**News for All the People:**

**The Epic Story of Race and the American Media** Juan González, Joseph Torres, 2011-10-31 A landmark narrative history of American media that puts race at the center of the story Here is a new sweeping narrative history of American news media that puts race at the center of the story From the earliest colonial newspapers to the Internet age America's racial divisions have played a central role in the creation of the country's media system just as the media has contributed to and every so often combated racial oppression News for All the People reveals how racial segregation distorted the information Americans received from the mainstream media It unearths numerous examples of how publishers and broadcasters actually fomented racial violence and discrimination through their coverage And it chronicles the influence federal media policies exerted in such conflicts It depicts the struggle of Black Latino Asian and Native American journalists who fought to create a vibrant yet little known alternative democratic press and then beginning in the 1970s forced open the doors of the major media companies The writing is fast paced story driven and replete with memorable portraits of individual journalists and media executives both famous and obscure heroes and villains It weaves back and forth between the corporate and government leaders who built our segregated media system such as Herbert Hoover whose Federal Radio Commission eagerly awarded a license to a notorious Ku Klux Klan organization in the nation's capital and those who rebelled against that system like Pittsburgh Courier publisher Robert L Vann who led a remarkable national campaign to get the black face comedy Amos n Andy off the air Based on years of original archival research and up to the minute reporting and written by two veteran journalists and leading advocates for a more inclusive and democratic media system News for All the People should become the standard history of American media

*Race the Time* Vidya Gopaul, 2015-07-13 This novel RACE THE TIME that I have written is first of a kind Its about a man who while trying to locate his birth father ended up marrying his own sister because his father was the same father of the girl he was marrying It so happened because his father deserted his mother when she was pregnant and married to another woman who then gave birth to a baby girl Since the man lived in one country and the girl lived in another country when they met they did not know that they had the same father Eventually on their wedding day they found out that both had the same father But it was too late because many unethical acts had been committed between them What inspired me to write this novel is that such true story has taken place in many occasions in

this country and in many others and has been kept in the background The families who have been affected by it have been devastated morally Moreover the idea of writing this book also came to my mind while I participated in a bioethical course in my undergraduate programs at university I believe that such true story will keep occurring as long as there will be divorces family break ups unwanted pregnancies sex freedom artificial insemination and many other methods of artificially conceiving babies I also believe that once this novel is in the market many people will become aware of such story and perhaps will educate them As a result it may help prevent further occurrence of similar incidents **Ridpath's Universal History** John
