50 Facts That Should Change The World 2.0 Jessica Williams, 2007-11-01 Jessica Williams revisits her classic series of snapshots of life in the twenty first century Revised and updated with lots of new material this book is every bit as vital as the first edition From the inequalities and absurdities of the so called developed world to the vast scale of suffering wreaked by war famine and AIDS in developing countries it paints a picture of incredible contrasts This 2 0 edition again contains an eclectic selection of facts addressing a broad range of global issues now with added emphasis on climate change the decline in human rights and democratic freedoms around the world the unexpected global impact of corporate growth sports and media madness and inequality and lots of updated facts and figures Each is followed by a short essay explaining the story behind the fact fleshing out the bigger problem lurking behind the numbers Real life stories anecdotes and case studies help to humanize the figures and make clear the human impact of the bald statistics All of the facts remind us that whether we like to think of it or not the world is interconnected and civilization is a fragile concept Williams makes us think about some of the hard facts about our civilization and what we can do about them

Thinker, Faker, Spinner, Spy David Miller, William Dinan, 2007-06-20 The public relations industry is not just about celebrity gossip This book shows how whenever big business is threatened spin doctors lobbyists think tanks and front groups are on hand to push the corporate interest often at the public s expense Written by leading activists and writers this book reveals the secrets of the PR trade including deception the use of fake institutes spying and dirty tricks The impact can be devastating when the public is denied access to the truth the results are rising inequality and environmental catastrophe Exposing the misdeeds of famous companies including Coca Cola British Aerospace Exxon and Monsanto and revealing information about the covert funding of various apparently independent think tanks and institutes the authors offer a guide to campaigns that can help us roll back corporate power and resist deceptive PR *Plagues, Apocalypses and Bug-Eyed*

Monsters Heather Urbanski, 2015-01-24 Speculative fiction both science fiction and fantasy reflects among other things the fears of the culture that created it contributing perhaps unconsciously to our efforts to prevent our fears from coming true While the names and media change over time the themes of speculative fiction have a long history Nineteenth century works such as *Frankenstein* and *The Invisible Man* contain many of the same messages as the more modern tales of *Terminator* *Jurassic Park* and even *Buffy the Vampire Slayer* although almost a century separates their creation This critical study discusses the ways in which speculative fiction reflects societal fears and analyzes how such cautionary tales contribute to society's efforts to avoid the realization of these fears Beginning with a discussion of the nature of speculative fiction it takes a look at the characteristics of the cautionary tale The core of the book however is the concept of the Nightmares Model which examines and categorizes the repetition of specific themes within the genre The dangers of science and technology the perils of power and the threat of the unknown are discussed as recurrent themes within a variety of works in prose film and television Works analyzed range from *Twenty Thousand Leagues Under the Sea* to 2001 *A Space Odyssey* to *The Blair Witch Project* Sources include the author's own observations as a member of the genre's fandom a variety of published commentaries and the perspectives of contemporary professionals gained through personal interviews and panel discussions

Race and Ethnicity in America Russell M. Lawson, Benjamin A. Lawson, 2019-10-11 Divided into four volumes *Race and Ethnicity in America* provides a complete overview of the history of racial and ethnic relations in America from pre contact to the present The five hundred years since Europeans made contact with the indigenous peoples of America have been dominated by racial and ethnic tensions During the colonial period from 1500 to 1776 slavery and servitude of whites blacks and Indians formed the foundation for race and ethnic relations After the American Revolution slavery labor inequalities and immigration led to racial and ethnic tensions after the Civil War labor inequalities immigration and the fight for civil rights dominated America's racial and ethnic experience From the 1960s to the present the unfulfilled promise of civil rights for all ethnic and racial groups in America has been the most important sociopolitical issue in America *Race and Ethnicity in America* tells this story of the fight for equality in America The first volume spans pre contact to the American Revolution the second the American Revolution to the Civil War the third Reconstruction to the Civil Rights Movement and the fourth the Civil Rights Movement to the present All volumes explore the culture society labor war and politics and cultural expressions of racial and ethnic groups
