HISTORICAL NOVELS REVIEW Kept me spellbound Reader review A fun fast read Reader review Excellent story and very exciting Reader review 1793 the French Revolutionary Wars continue When HMS Amazon is returning from an arduous duty in the Indian Ocean she encounters a French frigate in the Atlantic which unexpectedly opens fire a bloody sea battle ensues resulting in both triumph and personal tragedy for Acting Lieutenant John Fury A battered Amazon puts into Gibraltar for repairs and newly promoted Fury finds he is to be transferred away from his home on the Amazon and set a new challenge he will be the fifth lieutenant on the 74 gun man of war Fortitude The action never stops in Toulon where Fury is posted and he eventually finds himself defending a prominent fort ashore as the Republican armies inspired by a young artillery officer by the name of Napoleon Bonaparte establish a brutal siege of the port It is soon clear that Britain and her allies are going to be hard pressed to hold onto their prize But Fury has more to lose than most in the maelstrom of the siege he has met and fallen in love with a pretty French girl Sophie Gourrier Somehow as the defence crumbles he must rescue his men and Sophie from the doomed city John Fury s adventures started in Mr Midshipman Fury have you read it

[The Ship's Midwife](#) Peta Miller, 2023-06-01 Lives are about to be irrevocably changed following a typhus outbreak on a cramped emigrant ship bound for Australia 1850 Sarah Hallow is orphaned penniless and alone with only the skills learned from her midwife mother to guide her Passage on a ship bound for the new settlement of Brisbane Australia is her last option Though her skills are quickly dismissed by the ship s doctor Sarah is pleased to find instant friendship with her cabin mate Bridie a fiery Irish girl

with a sharp tongue and midwifery skills of her own When the two women come to the aid of a labouring woman onboard Sarah's dreams of opening her own midwifery practice in Brisbane don't seem so impossible Certainly not as impossible as her daydreams about the ship doctor's son who only seems to have eyes for her friend But something else is lurking on the ship a disease that has the power to take down even the strongest man and is about to rip through the ship like wildfire leaving only devastation in its path As caring for patients stretches Sarah and Bridie to their absolute limit thoughts of the future are rapidly eclipsed by their determination to survive If only they can make it to Australia with their lives and loves intact Inspired by true events this is a meticulously researched eye opening heart breaking soul warming story of survival love and grit for readers of Darry Fraser Alison Stuart and Tea Cooper A poignant story of love and loss and the triumph of the human spirit over adversity that will tug at your heart and have you reaching for the tissues Alison Stuart author of *The Goldminer's Sister*

Nelson's Arctic Voyage Peter Goodwin, 2019-05-16 In the summer of 1773 the 14 year old Horatio Nelson took part in an expedition to the Arctic which came close to ending his naval career before it had begun The expedition was to find a navigable northern passage between the Atlantic and Pacific and was supported by the Royal Society and King George III Two bomb vessels HMS Racehorse and Carcass were fitted out and strengthened under the command of Captain Hon Constantine Phipps It was an extremely cold Arctic summer and the ships became locked in ice far from Spitzbergen and were unable to cut their way out until days later when the wind changed and the ice broke up The ships were extricated and returned home On the trip the young Nelson had command of one of the smaller boats of the ships a four oared cutter manned by twelve seamen In this he helped to save the crew of a boat belonging to the Racehorse from an attack by a herd of enraged walruses He also had a more famous encounter with a polar bear while attempting to obtain a bearskin as a present for his father an exploit that later became part of the Nelson legend Drawing on the ship's journals and expedition commander Phipps' journal from the National Archives the book creates a picture of the expedition and life on board Using the ship's muster books it also details the ship's crews giving the different roles and ranks in the ships The book is illustrated using some of the ship's drawings and charts and pictures of many objects used on the ship while a navigational chart of the route taken has been created from the logbooks The book also looks at the overall concept of naval exploration as set in train by Joseph Banks and the Royal Society The fact that the expedition failed as a result of poor planning with potentially tragic results demonstrates the difficulties and uncertainties of such an expedition It also looks at a great naval commander at the earliest stage of his career and considers how the experience might have shaped his later career and attitudes Other great captains and voyages are discussed alongside Nelson including Captain Cook and his exploration of the south seas and the later ill fated northern journeys of Franklin and Shackleton **The Illustrated London News**, 1927

