Race Ethnicity And The Politics Of City Redistricting:

Race, Ethnicity, and the Politics of City Redistricting Joshua G. Behr, 2004-02-26 Nationwide study of the proposal and adoption of minority opportunity districts at the local level The Politics of African-American Education Kenneth J. Meier, Amanda Rutherford, 2016-08-22 Based on the 1 800 largest school districts in the United States over a decade The Politics of African American Education documents the status of African American education and the major role that partisanship plays The book brings together the most comprehensive database on minority education to date that centers around three arguments First partisanship permeates African American education it affects who is elected to the school board the racial composition of school administrators and teachers and the access of African American students to quality education Second African American representation matters The effectiveness of African American representation however is enhanced in Democratic districts while representation in Republican districts has little influence Third political structures matter but they are not determinative Two different structures election rules and the independent school district create the rules of the game in US education politics and policy but do not limit others from using those rules to change the outcome

Anatomy of a Purple State Christopher A. Cooper,2024-10-09 North Carolina represents a perfect distillation of the promise and peril of modern American democracy hyperpartisanship gerrymandering dissatisfaction with the two party system the urban rural divide these issues are all brought into sharp relief in the Tar Heel State For that reason North Carolina politics and government are increasingly of interest not just to North Carolina citizens but to journalists political observers and people across the country Political scientist Christopher A Cooper to whom the national media go when they need a quote about North Carolina politics offers a primer made for all people no matter their political leanings Readers will be introduced to everything that has made North Carolina the most purple of purple states from the state constitution and the influence of think tanks to the growing racial diversity of the state and the limitations on the governor's power By explaining how we came to be in the political situation we are in Cooper shows us where we might go next And as many have said As North Carolina goes so goes the nation **US Government and Politics** William Storey,2010-05-03 The US political system is designed to ensure that freedom and opportunity will always be protected by making it almost impossible for power to become concentrated in the hands of a few people seeking to run society for their own benefit Have these aims been achieved The answer is that Americans have sharply contrasting views on how well their political system works They disagreed with each other when they established the system at the Constitutional Convention in 1787 and have continued to disagree ever since This book covers the key issues political systems and governing institutions at the heart of these disagreements outlining the thinking behind the main points of view to help its readers decide for themselves which viewpoint they find most persuasive This new edition of the best selling introduction to US Government and Politics has been completely revised and updated to reflect the changes in the area since the election of the new President **New York City Politics** Bruce F. Berg,2007-11-12 Most experts consider economic development to be the dominant factor influencing urban

politics They point to the importance of the finance and real estate industries the need to improve the tax base and the push to create jobs Bruce F Berg maintains that there are three forces which are equally important in explaining New York City politics economic development the city s relationships with the state and federal governments which influence taxation revenue and public policy responsibilities and New York City s racial and ethnic diversity resulting in demands for more equitable representation and greater equity in the delivery of public goods and services New York City Politics focuses on the impact of these three forces on the governance of New York City s political system including the need to promote democratic accountability service delivery equity as well as the maintenance of civil harmony This second edition updates the discussion with examples from the Bloomberg and de Blasio administrations as well as current public policy issues including infrastructure housing and homelessness land use regulations and education

Asian American Politics Don T. Nakanishi, James S. Lai, James Siu-Fong Lai, 2003 Asian Americans are emerging as a political force and yet their politics have not been systematically studied by either social scientists or politicians Asian American politics transcend simple questions of voting behavior and elective office going all the way back to early immigration laws and all the way forward to ethnic targeting For the first time this book brings together original sources on key topics influencing Asian American politics knit together by expert scholars who introduce each subject and place it in context with political events and the greater emerging literature Court cases legislation demographics and key pieces on topics ranging from gender to Japanese American redress to the Los Angeles riots to Wen Ho Lee round out this innovative reader on a politically active group likely to grow in number and electoral impact
