Stems of aromatic plants are used to make skewers Selected rocks become grinding stones griddles or plates Even fallen leaves and other natural materials from the forest floor can be utilized to impart a truly local flavor to meats and vegetables one that captures and expresses the essence of season and place This beautifully photographed book offers up dozens of creative recipes and instructions for preparing a pantry full of preserved foods including Pickled Acorns White Sage Lime Cider Wild Kimchi Spice Currant Capers Infused Salts with Wild Herbs Pine Needles Vinegar and many more And though the author s own palette of wild foods are mostly common to southern California readers everywhere can apply Baudar s deep foraging wisdom and experience to explore their own bioregions and find an astonishing array of plants and other materials that can be used in their own kitchens The New Wildcrafted Cuisine is an extraordinary book by a passionate and committed student of nature one that will inspire both chefs and adventurous eaters to get creative with their own local landscapes