Endeavor Robert L. and Fran Williams Smith, 2014-03 Endeavor to try to do to set about to owe to be under obligation to try hard to exert effort to make an earnest attempt to strive Endeavor begins as a story of five families related by blood

marriage and a sixth surrogate family by love and friendship It was the sixth family that raised an important question for the author as to how he defines family Are they family only those who are related by blood marriage or are they friendship legal action or something broader associated with functions that are similar to what we normally associate with a family Endeavor is about people who spent their entire lives striving to achieve something better for their families themselves and others without depreciating the value of their work contribution or others with whom they shared many things not the least of which often was unemployment and poverty Only one thing could overwhelm them fear of losing hope and their belief that things would be better It was their mantra for living Often beaten down they were rarely overwhelmed You will meet the Smiths immigrants from central Germany early in the nineteenth century You also will meet the Dungan s who came to the United States during the great potato famine in Ireland during the mid 1840s Neither as they frequently said Had a pot to pee in The mix of these two families three or four generations later is responsible for the author s presence in a peculiar form of memoir A second line of decent explains my wife s presence Her family came from very old lines in England specifically Cornwall Devon and Wales Her father immigrated to the United States at the very beginning of the 20th century and his future wife two years later The story begins with the Smiths peasants living in the Ruhr Valley early in the 19th Century where they labored in the coalmines and on their own small patch of land carved from the dark forest which was their first step up the ladder of achievement In those days work was communal as was most of life s other requirements The opening chapter is followed by the story of the Dungs beginning in the early 1850s They were dirt poor Irish who traded a potato famine starvation and poverty for a little land in a new world Kentucky Both stories will take the reader to the Great Depression of the 1930 s that shaped an American culture for two generations The third chapter will introduces the Williams Old and Goss families a treasure of Cornish cousins who formed tight family units for many generations and who generously included my wife and myself to their group when I married into the Williams family The Lows our adopted family are introduced in the sixth chapter Families at War From there on we leave it to the reader to sort out a remarkable collection of people who became the source of our human fire When we were alone with the wind crying Offered us the warmth of a human fire Partial quote from Many Winters by Nancy Wood *Popular Mechanics Magazine* ,1928 Exploration David Tory,2020-11-03 Seduction Spies Sodomy Starvation Severe cold Indian Attacks A plague of sickness and death And a love story too Isaac Stanfield is a young man with a thirst for adventure He leaves his home to become a sailor on a merchantman the Sweet Rose and through ingenuity and sheer luck finds himself in the middle of the drama and explorations that precede the departure of the Mayflower for New England in 1620 Exploration is Isaac s coming of age story capturing the turbulence of the times through his observations and experiences Suspenseful poignant and expertly researched David Tory s novel brings to life an engaging cultural history of English seafaring exploration and intrigue in the early 17th century *Hearings* United States. Sons of the Waves Stephen Taylor, 2020-05-19 A brilliant telling of the history of the common seaman in the age of sail and his role in Britain's trade exploration and warfare British maritime history in the age of sail is full of the deeds of officers like Nelson but has given little voice to plain illiterate seamen Now Stephen Taylor draws on published and unpublished memoirs letters and naval records including court martials and petitions to present these men in their own words In this exhilarating account ordinary seamen are far from the hapless sufferers of the press gangs Proud and spirited learned in their own fashion with robust opinions and the courage to challenge overweening authority they stand out from their less adventurous compatriots Taylor demonstrates how the sailor was the engine of British prosperity and expansion up to the Industrial Revolution From exploring the South Seas with Cook to establishing the East India Company as a global corporation from the sea battles that made Britain a superpower to the crisis of the 1797 mutinies these sons of the waves held the nation's destiny in their calloused hands The New Yorker, 1963 *Transactions - The Society of Naval Architects and Marine Engineers* Society of Naval Architects and Marine Engineers (U.S.), 1921 List of members in vols 1 24 38 54 57
