Visible Learning John Hattie,2008-11-19 This unique and ground breaking book is the result of 15 years research and syntheses over 800 meta analyses on the influences on achievement in school aged students It builds a story about the power of teachers feedback and a model of learning and understanding The research involves many millions of students and represents the largest ever evidence based research into what actually works in schools to improve learning Areas covered include the influence of the student home school curricula teacher and teaching strategies A model of teaching and learning

is developed based on the notion of visible teaching and visible learning A major message is that what works best for students is similar to what works best for teachers an attention to setting challenging learning intentions being clear about what success means and an attention to learning strategies for developing conceptual understanding about what teachers and students know and understand Although the current evidence based fad has turned into a debate about test scores this book is about using evidence to build and defend a model of teaching and learning A major contribution is a fascinating benchmark dashboard for comparing many innovations in teaching and schools

Strategic Help Seeking Stuart A. Karabenick, 2012-12-06 There is considerable agreement that more successful learners are active engaged and self regulating learners who understand and are motivated to apply learning strategies under appropriate conditions One important strategic activity is seeking help when necessary rather than giving up or engaging in fruitless persistence Research on strategic help seeking has matured significantly in recent years This volume captures the current state of knowledge research and theory on help seeking as a strategic learning resource It is international in scope with contributors from the U S the Netherlands Japan and Israel As a whole the book suggests that strategic adaptive help seeking is a critical school readiness skill that is facilitated by mastery oriented classroom achievement and social goals by teachers who invite questions rather than those who ask them and by cultural characteristics that support student inquiry A conceptual overview is followed by three chapters that examine help seeking from complementary theoretical perspectives and make important distinctions between forms of help seeking two chapters that focus on how learners achievement and social goals affect classroom help seeking one chapter specifically devoted to cross cultural comparisons of help seeking in Western cultures and in Japan two chapters that examine the most frequent manifestation of help seeking that of question asking and one chapter that explores help seeking in the information age the library reference process information technology and computer mediated communication All chapters include attention to the implications of research and theory for help seeking in instructional settings Strategic Help Seeking is an excellent resource for educational researchers and practitioners including teachers school administrators instructional designers reference librarians
