Race Thomas F. Gossett,1997 Race and History Eugène Pittard,1926 Race and History Claude Lévi-Strauss,1953

Pittard,2014-02-04 First published in 2013 This volume is intended to serve as a companion to Febvre s Geographical Introduction to History which estimated the value of environment as a factors in history The present volume considers the racial factors the anthological reality which depends on somatic characters build height colour of hair and eyes craniological and facial form etc the author carefully distinguishes from such artificial entities as peoples nations civilisation or language groups *How Race Survived US History* David R. Roediger,2019-10-08 An absorbing chronicle of the role of race in US history by the foremost historian of race and labor The Obama era produced countless articles arguing that America s race problems were over The election of Donald Trump has proved those hasty pronouncements wrong Race has always played a central role in US society and culture Surveying a period from the late seventeenth century the era in which W E B Du Bois located the emergence of whiteness through the American Revolution and the Civil War to the civil rights movement and the emergence of the American empire How Race Survived US History reveals how race did far more than persist as an exception in a progressive national history This masterful account shows how race has remained at the heart of American life well into the twenty first century *Race and History* Eugène Pittard,1927 The Meaning of Race Kenan Malik,1996-07-12 This work throws new light on the nature and origins of ideas of racial difference It reconstructs the evolution of the modern discourse of race and investigates its meaning in contemporary society Learning History in America Lloyd S. Kramer,Donald Reid,William L. Barney,1994-01-01 The essays in this book like all other texts have been written in a historical context that shapes both the themes and the prose styles of the authors A close reading of these texts would in fact lead to many overlapping contexts of politics social hierarchies modern communications and international relations but we want to focus briefly on two contextual influences that carry the most obvious connections to this book the wide ranging public debate about the proper curriculum for American schools and universities and the more specific debate among historians about new trends in historical

scholarship *History of the Negro Race in America from 1619 to 1880* George Washington Williams,1882 **The Influence of Race in History** Gustave Le Bon,Philip V.N. Myers,2017-01-24 Among the factors which determine the birth and development of the basic elements of a civilization one of the most important perhaps the most important because it represents the synthesis of all the others is race that is to say the ensemble of the physical moral and intellectual qualities which characterize a people At the moment when the races of mankind first appeared in history they has in general already acquired fairly stable qualities which could only be transformed very slowly afterwards The oldest Egyptian bas reliefs upon which are found reproduced the diverse peoples which the Pharaohs were in touch with show us that our present day large classifications of races may already be applicable to the dawn of history Human races or the diverse human species which live on the surface of the globe took shape over the hundreds of thousands of years that have preceded historical times

The History of the American Race Franz Boas,1912 *Race and History* Eugene Pittard,1985-01 *A Cultural History of Race in Antiquity* Denise Eileen McCoskey,2023-06-01 The era generally referred to as antiquity lasted for thousands of years and was characterized by a diverse range of peoples and cultural systems This volume explores some of the specific ways race was defined and mobilized by different groups including the Greeks Romans Egyptians Persians and Ethiopians as they came into contact with one another during this period Key to this inquiry is the examination of institutions such as religion and politics and forms of knowledge such as science that circumscribed the formation of ancient racial identities and helped determine their meanings and consequences Drawing on a range of ancient evidence literature historical writing documentary evidence and ancient art and archaeology this volume highlights both the complexity of ancient racial ideas and the often violent and asymmetrical power structures embedded in ancient racial representations and practices like war and the enslavement of other persons The study of race in antiquity has long been clouded by modern assumptions so this volume also seeks to outline a better method for apprehending race on its own terms in the ancient world including its relationship to other forms of identity such as ethnicity and gender while also seeking to identify and debunk some of the racist methods and biases that have been promulgated by classical historians themselves over the last few centuries **A Cultural History of Race in the Renaissance and Early Modern Age** Kimberly Anne Coles,Dorothy Kim,2021 How have definitions of race varied and changed over time What impact have religion science and politics had on race throughout history and how has our concept of it been changed as a result These ambitious questions are answered by 61 experts who drawing on perspectives from history sociology anthropology literature and medical humanities deepen our understanding of how race has developed conceptually and in reality between antiquity and the present day Individual volume editors ensure the cohesion of the whole and to make it as easy as possible to use chapter titles are identical across each of the volumes This gives the choice of reading about a specific period in one of the volumes or following a theme across history by reading the relevant chapter in each of the six The six volumes cover 1 Antiquity 500 BCE 800 CE 2 Middle Ages

800 1350 3 Renaissance and Early Modern Age 1350 1550 4 Reformation and Enlightenment 1550 1760 5 Age of Empire and Nation State 1760 1920 6 Modern and Genomic Age 1920 2000 Themes and chapter titles are Definitions of Race Race Environment and Culture Race and Religion Race and Science Race and Politics Race and Ethnicity Race and Gender Race and Body and Anti Race The page extent is approximately 1 728 pp with c 300 illustrations Each volume opens with notes on contributors a series preface and an introduction and concludes with notes bibliography and an index The Cultural Histories Series A Cultural History of Race is part of The Cultural Histories Series Titles are available both as printed hardcover sets for libraries needing just one subject or preferring a one off purchase and tangible reference for their shelves or as part of a fully searchable digital library available to institutions by annual subscription or on perpetual access see www.bloomsburyculturalhistory.com

The Passing of the Great Race Madison Grant, 1918 **Race** Ivan Hannaford, 1996 But he also finds the first traces of modern ideas of race and the protoscences of late medieval cabalism and hermeticism Following that trail forward he describes the establishment of modern scientific and philosophical notions of race in the nineteenth and twentieth centuries and shows how those notions became popular and pervasive even among those who claim to be nonracist
