Persian Literature:

Written Middle Persian Literature under the Sasanids Kevin Van Bladel, 2024-09-01 Although there was oral literature among speakers of ancient Iranian languages the author argues that there is no valid reason to assume that Middle Persian speakers alone among sedentary peoples of their time never or seldom wrote literary works in their language Not only are there many Middle Persian literary works surviving in translation and sufficient testimonies to the existence of Middle Persian literary works now lost and to Sasanian Middle Persian literacy there are also strong explanations for their general nonsurvival that eliminate the assumption of a theory of predominant literary orality and disinclination to write literature an argumentum ex silentio We may reasonably assume that it is wrong to propose that what happens to survive in the original language on stone and metal surfaces and in desert environments represents the true range of Sasanian Middle Persian the odds are far against it Especially when propped up by a concept of ancient Iranians and without any definition of literature or the literary it has no sound basis and is contradicted by a variety of extant sources

The Representation of the Ottoman Orient in Eighteenth Century English Literature Hasan Baktir, 2010-08-01 Inspired by the growing interest in oriental countries and cultures Hasan Baktir examines the representation of the Ottoman Orient in 18th century English literature taking a new perspective to achieve a comprehensive understanding and investigating different aspects of the interaction between the Ottoman Orient and 18th century Europe A number of questions continue to arise in the wake of Said's 1978 landmark study *Orientalism* How monodirectional was the flow of power in such representations To what extent did the travelling observer also participate and become influenced by the phenomena he tried to depict without attachment What variety of motivations lay behind the desire to know and represent the Oriental other was it simply a question of political control Or were there deeper more enigmatic factors at play sexuality existential affirmation even utter idiosyncrasy How various and diverse was the Western response to the East can we discern degrees of sympathy knowledge and difference in the various Orients offered to us by the canonical and non canonical figures of 18th century English letters Baktir's study provides answers to many aspects of these questions through a detailed examination of very different texts Baktir does not completely reject Said's argument that European writers created a separate discourse to represent the Orient rather he shows us that there was also a dialogic and negotiating tendency which did not make a radical distinction between the East and the West Relying his argument on 18th century pseudo oriental letters oriental tales and oriental travelogues Baktir demonstrates that the representation of the Ottoman Orient in 18th century English literature differs essentially from earlier centuries because a developing critical and liberal spirit established a negotiation between the two worlds In this book he indicates how the critical and inquisitive spirit of the age of Enlightenment interanimated Oriental and European cultures

[A Restitution for Decayed Intelligence in Antiquities](#) Richard Verstegan, 2023-05-02

The launch of Britain s Anglo Saxon origin myth and the first Old English etymological dictionary This is the only book in human history that presents a confessional description of criminal forgery that fraudulently introduced the legendary version of British history that continues to be repeated in modern textbooks Richard Verstegan was the dominant artist and publisher in the British Ghostwriting Workshop that monopolized the print industry across a century Scholars have previously described him as a professional goldsmith and exiled Catholic propaganda publisher but these qualifications merely prepared him to become a history forger and multi sided theopolitical manipulator The BRRAM series computational linguistic method attributes most of the British Renaissance s theological output including the translation of the King James Bible to Verstegan as its ghostwriter Beyond providing handwriting analysis and documentary proof that Verstegan was the ghostwriter behind various otherwise bylined history changing texts this translation of Verstegan s self attributed Restitution presents an accessible version of a book that is essential to understanding the path history took to our modern world On the surface Restitution is the first dictionary of Old English and has been credited as the text that established Verstegan as the founder of Anglo Saxon studies The Exordium reveals a much deeper significance behind these firsts by juxtaposing them against Verstegan s letters and the history of the publication of the earliest Old English texts to be printed starting in 1565 at the same time when Verstegan began his studies at Oxford Verstegan is reinterpreted as the dominant forger and self translator of these frequently non existent manuscripts whereas credit for these Old English translations has been erroneously assigned to puffed bylines such as Archbishop Parker and the Learned Camden s Society of Antiquaries When Verstegan s motives are overlayed on this history the term Anglo Saxon is clarified as part of a Dutch German propaganda campaign that aimed to overpower Britain by suggesting it was historically an Old German speaking extension of Germany s Catholic Holy Roman Empire These ideas regarding a pure German race began with the myth of a European unified origin myth with their ancestry stemming from Tuisco shortly after the biblical fall of Babel Tuisco is described variedly as a tribal founder or as an idolatrous god on whom the term Teutonic is based This chosen people European origin myth was used across the colonial era to convince colonized people of the superiority of their colonizers A variant of this myth has also been

