Quest For Political And Spiritual Liberation:

The Quest for Political and Spiritual Liberation June O'Connor, 1977 The Study of Hinduism Arvind Sharma, 2003 In this text leading scholars from around the world take stock of two centuries of international intellectual investment in Hinduism Since the early 19th century when the scholarly investigation of Hinduism began to take shape as a modern academic discipline Hindu studies has evolved from its concentration on description and analysis to an emphasis on understanding Hindu traditions in the context of the religion's own values concepts and history Offering an assessment of the current state of Hindu studies the contributors to this volume identify past achievements and chart the course for what remains to be accomplished in the field Spirituality and Deep Connectedness Michael C. Brannigan, 2018-09-15 What is spirituality Does it enable us to be better persons Is spirituality related to religion These days is it even relevant On college campuses does it promote student well being Does it further moral growth Can spirituality make a difference in healthcare What about social justice and service to the marginalized This rich collection of essays by respected scholars and practitioners in diverse fields in academic healthcare social justice and interfaith contexts addresses these questions in strikingly profound and meaningful ways Their voices offer alternatives to the prevailing notion of spirituality as a purely private matter and make a case for living spiritually through deep and genuine engagement with others bridging our inherent and original fault line of Self and Other Their keen observations resuscitate the spiritual fabric of defiance against and liberation from forces of oppression which show their face not only through chronic inequities and social injustice but in consumer capitalism's grip on our souls This volume's dispatch to our minds and hearts is timely in an age of looming cynicism pessimism fear and distrust In carving out a renewed sense of what lies at the heart of living a life of the spirit or spirituality it offers an antidote to our widespread hermeneutic of suspicion None of the authors claims to encapsulate one pure meaning of the spiritual Yet they share one collective voice spirituality is indeed genuine when it calls forth compassion and wears the worn and tangled face of humaneness freeing ourselves from the prison of ego Here we find messages of hope much needed in a time when our society seems increasingly shadowed by dark clouds These essays remind us of what's right in the world **Gandhi's Ascetic Activism** Veena R. Howard, 2013-03-25 More than six decades after his death Mohandas Gandhi continues to inspire those who seek political and social liberation through nonviolent means Uniquely Gandhi placed celibacy and other renunciatory disciplines at the center of his nonviolent political strategy conducting original experiments with their possibilities to gain practical moral and even miraculous powers for social change Gandhi's abstinence in marriage eccentric views on sexuality and odd ways of including his female associates in his practices continue to cause ambivalence among scholars and students Through a comprehensive study of Gandhi's own words select Indian religious texts and myths that he used and the historical and cultural context of his activism Veena R Howard shows how Gandhi's ascetic disciplines helped him mobilize millions She explores Gandhi's creative use of renunciation in challenging established paradigms of

confrontational politics passive asceticism and oppressive social customs Howard's book sheds new light on the creative possibilities Gandhi discovered in combining personal renunciation sacrifice ritual and myth for modern day social action

Horizons, 1980 *World Philosophies* Ninian Smart, 1999 *World Philosophies* is a comprehensive survey of the world's philosophical and religious traditions by one of our foremost religious thinkers Ninian Smart discusses notable figures such as Plato and Kierkegaard in the West the Buddha and Mao Zedong in Asia Tempels and Knibanga in Africa and Royce and Royce in America Covering a wide range of topics including Indian ideas of testimony and evidence Chinese notions of moral development Buddhist concepts of cosmology and Latin American critiques of materialism Smart sheds new light on the astonishing diversity of philosophies that have developed throughout history **Buddhism, Politics and Political**

Thought in Myanmar Matthew J. Walton, 2016-11-17 This is the first book to provide a broad overview of the ways in which Buddhist ideas have influenced political thinking and politics in Myanmar Matthew J Walton draws extensively on Burmese language sources from the last 150 years to describe the moral universe of contemporary Theravada Buddhism that has anchored most political thought in Myanmar In explaining multiple Burmese understandings of notions such as democracy and political participation the book provides readers with a conceptual framework for understanding some of the key dynamics of Myanmar's ongoing political transition Some of these ideas help to shed light on restrictive or exclusionary political impulses such as anti Muslim Buddhist nationalism or scepticism towards the ability of the masses to participate in politics Walton provides an analytical framework for understanding Buddhist influences on politics that will be accessible to a wide range of readers and will generate future research and debate **Gandhi's Philosophy and the Quest for Harmony**

