Craig, 2017-03-27 *The White Spaces of Kenyan Settler Writing* provides an overview of Kenyan literature by white writers in the half century before Independence in 1964 Such literature has been overshadowed by that of black writers to the point of critical ostracism It deserves attention for its own sake as the expression of a community that hoped for permanence but suffered both disappointment and dispossession It deserves attention for its articulation of an increasingly desperate colonial and Imperial situation at a time when both were being attacked and abandoned in Africa as in other colonies elsewhere and when a counter discourse was being constructed by writers in Britain as well as in Africa Kenya was likely the best known twentieth

century colony for it attracted publicity for its iconic safaris and its Happy Valley scandals Yet behind such scenes were settlers who had taken over lands from the native peoples and who were trying to make a future for themselves based on the labour willing or forced of those people This situation can be seen as a microcosm of one colonial exercise and can illuminate the historical tensions of such times The bibliography is an attempt to collect the literary resources of white Kenya in this historically significant period The Theban Empire Emmet Sweeney,2020-05-01 Burma is a resource rich country in transition from monarchy to British colony from independence to military dictatorships and from the Generals to the Lady Aung San Suu Kyi This book traces one of the longest civil wars in history It s about the Rohingya a brutally persecuted people It s about pro democracy uprisings about sacrifice and above all the human resilience and capacity for hope The book is based on true events and provides unique firsthand insights into key players in this enigmatic and troubled nation
