

RACE AND U.S. FOREIGN POLICY FROM THE
COLONIAL PERIOD TO THE PRESENT: A
COLLECTION OF ESSAYS

Race and U.S. Foreign Policy from 1900 Through World War II

Edited by E. Nathaniel Gates

Race And Us Foreign Policy From 1900 Through World War Ii

Albert J. Wheeler

Race And Us Foreign Policy From 1900 Through World War II:

Race and U.S. Foreign Policy from 1900 Through World War II Michael L. Krenn, 1998 First Published in 1998 Routledge is an imprint of Taylor Francis an informa company

Race and U.S. Foreign Policy from 1900 Through World War II Michael L. Krenn, 2020-12-17 Explores the concept of race The term race which originally denoted genealogical or class identity has in the comparatively brief span of 300 years taken on an entirely new meaning In the wake of the Enlightenment it came to be applied to social groups This ideological transformation coupled with a dogmatic insistence that the groups so designated were natural and not socially created gave birth to the modern notion of races as genetically distinct entities The results of this view were the encoding of race and racial hierarchies in law literature and culture How racial categories facilitate social control The articles in the series demonstrate that the classification of humans according to selected physical characteristics was an arbitrary decision that was not based on valid scientific method They also examine the impact of colonialism on the propagation of the concept and note that racial categorization is a powerful social force that is often used to promote the interests of dominant social groups Finally the collection surveys how laws based on race have been enacted around the world to deny power to minority groups A multidisciplinary resource This collection of outstanding articles brings multiple perspectives to bear on race theory and draws on a wider range of periodicals than even the largest library usually holds Even if all the articles were available on campus chances are that a student would have to track them down in several libraries and microfilm collections Providing of course that no journals were reserved for graduate students out for binding or simply missing This convenient set saves students substantial time and effort by making available all the key articles in one reliable source Authoritative commentary The series editor has put together a balanced selection of the most significant works accompanied by expert commentary A general introduction gives important background information and outlines fundamental issues current scholarship and scholarly controversies Introductions to individual volumes put the articles in context and draw attention to germinal ideas and major shifts in the field After reading the material even a beginning student will have an excellent grasp of the basics of the subject

The African American Voice in U.S. Foreign Policy Since World War II Michael L. Krenn, 1998 This volume traces the modern critical and performance history of this play one of Shakespeare's most loved and most performed comedies The essay focus on such modern concerns as feminism deconstruction textual theory and queer theory

Ethnic Identity Groups and U.S. Foreign Policy Thomas Ambrosio, 2002-11-30 Ethnic identity groups defined broadly to include ethnic religious linguistic or racial identities have long played a role in the formulation and implementation of U S foreign policy Yet ethnic group influence increased significantly following the Cold War Ambrosio and his colleagues provide a unique collection of essays on the relationship between ethnic identity groups and U S foreign policy The book covers a wide range of issues historical periods and geographic regions Integrated chapters examine four major issues the traditional white role of ethnicity in U S foreign policy

ethnic identity group mobilization newcomers to the foreign policy process and the complexities of ethnic identity politics An in depth literature review is provided as well as an overview of the moral ethical issues surrounding ethnic group influence on U S foreign policy especially after the events of September 11 2001 This volume is designed to spark debate on the theoretical historical and ethical issues of ethnic identity group influence on U S foreign policy As such it will be of special interest to scholars students researchers policymakers and anyone concerned with the making of American foreign policy

Race and U.S. Foreign Policy During the Cold War Michael L. Krenn, 1998 This volume traces the modern critical and performance history of this play one of Shakespeare's most loved and most performed comedies The essay focus on such modern concerns as feminism deconstruction textual theory and queer theory

Race and US Foreign Policy Mark Ledwidge, 2012-02-06 African Americans analysis of and interest in foreign affairs represents a rich and dynamic legacy and this work provides a cutting edge insight into this neglected aspect of US foreign affairs In addition to extending the parameters of US foreign policy literature to include race and ethnicity the book documents case specific analyses of the evolutionary development of the African American foreign affairs network AAFAN Whilst the examination of race in regard to the construction of US foreign policy is significant this book also provides a cross disciplinary approach which utilises historical and political science methods to paint a more realistic appraisal of US foreign policy Including analysis of original archival evidence this theoretically informed work seeks to transcend the standard mono disciplinary approach which overestimates the separation between domestic and foreign affairs The unique approach of this work will add an important dimension to a newly emerging field and will be of interest to scholars in ethnic and racial studies American politics US foreign policy and US history

