about five hundred years between Ovid's death 17 AD and Maximianus Elegies 6th century AD the genre of love elegy disappears Does this mean that love poetry in general was no longer being written This was certainly not the case Poets continued to compose love poetry merely in other forms than elegy This book deals with non elegiac Latin love poetry of Late Antiquity It is the first monograph to focus on the metaliterary interpretation of four non elegiac poetic works the *Pervigilium Veneris* Ausonius Bissula Reposianus *De concubitu Martis et Veneris* and the *Aegritudo Perdicae* The book contains all the required information about these poems including their date authorship structure and literary tradition However its content is predominantly original as it examines subjects that have not previously been discussed in the past These include a the generic interaction between the poems host genre and several guest genres that are present within them b the metaliterary discourse developed in several passages which reveals the metapoetic self consciousness of their poets c their hidden demands for the innovation of love poetry and d their allusive comments on the conservatism of this era
