The Genesis Factor David R. Helm, Jon M. Dennis, 2001-06-29 Using the Socratic method Helm and Dennis challenge readers to wrestle with Scripture itself rather than with systematic questions This candid look at Genesis is an ideal apologetic against today's postmodern culture

Matriarchs of the Messiah: 2nd Edition Jo Ann Skousen, 2023-02-14 The God of Abraham Isaac and Jacob is also the God of Sarah Rebecca and Leah In this fascinating book renowned scholar Jo Ann Skousen shines light on Christ's maternal ancestors including the reformed harlot Rahab the kind and loyal Moabite Ruth and the beautiful Bathsheba Filled with insights that still apply today this is a must read for followers of the Holy Bible

The Knowledge Drive Edward J. Bardon, 2008-08 The Knowledge Drive is an optimistic book that demonstrates how new more accurate information conveys survival value and inevitably supplants our dysfunctional mythological beliefs Before there was time for the accumulation of knowledge early man created legends and religious myths to understand the world and ease the paralyzing awareness of his own mortality and the fear of natural forces beyond his control We are increasingly aware of how these magical beliefs can lead to divisive religious practices violence and man's continuing inhumanity to fellow man Change is clearly needed Now rapid advances in many fields are giving us the techniques to modify our evolution and curtail our virulence We can establish a more universal equitable morality based on more accurate intelligence about our origins and place in the universe Nevertheless it is up to us as a species to choose our own future directions We are thus in charge of our own destiny a threatening thought to many No prayers or appeals to magical forces will help Dr Bardon analyzes how our quest for knowledge is a basic human drive similar to the sex and nourishment drives It arises from our survival instinct and is not based on moral or altruistic factors Along with establishing knowledge as a source of power the author discusses the Knowledge Drive from many other perspectives its various motivations the fact that it can be used for many purposes even destructive ones how it learns from adversity how it often exacerbates inequality and how it does not solve social problems unless given the necessary direction Dr Bardon looks at the multiple forces aligned against our efforts to obtain more reliable information He shows how the Knowledge Drive not only triumphs over but also learns from these negative elements Warnings about the fragility of our search for knowledge are misguided it is rather the people mired in mythology who are vulnerable and need our compassion

Doubting Thomas? Mark A. Beliles, Jerry Newcombe, 2014-10-21 A religious historian argues that historical revisionism has distorted the religious views of Thomas Jefferson making him appear far more skeptical than he was Thomas Jefferson and the founding fathers intended a strict separation of church and state right He would have been very upset to find out about a child praying in a public school or a government building used for religious purposes correct Actually the

history on this has been very distorted The standard accepted story on the faith of Thomas Jefferson or the lack thereof is not accurate While he did harbor some doubts about orthodox Christianity by the end of his life he was actually quite active in supporting the church in America Meanwhile in his name today because of a misunderstanding about the separation of church and state a phrase that comes from an obscure letter he wrote religious expression is being curtailed all over the place in modern America And he would absolutely object to that as seen in his own actions and writings While Jefferson may seem to be the patron saint of the ACLU his words and actions showed that he would totally disagree with the idea of driving God out of the public square Doubting Thomas documents that In short it s time to set the record straight *Heaven Wants to be Heard* Dudley Plunkett,1997 **To Hell with Picasso & Other Essays** Paul Johnson,2013-10-31 A rich and varied collection of essays Pugnacious and savage eloquent and unpredictable Paul Johnson sets out to entertain and to inform and to shake the complacency of his readers These essays selected from the best of his weekly pieces in *The Spectator* over the last five years range widely All his essays are liberally peppered with his astonishing knowledge of the highways and byways of the last thousand years of English history *Personal Pilgrimage* Viki Hurst,2000 Busy busy busy Your life is filled with endless day to day activities and you love it But you know that you need to take time for renewal to maintain balance if only you could find a spot in your full calendar Many people think of a pilgrimage as one of their ultimate lifetime goals an expensive lengthy journey to one of the world s holy sites that takes years to plan You don t have to wait until you have saved the money and can spare the time to start benefiting from a sacred journey You can create rewarding simple pilgrimages close to home This book introduces a life practice that fits into tight budgets and busy schedules These short affordable local versions of the traditional pilgrimage rejuvenate inspire and enlighten Twelve personal pilgrimage templates offer innovative and flexible outlines for your sojourn Try following the templates for a journey to a hilltop or a night time lookout or a place just 5 minutes from home You ll find wisdom and encouragement in The Index of Inspirational Guides creative exercises and meditative techniques that promote peace and balance and encourage spiritual exploration Good News for Moderns Nero James Pruitt,2015-06-27 There are many ways to be a Christian In *Good News for Moderns* author Nero James Pruitt shows that within the pages of the New Testament there is room for a diversity of Christianities This is a diversity that is not talked about often but when properly understood expands the perception of what a Christian is Consider the words of Justin Martyr the second century Christian writer recognized as a saint by the Catholic Church the Anglicans and the Eastern Orthodox in about 150 AD We are taught that Christ is the first born of God and we have shown that He is the reason word of whom the whole human race partake And those who live according to reason are Christians even though they are counted atheists Such were Socrates and Heraclitus among the Greeks and those like them Consider the words of John Adams the second President of the United States in 1816 The Ten Commandments and the Sermon on the Mount contain my religion Consider the words Bill Clinton the forty second President of the United States In 1955 I had absorbed enough of my churchs teachings to know

