The Second Red Scare and the Unmaking of the New Deal Left Landon R.Y. Storrs,2013 The loyalty investigations triggered by the Red Scare of the 1940s and 1950s marginalised many talented women and men who had entered government service during the Great Depression seeking to promote social democracy as a means to economic reform Their influence over New Deal policymaking and their alliances with progressive labour and consumer movements elicited a powerful reaction from conservatives who accused them of being subversives Landon Storrs draws on newly declassified records of the federal employee loyalty program created in response to fears that Communists were infiltrating the U S government to reveal how disloyalty charges were used to silence these New Dealers and discredit their policies Because loyalty investigators rarely distinguished between Communists and other leftists many noncommunist leftists were forced to leave government or deny their political views Storrs finds that loyalty defendants were more numerous at higher ranks of the civil service than previously thought and that many were women or men with accomplished leftist wives Uncovering a forceful left feminist presence in the New Deal she shows how opponents on the Right exploited popular hostility to powerful women and their effeminate spouses The loyalty program not only destroyed many promising careers it prohibited discussion of social democratic policy ideas in government circles narrowing the scope of political discourse to this day Through a gripping narrative based on remarkable new sources Storrs demonstrates how the Second Red Scare undermined the reform potential of the New Deal and crippled the American welfare state Jacket

Priests of Our Democracy Marjorie Heins,2013-12-22 *Priests of Our Democracy* tells of the teachers and professors who battled the anti communist witch hunt of the 1950s It traces the political fortunes of academic freedom beginning in the late 19th century both on campus and in the courts Combining political and legal history with wrenching personal stories the book details how the anti communist excesses of the 1950s inspired the Supreme Court to recognize the vital role of teachers and professors in American democracy The crushing of dissent in the 1950s impoverished political discourse in ways that are still being felt and First Amendment academic freedom a product of that period is in peril today In compelling terms this book shows why