US Foreign Policy Richard Johnson, 2021-06-29 Paying close attention to its domestic roots this textbook provides a valuable introduction to the construction and application of US foreign policy in the modern era Accessibly written and including helpful illustrative material a glossary and guide to further reading it is organised around four broad themes the ideologies of US foreign policy the institutions of US foreign policy making the actors who influence and shape the content of US foreign policy the policy goals and ideas that motivate US foreign policy Drawing from analyses of the broader history of US foreign policy throughout the post Second World War period the book encourages readers to think about how these ideas institutions and goals have been at work in the foreign policy of recent presidential administrations including those of George W Bush Barack Obama Donald Trump and Joe Biden

Cold War Civil Rights Mary L. Dudziak, 2025-06-17 A Choice Outstanding Academic Title of the Year How the fight for civil rights in America became an important front in the Cold War In 1958 an African American handyman named Jimmy Wilson was sentenced to die in Alabama for stealing less than two dollars Shocking as this sentence was it was overturned only after intense international attention and the interference of Secretary of State John Foster Dulles Soon after World War II American racism became a major concern of US allies a chief Soviet propaganda theme and an obstacle to American Cold War goals

throughout Africa Asia and Latin America Racial segregation undermined the American image harming foreign relations in every administration from Truman to Johnson Mary Dudziak shows how the Cold War helped to facilitate desegregation and other key social reforms at home as the United States sought to polish its image abroad yet how a focus on appearances over substance limited the nature and extent of progress Cold War Civil Rights situates the Cold War in civil rights history while giving an international perspective to the fight for racial justice in America *Soft Power Beyond the Nation* Sylvia Dummer Scheel,Charlotte Faucher,Camila Gatica Mizala,2024 This edited volume takes a distinct approach to the study of soft power in history moving beyond the framework of the nation state The editors of this volume use soft power as a broad label to refer to the processes through which persuasion the search for influence and power and public opinion as an actor in foreign affairs converge in the international arena The book has been organized around three central themes the circulation of knowledge and strategies across borders collaboration of intermediary actors who have their own agencies and interests and non national identities such as gender and race The book also broadens the typical temporal and geographic understanding of soft power starting in the nineteenth century and including cases from the Global South It argues that the pursuit of soft power has been a global phenomenon including regions that have been neglected in the general debates on the subject such as Africa Asia and Latin America These arguments and themes are explored through ten chapters that offer a powerful new interdisciplinary perspective on soft power for scholars and students of history and international relations *United States Relations with South Africa* Y. G.-M. Lulat,2008 Relations between the United States and South Africa or the parts of the world these nations now occupy go nearly as far back as the very beginning of their inception as permanent European colonial intrusions This book is a critical overview of these relations from the late seventeenth century to the present Unprecedented in its scope and supported by substantive and detailed notes together with an extensive bibliography chronology glossary and appendices the book distinguishes itself from extant works in a number of other ways Set against the backdrop of a wider interdisciplinary exploration of both ideational and structural issues of historical context it not only gives attention to the importance of contributions from unofficial actors in shaping official relations but also considers the impact of the geo political location of South Africa within southern Africa where the presence of other nations particularly Angola Mozambique Namibia and Zimbabwe looms large Methodologically written from the perspectives of both traditional narrative history and Khaldunian interpretive historical analysis the book consequently sits at the interdisciplinary interstice of political economy and sociology where the aim is to advance our understanding of the Braudelian interconnectedness of world history as an important diachronic determinant of the diplomacy of foreign relations Written for both scholars and policy analysts this book s examination of the agency of the marginalized should also be of interest to activists and the reading public **Unceasing Militant, Second Edition** Alison M. Parker,2025-03-17 Born into slavery during the Civil War Mary Church Terrell 1863 1954 would become one of the most prominent activists of her time with a career bridging the

late nineteenth century to the civil rights movement of the 1950s The first president of the National Association of Colored Women and a founding member of the NAACP Terrell collaborated closely with the likes of Frederick Douglass Ida B Wells and W E B Du Bois Unceasing Militant is the first full length biography of Terrell bringing her vibrant voice and personality to life Though most accounts of Terrell focus almost exclusively on her public activism Alison M Parker also looks at the often turbulent unexplored moments in her life to provide a more complete account of a woman dedicated to changing the culture and institutions that perpetuated inequality throughout the United States This new edition includes a new preface in which Parker reflects on the resurgence of public interest in Terrell and discusses the newly available digitized files of Terrell s papers at the Library of Congress