that I was a sinner and to want Jesus to save me Finally consider the words of the writer of the small New Testament Book of III John Whoever does good is from God Good News for Moderns is based on Pruitts reading of the scriptures and over one hundred authors of various points of view In our busy time it is brief slightly more than one hundred thousand words supplemented by slightly less than one hundred thousand words of end notes It recognizes that human life moves by fast in what seems like an infinity of time and space and the book closes this way By listing many who have come before us and the immensity of time and space I have underscored the brevity of our lives because as a Psalmist taught recognizing our own mortality is the path to wisdom

Kevin Macdonald's Metaphysical Failure: a Philosophical, Historical, and Moral Critique of Evolutionary Psychology, Sociobiology, and Identity Politics Jonas E. Alexis, 2022-04-25 In Kevin MacDonald's Metaphysical Failure Jonas E Alexis offers a thoroughly researched nuanced and lucid analysis of Kevin MacDonald's thought in particular MacDonald's belief in biological and philosophical Darwinism It is an important book that fills a critical gap in the literature on the history of revolutionary movements and Darwinism both in the West and in Asia It is also a study that adds many significant strands to the densely interwoven history of ideas such as Malthusianism and Eugenics Alexis's book engages debates in the history of ideas going back to Madison Grant and beyond and the history of Darwinism It challenges many of the life long prevailing assumptions about identity politics and produces a powerful critique of how scientific theories have been misused to uphold misguided and faulty categorizations Powerfully reasoned and backed with a startling array of documented studies Kevin MacDonald's Metaphysical Failure presents an in depth look at key beliefs behind many mistaken and consequently destructive actions taken by numerous writers and thinkers particularly Darwin's ardent enthusiasts and devoted disciples The book presents eye opening insights into the historical development of Darwin's ideological project and how that project ended up crippling Darwin's intellectual children from Richard Dawkins Francis Crick James Watson Daniel Dennett Ernst Mayr and E O Wilson to Kevin MacDonald Richard Spencer David Duke and Jared Taylor

SCM Core Text: Religious Syncretism Eric Maroney, 2006-05-25 Even a quick scan of today's headlines makes clear that the growth of fundamentalist versions of Islam is having a vast impact on our world For Americans the rise of Christian fundamentalism especially the Evangelical movement is also socially and politically shaping the country as debates about abortion stem cell research and other important issues are often driven by fundamentalist notions In profound ways orthodox versions of Judaism have altered the fabric of Middle Eastern politics through the Israeli Palestinian conflict especially regarding settlements in Gaza and the West Bank making peace there all the more difficult and further destabilizing an already unstable region The rise of fundamentalism in the three monotheistic faiths is fully examined in this textbook It is not about fundamentalism however it is about its opposite trend religious syncretism Syncretism

describes the phenomenon of one religion borrowing elements from another and it is part of religion that fundamentalists will seldom acknowledge This textbook explores Judaism Christianity and Islam using compelling examples of how syncretism works and looks to show how these three religions have adopted customs and conceptions of other religions most often acquiring practices from pagan predecessors and neighbours The book shows how these three faiths despite how modern media would have us believe have been willing at various times and places to borrow
