

To achieve this qualification, you are required to compile a portfolio of evidence using the Qaals Direct platform. This will ensure a level of performance that is consistent with awarding bodies requirements. The qualification is compartmentalised into two distinct categories encompassing knowledge and performance criteria however, you will note that the weighting reflects a focus toward the latter. As this is a vocational qualification, your primary objective is to demonstrate a consistent and competent performance regarding key duties within your current job role, that reflects the national occupational standards based on the qualification you have enrolled upon.

This will likely derive from a variety of sources including:

- Direct observations of competence in the real workplace
- Witness Testimony
- Logs/Diaries kept by Candidates
- Recorded answers to questions posed by the Assessor
- Recorded/Transcribed interviews with the Candidate
- Recorded use of up-to-date commercial/industrial equipment
- e-portfolios and other forms of digital media, video recordings of you carrying your duties, via personal audio recordings
- Works documentation attributable to the candidate
- Both interim and final internal verification

Coupled with this you will also need to provide sufficient evidence to justify achievement of key knowledge requirements. This will typically relate to written accounts based on reflective practice. A holistic approach to assessment will be encouraged throughout your study to ensure that efficient and practical methodologies are being applied where possible. Put simply, all primary and valid evidence sources will be used to cover a variety of criteria across a suite of units. With reference to this approach, please ensure that all uploaded evidence is both detailed and robust. The information that will follow is intended only as guidance. Care should be taken to ensure that all work presented is reflective of own circumstances and clearly relates to the assessment criteria. It is the learner's responsibility to check that all evidence sources are synonymous with the requirements of the assessment criteria prior to submission.

Use the evidence criteria template to record and reference the evidence.