Forbidden Citizens Martin Gold,2011-12-01 Described as one of the most vulgar forms of barbarism by Rep John Kasson R IA in 1882 a series of laws passed by the United States Congress between 1879 and 1943 resulted in prohibiting the Chinese as a people from becoming U S citizens *Forbidden citizens* recounts this long and shameful legislative history Page 4 of cover

Asia and the Great War Guoqi Xu,2017 There is no single volume that shines a light on Asia s collective involvement in the First World War and the impact that war had on its societies Moreover no volume in any language explores the experiences Asian countries shared as they became embroiled with divergent results in the war and its repercussions *Asia and the Great War* moves beyond the national or even international level by presenting a shared history from non national and transnational perspectives Asian involvements make the Great War not only a true world war but also a great war The war generated forces that would transform Asia both internally and externally Asian involvement in the First World War is a unique chapter in both Asian and world history with Asian participation transforming the meaning and implications of the broader conflict *Asia and the Great War* also takes steps to recover memories of the war and re evaluate the war in its Asian contexts Asia s part in the war and the part the war played in the collective development of Asia represent the first steps of the long journey to full national independence and international recognition This volume aims to bring the Great War more fully into Asian history and the people of Asia into the international history of the war in the hope that the shared history could lay the groundwork for a shared future

Contraceptive Diplomacy Aiko Takeuchi-Demirci,2018-01-09 A transpacific history of clashing imperial ambitions *Contraceptive Diplomacy* turns to the history of the birth control movement in the United States and Japan to interpret the struggle for hegemony in the Pacific through the lens of transnational feminism As the birth control movement spread beyond national and racial borders it shed its radical bearings and was pressed into the service of larger ideological debates around fertility rates and overpopulation global competitiveness and eugenics By the time of the Cold War a transnational coalition for women s sexual liberation had been handed over to imperial machinations enabling state sponsored population control projects that effectively disempowered women and deprived them of reproductive freedom In this book Aiko Takeuchi Demirci follows the relationship between two iconic birth control activists Margaret Sanger in the United States and Ishimoto Shizue in Japan as

well as other intellectuals and policymakers in both countries who supported their campaigns to make sense of the complex transnational exchanges occurring around contraception. The birth control movement facilitated U.S. expansionism, exceptionalism, and anti-communist policy and was welcomed in Japan as a hallmark of modernity. By telling the story of reproductive politics in a transnational context, Takeuchi Demirci draws connections between birth control activism and the history of eugenics, racism, and imperialism.

Drawing the Global Colour Line Marilyn Lake, Henry Reynolds, 2008. At last a history of Australia in its dynamic global context. In the late nineteenth and early twentieth centuries, in response to the mobilisation and mobility of colonial and coloured peoples around the world, self-styled white men's countries in South Africa, North America, and Australasia worked in solidarity to exclude those peoples they defined as not white, including Africans, Chinese, Indians, Japanese, and Pacific Islanders. Their policies provoked in turn a long international struggle for racial equality. Through a rich cast of characters that includes Alfred Deakin, WEB Du Bois, Mahatma Gandhi, Lowe Kong Meng, Tokutomi Soho, Jan Smuts, and Theodore Roosevelt, leading Australian historians Marilyn Lake and Henry Reynolds tell a gripping story about the circulation of emotions and ideas, books and people, in which Australia emerged as a pace setter in the modern global politics of whiteness. The legacy of the White Australia policy still casts a shadow over relations with the peoples of Africa and Asia, but campaigns for racial equality have created new possibilities for a more just future. Remarkable for the breadth of its research and its engaging narrative, *Drawing the Global Colour Line* offers a new perspective on the history of human rights and provides compelling and original insight into the international political movements that shaped the twentieth century.

