Race and Power Gargi Bhattacharyya, John Gabriel, Stephen Small, 2016-04-29

Reviewing cutting edge debates around racial politics and the culture and economy of globalization this book draws together a wide range of important contemporary debates in a clear and concise way for undergraduate students Far from concluding that racism is over the authors contend that the forces of globalization inhabit older cultures of racial division in order to safeguard the economic interests of the privileged Arguing that the unspoken culture of whiteness informs much that passes in the name of globalization the book suggests that we are witnessing a reformulation of economic relations around global racisms Alongside these shifts in economic relations racialized identities evolve to encompass mixed heritages and mixed cultures both in personal identities and in lifestyle choices This is one of the few texts that concentrates on the theory of race rather than politics It looks at race in global terms and at whiteness as a part of ethnic studies

*Race, Culture, and Education* James A. Banks, 2006-09-27

**Race, Ethnicity, and Nation** Peter Wade, 2007-12-01

Race ethnicity and nation are all intimately linked to family and kinship yet these links deserve closer attention than they usually

get in social science above all when family and kinship are changing rapidly in the context of genomic and biotechnological revolutions Drawing on data from assisted reproduction transnational adoption mixed race families Basque identity politics and post Soviet nation building this volume provides new and challenging ways to understand race ethnicity and nation

*Walls and Mirrors* David G. Gutiérrez, 1995-03-27 Covering more than one hundred years of American history *Walls and Mirrors* examines the ways that continuous immigration from Mexico transformed and continues to shape the political social and cultural life of the American Southwest Taking a fresh approach to one of the most divisive political issues of our time David Gutiérrez explores the ways that nearly a century of steady immigration from Mexico has shaped ethnic politics in California and Texas the two largest U S border states Drawing on an extensive body of primary and secondary sources Gutiérrez focuses on the complex ways that their pattern of immigration influenced Mexican Americans sense of social and cultural identity and as a consequence their politics He challenges the most cherished American myths about U S immigration policy pointing out that contrary to rhetoric about alien invasions U S government and regional business interests have actively recruited Mexican and other foreign workers for over a century thus helping to establish and perpetuate the flow of immigrants into the United States In addition Gutiérrez offers a new interpretation of the debate over assimilation and multiculturalism in American society Rejecting the notion of the melting pot he explores the ways that ethnic Mexicans have resisted assimilation and fought to create a cultural space for themselves in distinctive ethnic communities throughout the southwestern United States

**21st Century Communication: A Reference Handbook** William F. Eadie, 2009-05-15 The discipline of communication has grown in popularity from the time professors of journalism and speech decided in the mid 1960s that the term communication was an excellent general descriptor for the theory and research that each group aspired to create Over time the two groups grew closer and recognized significant overlap in their theoretical and research interests but there were also differences in their traditions that kept them apart While both groups agreed that communication is a practical discipline journalism professors focused a great deal of their attention on the education of media professionals Speech professors on the other hand often were more oriented to the liberal arts and valued the fact that communication could be approached from a variety of traditions including the arts humanities social sciences and even the sciences A key term in 21st Century communication however is convergence Not only are media and technology converging with each other to produce new means of communicating but individuals are increasingly using both new and existing communication tools to create new forms of communication This convergence forces the various camps within the communication discipline to draw upon each other's theories and research methods to keep up with explaining the rapidly changing communication environment This convergence of ideas and theories provides a space to challenge conventional ways of thinking about the communication discipline and that's the goal of the SAGE 21st Century Reference Series volumes on Communication General Editor William F Eadie has sought to honor the diversity of the study of communication but also

integrate that diversity into a coherent form dividing communication study into four basic properties 1 processes 2 forms and types of communication 3 characteristics to consider in creating messages and 4 relationships between communicators Via 100 chapters this 2 volume set available in both print and electronic formats highlights the most important topics issues questions and debates any student obtaining a degree in the field of communication ought to have mastered for effectiveness in the 21st Century The purpose is to provide undergraduate majors with an authoritative reference source that will serve their research needs going forward in this exciting field with more detailed information than encyclopedia entries but not as much jargon detail or density as a journal article or a research handbook chapter Comprehensive coverage captures all the major themes and subfields within communication For instance Volume 1 themes include the discipline of communication approaches to the study of communication key processes of communication forms and types of communication key characteristics of messages key communication relationships factors affecting communication and challenges and opportunities for communication Themes in Volume 2 are media as communication communication as a profession journalism public relations advertising and media management Authoritative content is provided by a stellar casts of authors who bring diverse approaches diverse styles and different points of view Curricular driven emphasis provides students with initial footholds on topics of interest in researching for term papers in preparing for GREs in consulting to determine directions to take in pursuing a senior thesis graduate degree career etc Uniform chapter structures make it easy for students to locate key information with a more or less common chapter format of Introduction Theory Methods Applications Comparisons Future Directions Summary Bibliography Suggestions for Further Reading and Cross References Availability in print and electronic formats provides students with convenient easy access

