Women's History in Global Perspective Bonnie G. Smith, 2004 The American Historical Association's Committee on Women Historians commissioned some of the pioneering figures in women's history to prepare essays in their respective areas of expertise. This volume, the first in a series of three, collects their efforts. *Women's History in Global Perspective* Volume 1 addresses the comparative themes that the editors and contributors see as central to understanding women's history around the world. Later volumes will be concerned with issues that have shaped the history of women in particular regions. The authors of these essays, including Margaret Strobel, Alice Kessler Harris, and Mrinalini Sinha, provide general overviews of the theory and practice of women's and gender history and analyze family history, nationalism, and work. The collection is rounded out by essays on religion, race, ethnicity, and the different varieties of feminism. Incorporating essays from top scholars ranging over an abundance of regions, dates, and methodologies, the three volumes of *Women's History in Global Perspective* constitute an invaluable resource for anyone interested in a comprehensive overview on the latest in feminist scholarship.

Gender Equality in a Global Perspective Anders Ortenblad, Raili Marling, Snjezana Vasiljevic, 2017-01-06 *Gender Equality in a Global Perspective* looks to discuss whether Gender Equality can be adopted as it has been defined in international documents anywhere or whether it needs to be adapted in a more local context. It discusses which factors and perspectives need to be taken into account when adapting Gender Equality to specific contexts, suggests research approaches for studies on whether a universal Western concept of Gender Equality fits in certain specific contexts, and finally suggests challenges to the existing interpretation of Gender Equality, e.g., theory of intersectionality and the development of legal and policy framework. This book is situated within the tradition of comparative gender studies. While most other such books take up and compare various ways of implementing or not implementing gender equality, this book studies and compares whether or not and to what extent a specific definition of Gender Equality (GE) could be adopted by various nations. Thus, all chapter contributors will engage with the same definition of GE which will be presented within the book and discuss the possibilities and constraints related to applying such a definition in their particular national context. The readers will learn about the problems of applying a universal concept of Gender Equality and the possible reasons for and modes of adapting Gender Equality to different contexts. *Gender Equality in a Global Perspective* looks to maintain a critical and reflexive stance towards the issues raised and will seek to present multiple perspectives and open-ended answers. As such, it hopes to contribute to the international discussion of human rights more broadly and Gender Equality specifically. The intended audience is not limited only to but will include policy makers, scholars, and students with an interest in Gender issues. Organizational Theory, Political Science, Human Development, Policy Analysis, Globalization, and other management sub