Black Veteranality Bryon L. Garner, 2025-07-25. How does military service collide with Black identity in a racially stratified America? *Black Veteranality* is an examination of the intersection of race, patriotism, and military service from the perspective of Black veterans, offering a robust framework for reimagining American patriotism and reframing veteran identity. Black veteranality emerges through an interdisciplinary synthesis of W.E.B. Du Bois' foundational concept of double consciousness, the psychological duality Black Americans experience when negotiating racialized identity formations, and Veteran Critical Theory's VCT's structural analysis of institutional power dynamics shaping military service members. Through critical ethnography and narrative interviews, this conceptual framework interrogates monolithic veteran narratives by documenting how Black service members simultaneously embody patriotic ideals through military service while confronting systemic racism's psychological toll and navigate what critical race scholars term the White gaze, a hegemonic social mechanism that perpetuates exclusion through perpetual scrutiny of Black veterans' cultural authenticity and national belonging. Essential reading for scholars of African American studies, American studies, veteran studies, and military professions, this work bridges academia and activism, proving true loyalty lies in confronting systemic inequities.

Racism Albert J. Wheeler, 2005. Of all mankind's vices, racism is one of the most pervasive and stubborn. Success in overcoming racism has been achieved from time to time, but victories have been limited thus far because mankind has focused on personal

economic gain or power grabs ignoring generosity of the soul This bibliography brings together the literature Black and British David Olusoga, 2016-11-03 Winner of the 2017 PEN Hessell Tiltman Prize Winner of the Longman History Today Trustees Award A Waterstones History Book of the Year Longlisted for the Orwell Prize Shortlisted for the inaugural Jhalak Prize Groundbreaking Observer In this vital re examination of a shared history historian and broadcaster David Olusoga tells the rich and revealing story of the long relationship between the British Isles and the people of Africa and the Caribbean This edition fully revised and updated features a new chapter encompassing the Windrush scandal and the Black Lives Matter protests of 2020 events which put black British history at the centre of urgent national debate Black and British is vivid confirmation that black history can no longer be kept separate and marginalised It is woven into the cultural and economic histories of the nation and it belongs to us all Drawing on new genealogical research original records and expert testimony Black and British reaches back to Roman Britain the medieval imagination Elizabethan blackamoors and the global slave trading empire It shows that the great industrial boom of the nineteenth century was built on American slavery and that black Britons fought at Trafalgar and in the trenches of both World Wars Black British history is woven into the cultural and economic histories of the nation It is not a singular history but one that belongs to us all Unflinching confronting taboos and revealing hitherto unknown scandals Olusoga describes how the lives of black and white Britons have been entwined for centuries A comprehensive and important history of black Britain Written with a wonderful clarity of style and with great force and passion Sunday Times NOW IN THE PICADOR COLLECTION **China and the International System,**

1840-1949 David Scott, 2008-11-07 As China continues its rapid ascent within the international system questions of where it came from have particular relevance Combining history with international relations theory David Scott considers China's first substantive modern period of encounter with the West from 1840 through 1949 a period characterized as the Century of Humiliation During this time China fell from Middle Kingdom preeminence to a position in the international system that remained an enigmatic and challenging one too strong to be taken over as a colony yet not strong enough to shape its own destiny At the heart of Scott's study is encounter and with it questions of power presence and perceptions He examines the images hopes and fears that were evoked during China's century long subservience to external powers including opposing views of China as a threat or China as the sick man of Asia and the West as evil or the West as savior China and the Chinese are explored in terms of their interaction with the international system with a particular focus on America and Australia

Explaining the History of American Foreign Relations Frank Costigliola, Michael J. Hogan, 2016-03-07 A longtime classic in its first and second editions Explaining the History of American Foreign Relations 3rd edition presents substantially revised and new essays on traditional themes such as national security corporatism borderlands history and international relations theory The book also highlights such innovative conceptual approaches and analytical methods as computational analysis symbolic borders modernization and technopolitics nationalism non state actors domestic politics exceptionalism

legal history nation branding gender race political economy memory psychology emotions and the senses Each chapter is written by a highly respected scholar in the field many of whom have risen to prominence since the second edition s publication This collection is an indispensable volume for teachers and students in foreign relations history international relations history and political science The essays are written in accessible jargon free prose thus also making the book appropriate for general readers seeking an introduction to history and political science
