Cheree Carlson, 2010-10-01 Cultural views of femininity exerted a powerful influence on the courtroom arguments used to defend or condemn notable women on trial in nineteenth century and early twentieth century America By examining the colorful rhetorical strategies employed by lawyers and reporters of women's trials in newspaper articles trial transcriptions and popular accounts A Cheree Carlson argues that the men in charge of these communication avenues were able to transform their own values and morals into believable narratives that persuaded judges juries and the general public of a woman's guilt or innocence Carlson analyzes the situations of several women of varying historical stature from the insanity trials of Mary Todd Lincoln and Lizzie Borden s trial for the brutal slaying of her father and stepmother to lesser known trials involving insanity infidelity murder abortion and interracial marriage The insanity trial of Elizabeth Parsons Ware Packard the wife of a minister resulted from her attempts to change her own religion while a jury acquitted Mary Harris for killing her married lover suggesting that loss of virginity to an adulterous man was justifiable grounds for homicide The popular conception of abortion as a woman's crime came to the fore in the case of Ann Loman also known as Madame Restell who performed abortions in New York both before and after it became a crime Finally Alice Rhinelander was sued for fraud by her new husband Leonard for passing as white but the jury was more moved by the notion of Alice being betrayed as a woman by her litigious husband than by the supposed defrauding of Leonard as a white male Alice won the case but the image of womanhood as in need of sympathy and protection won out as well At the heart of these cases Carlson reveals clearly just how narrow was the line that women had to walk since the same womanly virtues that were expected of them passivity frailty and purity could be turned against them at any time These trials of popular status are especially significant because they reflect the attitudes of the broad audience indicate which forms of knowledge are easily manipulated and allow us to analyze how the verdict is argued outside the courtroom in the public and press With gripping retellings and incisive analysis of these scandalous criminal and civil cases

The Problem South Natalie J. Ring,2012-04-01 For most historians the late nineteenth and early twentieth centuries saw the hostilities of the Civil War and the dashed hopes of Reconstruction give way to the nationalizing forces of cultural reunion a process that is said to have downplayed sectional grievances and celebrated racial and industrial harmony In truth says Natalie J Ring this buoyant mythology competed with an equally powerful and far reaching set of representations of the backward Problem South one that shaped and reflected attempts by northern philanthropists southern liberals and federal experts to rehabilitate and reform the country's benighted region Ring rewrites the history of sectional reconciliation and demonstrates how this group used the persuasive language of social science and regionalism to reconcile the paradox of

poverty and progress by suggesting that the region was moving through an evolutionary period of readjustment toward a more perfect state of civilization In addition The Problem South contends that the transformation of the region into a mission field and laboratory for social change took place in a transnational moment of reform Ambitious efforts to improve the economic welfare of the southern farmer eradicate such diseases as malaria and hookworm educate the southern populace uplift poor whites and solve the brewing race problem mirrored the colonial problems vexing the architects of empire around the globe It was no coincidence Ring argues that the regulatory state s efforts to solve the southern problem and reformers increasing reliance on social scientific methodology occurred during the height of U S imperial expansion Sharon Davies, 2010-02-16 It was among the most notorious criminal cases of its day On August 11 1921 in Birmingham Alabama a Methodist minister named Edwin Stephenson shot and killed a Catholic priest James Coyle in broad daylight and in front of numerous witnesses The killer's motive The priest had married Stephenson's eighteen year old daughter Ruth to Pedro Gussman a Puerto Rican migrant and practicing Catholic Sharon Davies s Rising Road resurrects the murder of Father Coyle and the trial of his killer As Davies reveals with novelistic richness Stephenson's crime laid bare the most potent bigotries of the age a hatred not only of blacks but of Catholics and foreigners as well In one of the case s most unexpected turns the minister hired future U S Supreme Court Justice Hugo Black to lead his defense Though regarded later in life as a civil rights champion in 1921 Black was just months away from donning the robes of the Ku Klux Klan the secret order that financed Stephenson's defense Entering a plea of temporary insanity Black defended the minister on claims that the Catholics had robbed Ruth away from her true Protestant faith and that her Puerto Rican husband was actually black Placing the story in social and historical context Davies brings this heinous crime and its aftermath back to life in a brilliant and engrossing examination of the wages of prejudice and a trial that shook the nation at the height of Jim Crow Davies takes us deep into the dark heart of the Jim Crow South where she uncovers a searing story of love faith bigotry and violence Rising Road is a history so powerful so compelling it stays with you long after you ve finished its final page Kevin Boyle author of the National Book Award winning Arc of Justice This gripping history has all the makings of a Hollywood movie Drama aside Neither Black Nor White Yet Both Werner Rising Road also happens to be a fine work of history History News Network Sollors,1999 Why can a white woman give birth to a black baby while a black woman can never give birth to a white baby in the United States What makes racial passing so different from social mobility Why are interracial and incestuous relations often confused or conflated in literature making miscegenation appear as if it were incest Werner Sollors examines these questions and others in Neither Black nor White yet Both a fully researched investigation of literary works that in the past have been read more for a black white contrast of either or than for an interracial realm of neither nor both and in between From the origins of the term race to the cultural sources of the Tragic Mulatto and from the calculus of color to the retellings of various plots Sollors examines what we know about race analyzing recurrent motifs in scientific and legal works as well as
