*Race and Family in the Colonial South*, Race and Family in the Colonial South Winthrop D. Jordan, Sheila L. Skemp, 2009-07-30 This volume of papers from the Porter M Fortune Chancellor s Symposium in Southern History held at the University of Mississippi in 1986 questions what was distinctively southern about the colonial South Though this region was a land of diversity and had the kind of provincialism that typified other English colonies during this period the editors find it nearly impossible to characterize the colonial South as unique The roots of southern distinctiveness however were taking hold in the years before the American Revolution as the papers here attest In the opening essay Tate surveys recent historical scholarship on the period and targets trends for further study Next Galloway examines Indian French relations in eastern Louisiana during the eighteenth century Smith describes the family unit and examines the various forces that worked against its formation In an examination of three slave owning families Morgan casts a new light on slavery in the colonies which he argues to have operated within a harsh patriarchal system that stressed domination order authority and unswerving obedience Menard s essay also is on the subject of slavery showing the unique system in the Low Country of South Carolina In the final paper Middlekauff assesses each of the preceding papers and suggests subjects for future studies of the colonial South

Conscious Choice Robert Zimmerman, 2021-06-30 Robert Zubrin Zimmerman's ground breaking history

provides every future generation the basic framework for establishing new societies on other worlds We would be wise to heed what he says The human race is about to go to the stars Big rockets are being built and nations and private citizens worldwide are planning the first permanent settlements in space When we get there will we know what to do to make those first colonies just and prosperous places for all humans Conscious Choice answers this question by telling a riveting and accurate history of the first century of British settlement in North America That was when those settlers were building their own new colonies and had to decide whether to include slaves from Africa In New England slavery was vigorously rejected The Puritans wanted nothing to do with this institution desiring instead to form a society of free religious families a society that became the foundation of the United States of America dedicated to life liberty and pursuit of happiness In Virginia however slavery was gladly embraced resulting in a corrupt social order built on power rule and oppression Why the New England citizens were able to reject slavery and Virginians were not is the story that Conscious Choice tells a story with direct implications for all human societies whether they are here on Earth or on the farflung planets across the universe What others are saying Rand Simberg In its 1619 Project a false and libelous narrative of America s past has recently been promoted by the New York Times In a useful corrective Zimmerman s book provides well documented and new historical insights into the true history of slavery in colonial English America with a cautionary warning for future settlers off the planet Douglas Mackinnon When humankind finally does venture forth to colonize the moon Mars and beyond it is essential that each colonist have this book downloaded onto their tablet It will guide them and most likely save them James Bennett How was slavery born in the deep south of the United States Robert Zimmerman s book Conscious Choice provides the answer in a well researched detailed but readable book free of academic jargon He shows that slavery was not predetermined but was instead a series of conscious choices made by key individuals of that day He also shows that it was not necessary as demonstrated by the decision of the northern British colonies to reject it Zimmerman then uses this history to show how it provides lessons to future explorers when they found their own new colonies in space      **The Mississippi Quarterly** ,1988

**Race, Tea and Colonial Resettlement** Jane McCabe,2017-05-04 By the early 20th century the ideology of racial distance predominated in British India This simultaneously threw a spotlight on the Anglo Indian problem and sent intimate relationships between British colonials and Indian women into the shadows of history One Scottish missionary s solution was to isolate and raise the mixed race children of British tea planters in an institution in Kalimpong in the foothills of the Himalayas before permanently resettling them far from their maternal homeland as workers in New Zealand Historian Jane McCabe leads us through a compelling research journey that began with uncovering the story of her own grandmother Lorna Peters one of 130 adolescents resettled in New Zealand under the scheme between 1908 and 1938 Using records from the Homes in Kalimpong and in depth interviews with other descendants in New Zealand she crafts a compelling evocative and unsentimental yet moving narrative one that not only brings an untold part of imperial history to light but also transforms

previously broken and hushed family histories into an extraordinary collective story This book attends to both the affective dimension of these traumatic familial disruptions and to the larger economic and political drivers that saw government and missionary schemes breaking up Anglo Indian families schemes that relied on future forgetting