reused in the Aryan pure race theory the term Aryan is derived from Iran according to the theology Verstegan explains this pure Germanic race originated with Tuisco's exit from Babel in Mesopotamia or modern day Iraq but since Schlegel's *ber* 1808 introduced the term Aryan this theory's key term has been erroneously referring to modern day Iran in Persia Since Restitution founded these problematic Anglo Saxon ideas the lack of any earlier translation of it into Modern English has been preventing scholars from understanding the range of deliberate absurdities contradictions and historical manipulations behind this text And the Germanic theological legend that Verstegan imagines about Old German deities such as Thor Zeus thunder Friga Venus love and Seater Saturn is explained as part of an ancient attempt by empires to demonize colonized cultures when in fact references to these deities were merely variants of the Greco Roman deities names that resulted from a degradation of Vulgar Latin into early European languages Translations of the earlier brief versions of these legends from Saxo 1534 1234 John the Great 1554 and Olaus the Great 1555 shows how each subsequent history adds new and contradictory fictitious details while claiming the existence of the preceding sources proves their veracity This study also questions the underlying timeline of British history proposing instead that DNA evidence for modern Britons indicates most of them were Dutch Germans who migrated during Emperor Otto I's reign 962 973 when Germany first gained control over the Holy Roman Empire and not in 477 as the legend of Hengist and Horsa as Verstegan satirically explains both of these names mean horse dictates The history of the origin of Celtic languages such as Welsh is also undermined with the alternative theory that they originated in Brittany on France's border as opposed to the current belief that British Celts brought the Celtic Breton language into French Brittany when they invaded it in the 9th century There are many other discoveries across the introductory and annotative content accompanying this translation to stimulate further research

Davidson* Charles de Secondat baron de Montesquieu, 1892 **The Spirit of Montesquieu's Persian Letters** Constantine Christos Vassiliou, Jeffrey Church, Alin Fumurescu, 2023-05-08 This book's primary purpose is to commemorate the 300th anniversary of Montesquieu's Persian Letters a seminal book in classical liberal thought Persian Letters is a delightfully rich sympathetic satire of commercial society's promise and discontents covering a wide range of issues and themes that shaped the direction of liberal modernity It consists of a series of letters largely written by two Persian travelers to Paris who allow modern readers to view Parisian life from the perspective of an outsider The volume includes contributions from prominent scholars of Montesquieu's and early career scholars who have recently unearthed new and exciting avenues for understanding this important hinge figure in modern political thought **The Medieval Islamic Republic of Letters** Muhsin J. al-Musawi, 2015-04-15 In The Medieval Islamic Republic of Letters Arabic Knowledge Construction Muhsin J al Musawi offers a groundbreaking study of literary heritage in the medieval and premodern Islamic period Al Musawi challenges the paradigm that considers the period from the fall of Baghdad in 1258 to the collapse of the Ottoman Empire in 1919 as an Age of Decay followed by an Awakening al nahdah His sweeping synthesis debunks this view by carefully documenting a republic of letters in the Islamic Near East and South Asia that was vibrant and dynamic one varying considerably from the generally accepted image of a centuries long period of intellectual and literary stagnation Al Musawi argues that the massive cultural production of the period was not a random enterprise instead it arose due to an emerging and growing body of readers across Islamic lands who needed compendiums lexicons and commentaries to engage with scholars and writers Scholars too developed their own networks to respond to each other and to their readers Rather than addressing only the elite this culture industry supported a common readership that enlarged the creative space and audience for prose and poetry in standard and colloquial Arabic Works by craftsmen artisans and women appeared side by side with those by distinguished scholars and poets Through careful exploration of these networks The Medieval Islamic Republic of Letters makes use of relevant theoretical frameworks to situate this culture in the ongoing discussion of non Islamic and European efforts Thorough theoretically rigorous and nuanced al Musawi's book is an original contribution to a range of fields in Arabic and Islamic cultural history of the twelfth to eighteenth centuries *The Jewish Encyclopedia: Italy-Leon*, 1925 [The Books that Made the European Enlightenment](#) Gary Kates, 2022-08-11 In contrast to traditional Enlightenment studies that focus solely on authors and ideas Gary Kates employs a literary lens to offer a wholly original history of the period in Europe from 1699 to 1780 Each chapter is a

biography of a book which tells the story of the text from its inception through to the revolutionary era with wider aspects of the Enlightenment era being revealed through the narrative of the book's publication and reception Here Kates joins new approaches to book history with more traditional intellectual history by treating authors publishers and readers in a balanced fashion throughout Using a unique database of 18th century editions representing 5 000 titles the book looks at the multifaceted significance of bestsellers from the time It analyses key works by Voltaire Adam Smith Madame de Graffigny Jean Jacques Rousseau and David Hume and champions the importance of a crucial innovation of the age the rise of the erudite blockbuster which for the first time in European history helped to popularize political theory among a large portion of the middling classes Kates also highlights how when and why some of these books were read in the European colonies as well as incorporating the responses of both ordinary men and women as part of the reception histories that are so integral to the volume
