The Queening of America David Van Leer, 1995 Since at least the end of the nineteenth century gay culture its humour its icons its desires has been alive and sometimes even visible in the midst of straight American society David Van Leer puts forward here a series of readings that aim to identify what he calls the queening of America a process by which rhetorics and situations specific to homosexual culture are presented to a general readership as if culturally neutral The Queening of America examines how the invisibility of gay male writing especially in the popular culture of the 1950s and 1960s facilitated the crossing of gay motifs in straight culture Van Leer then critiques some current models of making homosexuality visible the packaging of Joe Orton the theories of Eve Kosofsky Sedgwick the rise of gay studies before concluding more optimistically with the possible alliances between gay culture and other minority discourses **Befriending the Queer**

William Foster, 1994-11-07 Gay and lesbian themes in Latin American literature have been largely ignored This reference fills this gap by providing more than a hundred alphabetically arranged entries for Latin American authors who have treated gay or lesbian material in their works Each entry explores the significance of gay and lesbian themes in a particular author's writings and closes with a bibliography of primary and secondary sources The figures included have a professed gay identity

or have written on gay or lesbian themes in either a positive or negative way or have authored works in which a gay sensibility can be identified The volume pays particular attention to the difficulty of ascribing North American critical perspectives to Latin American authors and studies these authors within the larger context of Latin American culture The book includes entries for men and women and for authors from Latin American countries as well as Latino writers from the United States The entries are written by roughly 60 expert contributors from Latin America the U S and Europe [Making](#)

Modern North American Criticism and Theory Julian Wolfreys, 2006-04-21 *Modern North*

American Criticism and Theory presents the reader with a comprehensive and critical introduction to the development and institutionalization of literary and cultural studies throughout the twentieth century and at the beginning of the twenty first. Focusing on the growth and expansion of critical trends and methodologies with particular essays addressing key figures in their historical and cultural contexts the book offers a narrative of change transformation and the continuous quest for and affirmation of multiple cultural voices and identities. From semiotics and the New Criticism to the identity politics of whiteness studies and the cultural study of masculinity this book provides an overview of literary and cultural study in North America as a history of questioning debate and exploration.

Frederick Douglass and Herman Melville Robert S. Levine, Samuel Otter, 2012-09-01 Frederick Douglass 1818 1895 and Herman Melville 1819 1891 addressed in their writings a range of issues that continue to resonate in American culture the reach and limits of democracy the nature of freedom the roles of race gender and sexuality and the place of the United States in the world. Yet they are rarely discussed together perhaps because of their differences in race and social position. Douglass escaped from slavery and tied his well received nonfiction writing to political activism becoming a figure of international prominence. Melville was the grandson of Revolutionary War heroes and addressed urgent issues through fiction and poetry laboring in increasing obscurity. In eighteen original essays the contributors to this collection explore the convergences and divergences of these two extraordinary literary lives. Developing new perspectives on literature biography race gender and politics this volume ultimately raises questions that help rewrite the color line in nineteenth century studies.
