Martial Arts Mayhem **Martial Arts, Muscles and Mayhem** Dave Turton, 2002-11-01 **Realistic Martial Arts for Violence and Peace: Law, Enforcement, Defense** Michael DeMarco, M.A., 2016-05-29 Criminals police military forces and civilians practice martial arts which often utilize weapons One major difference is whether or not the weapons are handled according to legal guidelines This special anthology includes insightful writings that focus on aspects of martial arts as they are practiced and used by different people on both sides of the law Certainly most practicing a martial art are doing so primarily for their health or as a sport Perhaps they have an interest in self defense but often their practice methods are not realistic enough to be truly effective For this reason Friman and Pollard s first chapter deals with the concern for realistic methods for training martial artists particularly those involved in law enforcement In the following chapter on The Art of Regulation Dr Friman argues that the martial arts are more likely to face government regulation when authorities perceive them as posing challenges to the state s monopoly over the means to create and maintain order In the quest for maintaining order Alex Levitas shows in the next chapter that martial arts weapons are widely used by police forces in many countries Applications are illustrated by photographs credited to noted law enforcement pioneers in this area including Terrence Winston Robert Fabrey Roy Bedard and Robert Koga Two chapters by Noah Nunberg examine the practical legal aspects of using martial arts techniques while training in the martial arts studio or in defending oneself on the street Assault and battery are examined in depth as to potential criminal and civil liabilities that may arise Specific cases and hypothetical situations are referred to for reference and insight Dr Roman and Dr Garcia write about the scope and legal framework of penitentiary self defense This kind of self defense is defined by the unique characteristics of a confinement context and a very specific regulation aimed at preserving the integrity of prisoners and penitentiary staff as well as prison facilities A technical section is also included In the system known as Comprehensive Penitentiary Defense Dr Roman presents techniques which professionals in this field must master and know how to apply when they face any hazardous situation These techniques go from peaceful conflict resolution assertiveness or body language to joint control immobilization or pressures In the face of regulating martial art practice and weapons useage the final chapter by Peter Hobart inspects the right to bear arms Existing criminal laws and recent weapons bans have made it increasingly problematic for legitimate martial artists to

own use and transport the tools of their trade This survey of existing state and national weapons laws is intended to help make martial arts practitioners aware of these legal issues All who read this book whether involved in professions of law enforcement military branches or as a martial arts instructor or practitioner will find each chapter of vital importance We hope you will enjoy this anthology as it provides excellent coverage of aspects of the martial arts that are rarely discussed but have profound practicality

The Buddha Party John Powers, 2017 The Buddha Party tells the story of how the People's Republic of China employs propaganda to define Tibetan Buddhist belief and sway opinion within the country and abroad The narrative they create is at odds with historical facts and deliberately misleading but John Powers argues it is widely believed by Han Chinese Most of China's leaders appear to deeply believe the official line regarding Tibet which resonates with Han notions of themselves as China's most advanced nationality and as a benevolent race that liberates and culturally uplifts minority peoples This in turn profoundly affects how the leadership interacts with their counterparts in other countries Powers's study focuses in particular on the government's patriotic education campaign an initiative that forces monks and nuns to participate in propaganda sessions and repeat official dogma Powers contextualizes this within a larger campaign to transform China's religions into patriotic systems that endorse Communist Party policies This book offers a powerful comprehensive examination of this ongoing phenomenon how it works and how Tibetans resist it
