Queens Mate Three Women Of Power In France On The Eve Of The Renaissance:

Queen's Mate Pauline Maud Matarasso, 2001 *Queen's Mate* tells the story of three remarkable women who shaped and presided over the destiny of France during the last years of the 15th century and the early part of the 16th Anne of France Anne of Brittany and Louise of Savoy Although each is worthy of her own individual biography their lives were so enmeshed by kinship marriage and circumstances as to be well served by a book that mirrors the complex interweaving of their lives Their story is rich enough in dramatic incident to provide a gripping narrative but the book looks also at the wider issues at the restrictions particularly in the exercise of power placed on the three women by society at their success in ignoring or pushing back those barriers at what they wanted or expected for their daughters and at how they saw themselves in relation to men The study draws largely on contemporary sources both printed and manuscript and presents material hitherto unknown or overlooked It is the first study of the three women as a group and indeed is one of the first modern reliable studies in English or French of any one of them as an individual

Hand,2017-07-05 Author Joni M Hand sheds light on the reasons women of the Valois courts from the mid fourteenth to the mid sixteenth century commissioned devotional manuscripts Visually interpreting the non text elements portraits coats of arms and marginalia as well as the texts Hand explores how the manuscripts were used to express the women s religious political and or genealogical concerns This study is arranged thematically according to the method in which the owner is represented Recognizing the considerable influence these women had on the appearance of their books Hand interrogates how the manuscripts became a means of self expression beyond the realm of devotional practice She reveals how noblewomen used their private devotional manuscripts as vehicles for self definition to reflect familial political and social concerns and to preserve the devotional and cultural traditions of their families Drawing on documentation of women s book collections that has been buried within the inventories of their fathers husbands or sons Hand explores how these women contributed to the cultural and spiritual character of the courts and played an integral role in the formation and evolution of the royal libraries in Northern Europe Anne of France Anne (of France),Sharon L. Jansen,2004 Anne of France 1461 1522 daughter of Louis XI and sister of Charles VIII was one of the most powerful women of the fifteenth century She was referred to by her contemporaries as Madame la Grande and remained an activeand influential figure in France throughout her life As the fifteenth century drew to a close Anne composed a series of enseignements lessons for her daughter Suzanne of Bourbon

These instructions represent a distillation of a lifetime's experience and are presented through the portrait of an ideal princess thus preparing her daughter to act both circumspectly and politically. Having steered her own course successfully, Anne offers her daughter advice intended to help her negotiate the difficult passage of a woman in the world of politics. This is the first translation into English of Anne of France's *Lessons*. *Early Modern French Autobiography* Nicolae Alexandru Virastau, 2021-04-06 This book offers a survey of the constitution of the French memoir tradition and explores in detail the works of four representative authors: Philippe de Commynes, Louise de Savoie, Philippe de Cheverny and François de Bassompierre. Works of self-writing were usually printed under the title of memoirs and have been often considered a uniform genre. These early forms of self-writing were in fact highly heterogeneous works at the crossroads of multiple genres: from the account book to the astrological diary. Their writing, printing and circulation challenge modern notions of autobiographical genres; their authorship is often questionable and collective, and they tended to be compiled in large collections for political ends without regard to the authors' intention. *Disability and the Tudors* Phillipa Vincent Connolly, 2021-11-10 Throughout history, how society treated its disabled and infirm can tell us a great deal about the period. Challenged with any impairment, disease or frailty was often a matter of life and death before the advent of modern medicine, so how did a society support the disabled amongst them? For centuries, disabled people and their history have been overlooked, hidden in plain sight. Very little on the infirm and mentally ill was written down during the Renaissance period. The Tudor period is no exception and presents a complex, unparalleled story. The sixteenth century was far from exemplary in the treatment of its infirm, but a multifaceted and ambiguous story emerges where society's natural fools were elevated as much as they were belittled. Meet characters like William Somer, Henry VIII's fool at court, whom the king depended upon and learn of how the dissolution of the monasteries contributed to forming an army of sturdy beggars who roamed Tudor England without charitable support. From the nobility to the lowest of society, Phillipa Vincent Connolly casts a light on the lives of disabled people in Tudor England and guides us through the social, religious, cultural and ruling classes' response to disability as it was then perceived. **The Lost Tapestries of the City of Ladies** Susan G. Bell, 2004-11-29 Susan Bell recounts her thirty-year search for tapestries based on Christine de Pizan's *City of Ladies* 1405 that were listed as possessions of 16th C European rulers, mostly women.

Papacy, Monarchy and Marriage 860-1600 David d'Avray, 2015-03-30 This analysis of royal marriage cases across seven centuries explains how and how far popes controlled royal entry into and exits from their marriages. In the period between c. 860 and 1600, the personal lives of kings became the business of the papacy. d'Avray explores the rationale for papal involvement in royal marriages and uses them to analyse the structure of church-state relations. The marital problems of the Carolingian Lothar II, of English kings John, Henry III and Henry VIII, and other monarchs, especially Spanish and French, up to Henri IV of France and La Reine Margot, have their place in this exploration of how canon law came to constrain pragmatic political manoeuvring within a system increasingly rationalised from the mid-thirteenth century on. Using