Anthony Parel, 2006-08-10 This book presents an interpretation of Gandhi's political philosophy and how he strove to connect it with the four goals of life purushartha Anthony Parel argues that Gandhi's aim was the restoration of harmony and the removal of any opposition between the spiritual and the temporal the political and the ethical **Tradition and the**

Rhetoric of Right David J. Lorenzo, 1999 This book examines and establishes the importance of one aspect of popular political arguments rhetorical features that draw upon tradition as taken for granted values judgments and calculations It illustrates how popular political arguments draw upon this rhetoric of right unique to each political community to establish the correctness or rightness of a policy proposal It then uses that illustration to argue first that tradition in political arguments is not only present but important second that tradition operates through time in a contextual rather than evolutionary manner and third that political theorists must take seriously the presence of tradition in political arguments in both its substance and its formal aspects The book is based upon a study of political arguments in the Indian religious political movement that grew up around the Indian mystic Aurobindo Ghose and his collaborator Mirra Richard BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved **Catalog of Copyright**

A. De La Torre, 2021-05-15 Jos Mart's Liberative Political Theology argues that Mart's religious views which at first glance might appear outdated and irrelevant are actually critical to understanding his social vision. During a time in which the predominant philosophical view was materialistic e.g. Darwin, Marx, Mart sought to reconcile social and political trends with the metaphysical believing that ignoring the spiritual would create a soulless approach toward achieving a liberative society. As such, Mart used religious concepts and ideas as tools that could bring forth a more just social order. In short, this book argues Mart could be considered a precursor to what would come to be called liberation theology. Miguel De La Torre has authored the most comprehensive text written thus far concerning Mart's religious views and how they affected his political thought. The few similar texts that exist are written in Spanish and most of them romanticize Mart's spirituality in an attempt to portray him as a Christian believer. Only a handful provide an academic investigation of Mart's theological thought based solely on his writings and those concentrate on just one aspect of Mart's religious influences. Jos Mart's Liberative Political Theology allows for mutual influence between Mart's political and religious views rather than assuming one had precedence over the other.

African History: A Very Short Introduction John Parker, Richard Rathbone, 2007-03-22 Essential reading for anyone interested in the African continent and the diversity of human history, this Very Short Introduction looks at Africa's past and reflects on the changing ways it has been imagined and represented. Bulletin - Christian Institute for the Study of Society, 1989 Political Ideas in Modern India Project of History of Indian Science, Philosophy, and Culture, 2006-03-31 The volumes of the Project on the History of Science, Philosophy, and Culture in Indian Civilization aim at discovering the main aspects of India's heritage and present them in an interrelated way. In *Political Ideas in Modern India*, an outstanding group of social and political theorists offers a creative reinterpretation of the ideas and principles that have shaped modern Indian society and state. The ideas interpreted or analysed include rights, freedoms, equality, social justice, constitutional rule, swaraj, swadeshi, satyagraha, class war, socialism, Hindutva, Hind Swaraj, syncretic culture, composite nationalism, and international peace and justice. *The Political Theology of Paul Tillich* Rachel Sophia Baard, 2024-01-16 The Political Theology of Paul Tillich explores the political theology of one of the foremost thinkers of the 20th century, Paul Tillich, whose life and scholarship were decisively shaped by his experiences during World War I, his resistance to the rising scourge of Nazism in Germany, and his subsequent immigration to the United States. Tillich's discerning analysis of fascism, grounded in his socialist commitments and his continuing efforts to write theology in correlation with culture, make his voice a crucial one for contemporary political theology. The contributors to this volume

represent different generations social and cultural locations and nationalities Together they explore Tillich s early work on religious socialism and its lingering presence in his later systematic theology bring him into dialogue with liberation theologies apply his thought to contemporary political concerns and show the significance of his method of correlation for theological scholarship that engages culture thereby presenting a case for the continued relevance of Tillich for political theology

Cosmopolitan Political Thought Farah Godrej,2011-10-05 *Cosmopolitan Political Thought* asks the question of what it might mean for the very practices of political theorizing to be cosmopolitan It suggests that such a vision of political theory is intimately linked to methodological questions about what is commonly called comparative political theory namely the turn beyond ideas and modes of inquiry determined by traditional Western scholarship It is therefore an argument for applying the idea of cosmopolitanism understood in a particular way to the discipline of political theory itself As Farah Godrej argues there are four crucial components of this cosmopolitan intervention the texts under analysis the methods for interpreting non Western texts and ideas the application of these ideas across geographical and cultural boundaries and the deconstruction of Eurocentrism In order to be genuinely cosmopolitan Godrej states political theorists must reflect on their perspectives inside and outside various traditions and immerse themselves in foreign ideas languages histories and cultures ultimately relocating themselves within their disciplinary homes The result will be a serious challenge to accepted solutions to political life