**Ensuring Inequality**

Donna L. Franklin, 2015-04-01 There is a crisis today in the American family and this crisis has been particularly severe in the African American community Black women are more likely than ever to bear children as teenagers to remain single and to raise their children in poverty As a result a staggering number of African American children are growing up without fathers and living in destitution In this insightful new book Donna L Franklin offers an in depth account of the history and development of the African American family revealing why the marriage and family experiences of African Americans differs from those of white America and highlighting the cultural and governmental forces that have combined to create this divide and to push the black family to the edge of catastrophe In Ensuring Inequality Franklin traces the evolution of the black family from slavery to the present showing the cumulative effects of centuries of historical change She begins with a richly researched account of the impact of slavery on the black family finding that slavery not only caused extreme instability and suffering for families but established a lasting pattern of poverty which made the economic advantages of marriage unattainable She provides a sharp critique of the policies of the Freedmen s Bureau during Reconstruction and demonstrates the mixed impact of the new pattern of sharecropping On one hand tenant farming allowed greater autonomy than the older gang labor system and tended to consolidate two parent families on the other hand it reinforced male authority and bound African Americans in debt peonage The twentieth century brought a host of changes for black families and Franklin incisively examines their effects First black women began to move to cities in search of jobs as domestic servants while men stayed behind to work the fields dividing the families Then two world wars sparked the great migration north as African Americans pursued employment in booming factories When the white soldiers returned home however many blacks found themselves out of work shunted to the least desirable lowest paying jobs Roosevelt s New Deal offered limited help in the North it tolerated the red lining of urban neighborhoods making it difficult for blacks to obtain home mortgages in the South blacks found that as agricultural laborers they were exempted from most labor laws while agricultural subsidies were administered in favor of white farmers And the distinction made between programs paid for by beneficiaries such as social security and those based on need such as Aid to Families with Dependent Children stigmatized the poor Most blacks found themselves living an ever more tenuous socially isolated existence Franklin brings her comprehensive nuanced study right up to the present showing the impact on the urban poor of changes in the economy and society from the dramatically shrinking pool of good jobs to the rise of the new right The increasing reliance on welfare by young black mothers she writes corresponded to the erosion of opportunities for young black males More important she offers new approaches to solving the crisis Not only does she recommend federal intervention to create new economic opportunity in urban ghettos but she also stresses the

importance of black self help and proposes a plan of action In addition she outlines social interventions that can stabilize and strengthen poor mother only families living in ghetto neighborhoods Exhaustively researched and insightfully written Ensuring Inequality makes an important contribution to the central debate in American politics today     *Photography and History in Colonial Southern Africa* Lorena Rizzo, 2019-09-16 This book studies the relationship between photography and history in colonial Southern Africa using a series of encounters with Southern African photographic archives to reflect on photography as a distinct historical form Through use of private and public archives images produced by African itinerant photographers white settlers and colonial state institutions this book explores the relationship between photography and history in colonial Southern Africa Late nineteenth century Cape Colonial prison albums police photographs from German Southwest Africa African studio portraits identity documents travel permits and passports from the 1920s and 1930s visual studies of whiteness and blackness authored by settler photographers South African dompas photographs from the 1950s and 1960s and aerial photography from the Eastern Cape in the mid twentieth century are examined to highlight the ways in which photographic images cut across conventional institutional boundaries and complicate rigid distinctions between the private and the public the political and the aesthetic the colonial and the vernacular or the subject and the object *Photography and History in Colonial Southern Africa* argues that rather than understanding photographs as a means of preserving and recreating the past in the present we can value them for how they evoke at once the need for and the limits of historical reconstruction This book will be of interest to students and scholars of colonial history photographic history visual media and African studies
