The Vedantic Relationality of Rabindranath Tagore Ankur Barua, 2018-10-25 This book is a thematic study of the poet thinker Rabindranath Tagore s conceptual project of harmonizing the one and its many Tagore s writings in Bengali and in English on religious and social themes are held together by the leitmotif of a harmony which operates across several existential religious and social polarities the finite and the infinite the temporal and the eternal and the individual and the universal Tagore creatively appropriated materials from diverse sources such as the classical Hindu Vedantic systems the folk piety of Bengal and others to configure a dialectic which shapes his writings on both religious and social themes On the one hand each individual is irreducibly distinct from everyone else and on the other hand each individual gains their spiritual depth precisely by being placed within the dynamic matrices of an interrelated whole Thus we find Tagore rejecting certain monastic forms of Hindu world renunciation and also certain ecstatic dimensions of devotional worship the former because they efface individuality and the latter because they can generate self absorbed styles of living Again Tagore is as sharply opposed to Bengali imitativeness of English modes of being in the world as he is to Bengali forms of insularity the former because it dilutes the concrete richness of indigenous lifeforms and the latter because it confines individuals to parochial enclosures Tagore s life long endeavor was to configure a third way by rejecting both the blank homogeneity of an undifferentiated one and the particularistic insularities of a multitude without a deeper center of coherence

Rabindranath Tagore Patrick Colm Hogan, Lalita Pandit, 2003. This collection provides a lucid introduction for those unfamiliar with Tagore's work while simultaneously presenting important new scholarship and novel interpretation. Rabindranath Tagore is considered the greatest modern writer of India. He is also one of the great social and political figures in modern Indian history. After he received the Nobel Prize for literature in 1913, Tagore's reputation in the West has been based primarily on his mystical poetry. But beyond poetry, Tagore wrote novels of social realism treating nationalism, religious intolerance, and violence. He wrote analytic works on social reform, education, and science, even engaging in a brief dialogue with Albert Einstein. Without ignoring religion and mysticism, the essays in this collection concentrate on this other Tagore. They explicate Tagore's writings in relation to their historical and literary context and at the same time draw out those aspects of Tagore's work that continue to bear on contemporary society.

Negotiating the Modern Amit Ray, 2007-01-22. This book explicates long-standing literary celebrations of India and Indianness by charting a cultural history of Indianness in the Anglophone world, locating moments in intellectual, religious, and cultural history where India and Indianness are offered up as solutions to modern moral, ethical, and political questions in the West. Beginning in the early 1800s, South Asians actively seek to occupy and modify spaces created by the scholarly discourses of Orientalism, the study of the East Orient via Western European epistemological frameworks. Tracing the varying fortunes of Orientalist scholars from the inception of British rule, this study charts the work of key Indologists in the colonial era. The rhetorical constructions of East and West deployed by both colonizer and colonized, as well as attempts to synthesize or transcend such constructions, became crucial to conceptions of the modern. Eventually, Indian desire for political sovereignty, together with the deeply racialized formations of imperialism, produced a shift in the dialogic relationship between South Asia and Europe that had been initiated and sustained by orientalists. This impetus pushed scholarly discourse about India in Europe, North America, and elsewhere out of what had been a direct role in politics and theology and into high literary culture.

Western contemporary aesthetics **Russia in World History** Choi Chatterjee, 2022-01-27 *Russia in World History* uses a comparative framework to understand Russian history in a global context. The book challenges the idea of Russia as an outlier of European civilization by examining select themes in modern Russian history alongside cases drawn from the British Empire. Choi Chatterjee analyzes the concepts of nation and empire, selfhood and subjectivity, socialism and capitalism, and revolution and the world order in the 19th, 20th, and 21st centuries. In doing so, she rethinks many historical narratives that bluntly posit a liberal West against a repressive authoritarian Russia. Instead, Chatterjee argues for a wider perspective which reveals that imperial practices relating to the appropriation of human and natural resources were shared across European empires both East and West. Incorporating the stories of famous thinkers such as Leo Tolstoy, Emma Goldman, Wangari Maathai, Arundhati Roy, among others, this unique interpretation of modern Russia is knitted together from the varied lives and experiences of those individuals who challenged the status quo and promoted a different way of thinking. This is a ground-breaking book with big and provocative ideas about the history of the modern world and will be vital reading for students of both modern Russian and world history.
