## **Questions And Answers About Dinosaurs:**

**Difficult Questions on Dinosaurs** Richard Pittack, 2011-07-01 This book is not the typical Questions and Answers on Dinosaurs book. It is not a book for children enabling them to find out the largest recorded dinosaur or to discover what dinosaurs ate or even how they managed to get up after nap time. An informative book on the biology and anatomy of the mighty reptiles, it is not. The series of questions in this treatise of answers has arisen from meetings conducted on dinosaurs. The questions have come from all kinds of people in various and sundry walks of life. Some of the questions were common and not much is to be learned from answers to such generalities. However, some of the questions are not only posed by the curious but come from hearts filled with consternation while contemplating the subject of Theodicy. Did the Creator contribute heavily to the world's landscape of tooth and claw? Is the canvas of God's creation not only etched in blood but filled with the stench and smell emanating from the so-called Mesozoic Era of the past? **Lift-the-flap Questions and**

**Answer Book** Dinosaur Project, Sylvia Funston, 1992 When leading Chinese and Canadian paleontologists joined forces to create The Dinosaur Project, they launched the greatest dinosaur hunt in history. Over five summers of digging, they turned up many exciting discoveries, including thousands of bones and at least 11 completely new kinds of dinosaurs, so new some haven't yet been named. All that remained was to let the world know of the team's important finds. That's where the Editors of OWL and Chickadee magazines came in. The magazines invited their young readers to ask questions of these dinosaur experts and more than 11,000 responses poured in. Inside The Dinosaur Question and Answer Book, you'll find exciting up-to-date answers to the most interesting and frequently asked questions. **New Questions and Answers about Dinosaurs ,**
