The Quest for...

Learning Roots is a series of educational materials designed to help students learn about the history and culture of the Middle East. The series includes a variety of resources, including books, videos, and interactive activities. The first book in the series, "Companion Clues," introduces students to the region and its people. The second book, "Companion Quest," takes students on a journey to discover the secrets of the past. The third book, "Companion Quest," continues the journey and explores the many ways in which the Middle East has shaped the world we live in today.

Postmodern Ethics Elizabeth Wren-Owens,2009-05-05 *Postmodern Ethics* offers a new perspective on debates surrounding the role of the intellectual in Italian society and provides an original reading of two important Italian contemporary writers Leonardo Sciascia and Antonio Tabucchi It examines the ways in which the two writers use literature to engage with their socio political environment in a climate informed by the doubts and scepticism of postmodernism after traditional forms of impegno had been abandoned *Postmodern Ethics* explores ways in which Tabucchi and Sciascia further their engagement through embracing the very factors which problematized traditional committed writing such as the absence of fixed truths the inability of language to fully communicate ideas and intertextuality *Postmodern Ethics* provides an innovative new reading of Tabucchi s works It challenges the standard view in critical literature that his writing may be divided into engaged texts which dialogue with society and postmodern texts which focus on literary interiority suggesting instead that socio political engagement underpins all of his works It also offers a new lens on Sciascia s writing unpacking why Sciascia unlike his contemporaries is able to maintain a belief in literature as a means of dialoguing with society *Postmodern Ethics* explores the ways in which Tabucchi and Sciascia approach issues of terrorism justice the anti mafia movement immigration and the value of reading in connected yet distinct ways suggesting that a close genealogy may be drawn between these two key intellectual figures **Kafka's Italian Progeny** Saskia Elizabeth Ziolkowski,2020-01-06 This book explores Kafka s sometimes surprising connections with key Italian writers from Italo Calvino to Elena Ferrante who shaped Italy s modern literary landscape **Bibliography on Cold Regions Science and Technology ,1989**

Wilcox,2015-11-01 A Choice Outstanding Academic Title The Zuni are a Southwestern people whose origins have long intrigued anthropologists This volume presents fresh approaches to that question from both anthropological and traditional perspectives exploring the origins of the tribe and the influences that have affected their way of life Utilizing macro regional approaches it brings together many decades of research in the Zuni and Mogollon areas incorporating archaeological evidence environmental data and linguistic analyses to propose new links among early Southwestern peoples The findings reported here postulate the differentiation of the Zuni language at least 7 000 to 8 000 years ago following the initial peopling of the hemisphere and both formulate and test the hypothesis that many Mogollon populations were Zunian speakers Some of the contributions situate Zuni within the developmental context of Southwestern societies from Paleoindian to Mogollon Others test the

Mogollon Zuni hypothesis by searching for contrasts between these and neighboring peoples and tracing these contrasts through macro regional analyses of environments sites pottery basketry and rock art Several studies of late prehistoric and protohistoric settlement systems in the Zuni area then express more cautious views on the Mogollon connection and present insights from Zuni traditional history and cultural geography Two internationally known scholars then critique the essays and the editors present a new research design for pursuing the question of Zuni origins By taking stock and synthesizing what is currently known about the origins of the Zuni language and the development of modern Zuni culture Zuni Origins is the only volume to address this subject with such a breadth of data and interpretations It will prove invaluable to archaeologists working throughout the North American Southwest as well as to others struggling with issues of ethnicity migration incipient agriculture and linguistic origins *Subject Guide to Children's Books In Print, 1996* R R Bowker Publishing,1996