Preston,2012-01-25 Education is a controversial subject in which difficult and contested discourses are the norm Individuals in education experience multiple inequalities and have diverse identifications that cannot necessarily be captured by one theoretical perspective alone This edited collection draws on empirical and theoretical research to examine the intersections of race gender and class alongside other aspects of personhood within education Contributors from the fields of education and sociology seek to locate the dimensions of difference and identity within recent theoretical discourses such as Critical Race Theory Judith Butler and queer theory post structural approaches and multicultural models as they analyze whiteness and the education experience of minority ethnic groups By combining a mix of intellectually rigorous accessible and controversial chapters this book presents a distinctive and engaging voice one that seeks to broaden the understanding of education research beyond the confines of the education sphere into an arena of sociological and cultural discourse

*Understanding Young People's Science Aspirations* Louise Archer,Jennifer DeWitt,2016-08-12 Understanding Young People s Science Aspirations offers new evidence and understanding about how young people develop their aspirations for education learning and ultimately careers in science Integrating new findings from a major research study with a wide ranging review of existing international literature it brings a distinctive sociological analytic lens to the field of science education The book offers an explanation of how some young people do become dedicated to follow science and what might be done to increase and broaden this population exploring the need for increased scientific literacy among citizens to enable them to exercise agency and lead a life underpinned by informed decisions about their own health and their environment Key issues considered include why we should study young people s science aspirations the role of families social class and science capital in career choice the links between ethnicity gender and science aspirations the implications for research policy and practice Set in the context of widespread international policy concern about the urgent need to improve increase and diversify participation in post 16 science this key text considers how we must encourage a supply of appropriately qualified future scientists and workers in STEM industries and ensure a high level of scientific literacy in society It is a crucial read for all training and practicing science teachers education researchers and academics as well as anyone invested in the desire to help fulfil young people s science aspirations      **Blacks and Britannity** Danièle Joly,2020-09-29 This title was first

published in 2001 Featuring original research concerning young African Caribbeans in Birmingham this book addresses complex issues of urban violence and insecurity racism and discrimination alienation resistance and social networks Employing the methodology of sociological intervention developed by Alain Touraine the book explores the experiences of a group of young people who are simultaneously presumed to be victims and perpetrators of violence It examines their

relationship to this violence its meanings for and effects upon them how they constitute themselves as social actors and subjects and their capacity for action The book also addresses the fact that ethnic monitoring and multicultural policies place the question of ethnicity on the British social and political agenda alongside issues of racism and discrimination Exploring both the perceived and personally experienced position of young people within this context it sheds important new light upon processes of group identification and action

**African Americans in Television** Gregory Adamo,2010 This book explores television and race from the perspective of industry writers producers directors and executives Listening to those directly involved in bringing diversity to television helps uncover the process whereby difference is created and recreated in both the workplace and on the television screen Back cover

Cartographies of Diaspora Avtar Brah,2005-08-18 By addressing questions of culture identity and politics Cartographies of Diaspora throws new light on discussions about difference and diversity informed by feminism and post structuralism It examines these themes by exploring the intersections of race gender class sexuality ethnicity generation and nationalism in different discourses practices and political contexts The first three chapters map the emergence of Asian as a racialized category in post war British popular and political discourse and state practices It documents Asian cultural and political responses paying particular attention to the role of gender and generation The remaining six chapters analyse the debate on difference diversity and diaspora across different sites but mainly within feminism anti racism and post structuralism

*Securitized Citizens* Baljit Nagra,2017-11-29 Uninformed and reactionary responses in the years following the events of 9 11 and the ongoing War on Terror have greatly affected ideas of citizenship and national belonging In *Securitized Citizens* Baljit Nagra develops a new critical analysis of the ideas dominant groups and institutions try to impose on young Canadian Muslims and how in turn they contest and reconceptualize these ideas Nagra conducted fifty in depth interviews with young Muslim adults in Vancouver and Toronto and her analysis reveals how this group experienced national belonging and exclusion in light of the Muslim other how they reconsidered their cultural and religious identity and what their experiences tell us about contemporary Canadian citizenship The rich and lively interviews in *Securitized Citizens* successfully capture the experiences and feelings of well educated second generation and young Canadian Muslims Nagra acutely explores how racial discourses in a post 9 11 world have affected questions of race relations religious identity nationalism white privilege and multiculturalism

**PARENTHOOD AND RACE CULTURE** Caleb Williams Saleeby,1909

**International Handbook of Migration, Minorities and Education** Zvi Bekerman,Thomas Geisen,2011-10-06 Migrants and minorities are always at risk of being caught in essentialized cultural definitions and being denied the right to express their cultural preferences because they are perceived as threats to social cohesion Migrants and minorities respond to these difficulties in multiple ways as active agents in the pedagogical political social and scientific processes that position them in this or that cultural sphere On the one hand they reject ascribed cultural attributes while striving towards integration in a variety of social spheres e g school and workplace in order to achieve social

mobility On the other hand they articulate demands for cultural self determination This discursive duality is met with suspicion by the majority culture For societies with high levels of migration or with substantial minority cultures questions related to the meaning of cultural heterogeneity and the social and cultural limits of learning and communication e g migration education or critical multiculturalism are very important It is precisely here where the chances for new beginnings and new trials become of great importance for educational theorizing which urgently needs to find answers to current questions about individual freedom community cultural affiliations and social and democratic cohesion Answers to these questions must account for both political and learning perspectives at the macro mezzo and micro contextual levels The contributions of this edited volume enhance the knowledge in the field of migrant minority education with a special emphasis on the meaning of culture and social learning for educational processes
