Gender, Race, and Ethnicity in the Workplace Margaret Foegen Karsten, 2016-03-28. Insights from professionals in the fields of organizational development and diversity provide practical tools to help employees and managers regardless of race or gender collaborate in reaching their workplace potential. The contributions of more than 30 experts reframe the discussion on gender, race, and ethnicity in the U.S. workforce, examining the complex identity concerns facing workers who fall within minority groups and recommending practical solutions for dealing with workplace inequities. Through focused essays, experts explore new perspectives to persistent challenges and discuss progress made in addressing unequal treatment based on race and gender in the past eight years. This detailed reference explores every aspect of the issue, including mentoring, family leaves, pay inequity, multiracial and transgender identities, community involvement, and illegal harassment. The first part of the book identifies employment discrimination based on multiracial identity, appearance, and transgender status. The second section unveils the psychology behind harassment on the job. The third section provides strategies for overcoming traditional obstacles for the disenfranchised. The final section discusses updates on laws dealing with the Family and Medical Leave Act. The book closes with success stories of women of color in U.S. leadership roles, as well as others achieving success in their professions outside of the country. Accompanying tables, charts, and graphs illustrate the field's most poignant research, such as the relationship between organizational effectiveness and diversity and the characteristics of those taking family and medical leave.

Hispanic Population of the United States Frank D. Bean, Marta Tienda, 1988-05-26. The Hispanic population in the United States is a richly diverse and changing segment of our national community. Frank Bean and Marta Tienda emphasize a shifting cluster of populations: Mexican, Puerto Rican, Cuban, Central and South American, Spanish, and Caribbean, as they examine fertility and immigration, family and marriage patterns, education, earnings, and employment. They discuss, for instance, the effectiveness of bilingual education, recommending instead culturally supportive programs that will benefit both Hispanic and non-Hispanic students. A study of the geographic distribution of Hispanics shows that their tendency to live in metropolitan areas may, in fact, result in an isolation which denies them equal access to schooling, jobs, and health care. Bean and Tienda offer a critical, much-needed assessment of how Hispanics are faring and what the issues for the future will be. Their findings reveal and reflect differences in the Hispanic population that will influence policy decisions and