The Search for Political Community Paul Lichterman,1996-09-19 This book challenges the myth that Americans emphasis on personal fulfilment necessarily weakens commitment to the common good Drawing on extensive participant observation with a variety of environmentalist groups Paul Lichterman argues that individualism sometimes enhances public political commitment and that a shared respect for individual inspiration enables activists with diverse political backgrounds to work together This personalised culture of commitment has sustained activists working long term for social change The book contrasts personalised politics in mainly white environmental groups with a more traditional community centred culture of commitment in an African American group The untraditional personalised politics of many recent social movements invites us to rethink common understandings of commitment community and individualism in a post traditional world

In Search of an American Catholicism Jay P. Dolan,2002-09-05 For more than two hundred years American Catholics have struggled to reconcile their national and religious values In this incisive and accessible account distinguished Catholic historian Jay P Dolan explores the way American Catholicism has taken its distinctive shape and follows how Catholics have met the challenges they have faced as New World followers of an Old World religion Dolan argues that the ideals of democracy and American culture in general have deeply shaped Catholicism in the United States as far back as 1789 when the nation s first bishop was elected by the clergy and the pope accepted their choice Dolan looks at the tension between democratic values and Catholic doctrine from the conservative reaction after the fall of Napoleon to the impact of the Second Vatican Council Furthermore he explores grassroots devotional life the struggle against nativism the

impact and collision of different immigrant groups and the disputed issue of gender Today Dolan writes the tensions remain as we see signs of a resurgent traditionalism in the church in response to the liberalizing trend launched by John XXIII and also a resistance to the conservatism of John Paul II In this lucid account the unfinished story of Catholicism in America emerges clearly and compellingly illuminating the inner life of the church and of the nation In this lucid account the unfinished story of Catholicism in America emerges clearly and compellingly illuminating the inner life of the church and of the nation

Faith, Spirituality, and Praxis Peter White, 2024-12-30 African grassroots theologies and churches are expressions of the faith spirituality and praxis of African Christians who seek to articulate and live out their Christian identity and mission in their diverse and complex contexts These include African Initiated Churches black theology movements liberation theology movements and other forms of contextual and indigenous theologies and ecclesiologies that emerge from the experiences In exploring the dynamics in African Christianity and theologies the volume addresses the following questions How do African grassroots theologies and churches reflect and respond to the challenges and opportunities of their socio political economic cultural and religious contexts How do African grassroots theologies and churches engage with the historical and contemporary expressions of Christianity in Africa and beyond such as colonial and missionary Christianity ecumenical Christianity global Christianity and interreligious dialogue How do African grassroots theologies and churches develop and communicate their theological and ethical perspectives and practices on issues such as justice liberation reconciliation healing development ecology gender sexuality culture and spirituality How do African grassroots theologies and churches shape and challenge the forms and functions of the church in Africa such as worship leadership ministry mission evangelism discipleship fellowship and social action This volume is important for those studying African studies religious studies African theologies and African Christianity This is also an important book for those professionals working in interfaith dialogues missionary work and community development within African contexts

Kingdom Politics Kristopher Norris, Sam Speers, 2015-04-16 American Christians weary of decades of entrenched partisan feuding are increasingly distancing themselves from politics Some however continue to turn toward the state and public policy to find solutions to the world's problems The problem is that both responses allow a narrow vision of politics to determine the church's mission and ministries which often ends up separating its commitment to personal faith from the pursuit of social justice the King from the kingdom Christians too easily forget that the church is inherently political a community defined by its allegiance to a King its citizenship in a new world and its call to work alongside others in pursuit of a new way of life The church needs a political vision that is more than blind acceptance or mere rejection of past models It needs a positive vision that takes its cues about politics not from the nation state but from another political reality the kingdom of God This book tells the stories of the visits of two researchers to five diverse congregations across the United States From the megachurch energy of Rick Warren's Saddleback Church in California to a young Emergent community in Minneapolis to the politically active home of Martin

Luther King in Atlanta these stories illuminate the vastly different ways congregations understand and approach politics and offer a glimpse of a new political imagination for today s church
