Constructing Race and Ethnicity in America Dvora Yanow, 2015-02-18 What do we mean in the U S today when we use the terms race and ethnicity What do we mean and what do we understand when we use the five standard race ethnic categories White Black Asian Native American and Hispanic Most federal and state data collection agencies use these terms without explicit attention and thereby create categories of American ethnicity for political purposes Dvora Yanow argues that race and ethnicity are socially constructed concepts not objective scientifically grounded variables and do not accurately represent the real world She joins the growing critique of the unreflective use of race and ethnicity in American policymaking through an exploration of how these terms are used in everyday practices Her book is filled with current examples and analyses from a wealth of social institutions health care education criminal justice and government at all levels The questions she raises for society and public policy are endless Yanow maintains that these issues must be addressed explicitly publicly and nationally if we are to make our policy and administrative institutions operate more effectively

**Arkansas in Modern America since 1930** Ben F. Johnson

III,2019-08-30 This second edition of *Arkansas in Modern America since 1930* represents a significant rewriting of and elaboration on the first edition published in 2000. Historian Ben F. Johnson fills in gaps, reconsiders his original conclusions, and reflects on new developments in historical scholarship, extending the book's analysis of the political, economic, social, and cultural positions into 2018. Particularly impressive for the breadth of its scope, *Arkansas in Modern America since 1930* offers an overview of the factors that moved Arkansas from a primarily rural society to one more in step with the modern economy and perspectives of the nation as a whole. The narrative covers the roles of Daisy Bates, Sam Walton, Don Tyson, Bill Clinton, and other influential figures in the state's history to reveal a state shaped by global as much as by local forces. The second edition of this important book will continue to set the standard for analysis and interpretation of Arkansas's place in the contemporary world.

*The Americanization Syndrome* Robert A. Carlson, 2022-11-16 *The Americanization Syndrome* 1987 examines the historical role of education in the process of Americanization. It argues that beginning with seventeenth-century puritan leaders such as John Winthrop and Cotton Maher, the pattern of American education has been not the promotion of a blend of different cultures but the indoctrination of norms of belief of religion, politics, and economics, and an explicit discouragement of cultural variety. It traces the political role of education at key junctures of American history: after Independence, in the reconstruction of the South after the Civil War, in the establishment of settlement houses, and the use of scientific management techniques by employers. The author focuses on the period 1900-1925, when new waves of immigrants from southern and eastern Europe led to a new drive for orthodoxy.

*Black Conservative Intellectuals in Modern America* Michael L. Ondaatje, 2011-11-29 In the last three decades, a brand of black conservatism espoused by a controversial group of African American intellectuals has become a fixture in the nation's political landscape, its proponents having shaped policy debates over some of the most pressing matters that confront contemporary American society. Their ideas, though, have been neglected by scholars of the African American experience, and much of the responsibility for explaining black conservatism's historical and contemporary significance has fallen to highly partisan journalists. Typically, those pundits have addressed black conservatives as an undifferentiated mass, proclaiming them good or bad, right or wrong, color-blind visionaries or Uncle Toms. In *Black Conservative Intellectuals in Modern America*, Michael L. Ondaatje delves deeply into the historical archive to chronicle the origins of black conservatism in the United States from the early 1980s to the present. Focusing on three significant policy issues—affirmative action, welfare, and education—Ondaatje critically engages with the ideas of nine of the most influential black conservatives. He further documents how their ideas were received both by white conservatives eager to capitalize on black support for their ideas and by activists on the left who too often sought to impugn the motives of black conservatives instead of challenging the merits of their claims. While Ondaatje's investigation uncovers the themes and issues that link these voices together, he debunks the myth of a monolithic black conservatism. Figures such as Supreme Court Justice Clarence Thomas, the Hoover Institution's Thomas Sowell, and Shelby Steele, and cultural theorist John McWhorter

emerge as individuals with their own distinct understandings of and relationships to the conservative political tradition

**The History Of U.S. Ethnic Policy And Its Impact On European Ethnicity** John

Lescott-Leszczynski, 2019-09-06 Ethnic considerations have often played a part in the development of U S public policy even for policies not directly targeting ethnic groups This book surveys the impact of specific legislation on ethnics particularly European ethnics from a historical perspective Its primary focus however is the contemporary body of legislation and regulation based on the 1964 Civil Rights Act which laid the foundation for a conscious and comprehensive racial and ethnic policy intended to aid disadvantaged minorities One of the major outcomes of the 1964 act was the implementation of affirmative action programs mandated by the federal government for its own agencies for federally funded institutions and for private enterprise Implementation depended on data collection based on federally developed racial and ethnic categories Because European ethnics were not included as an identifiable category many discovered Dr Lescott Leszczynski felt that preferential treatment for certain other ethnic groups operated to their disadvantage ethnic tension inevitably resulted Through a systematic review of laws executive orders federal agency directives and related jurisprudence Dr Lescott Leszczynski conveys the extent to which social change has been effected by ethnic policies and explores the ways in which

ethnic policy develops how it is expressed how it is implemented and how it is challenged      *Not Just Black and White*

Lewis, 2004-11-11

The legal institutions of overt racism in the United States have been eliminated but social surveys and investigations of social institutions confirm the continuing significance of race and the enduring presence of negative racial attitudes This shift from codified and explicit racism to more subtle forms comes at a time when the very boundaries of race and ethnicity are being reshaped by immigration and a rising recognition that old systems of racial classification inadequately capture a diverse America In *The Changing Terrain of Race and Ethnicity* editors Maria Krysan and Amanda Lewis bring together leading scholars of racial dynamics to study the evolution of America's racial problem and its consequences for race relations in the future *The Changing Terrain of Race and Ethnicity* opens by attempting to answer a puzzling question how is it that so many whites think racism is no longer a problem but so many nonwhites disagree Sociologist Lawrence Bobo contends that whites exhibit what he calls *laissez faire racism* which ignores historical and structural contributions to racial inequality and does nothing to remedy the injustices of the status quo Tyrone Forman makes a similar case in his chapter contending that an emphasis on color blindness allows whites to be comforted by the idea that all races are on a level playing field while not recognizing the advantages they themselves have reaped from years of inequality The book then moves to a discussion of the new ways that Americans view race Eduardo Bonilla Silva and Karen Glover argue that the United States is moving from a black white divide to a tripartite system where certain light skinned non threatening minority groups are considered honorary whites The book's final section reexamines the theoretical underpinnings of scholarship on race and ethnicity Joe Feagin argues that research on racism focuses too heavily on how racial boundaries are formed and needs to concentrate more on how those boundaries are used to maintain privileges for certain groups at the expense of others Manning Marable contends that racism should be addressed at an institutional level to see the prevalence of structural racism deeply entrenched patterns of inequality that are coded by race and justified by stereotypes *The Changing Terrain of Race and Ethnicity* provides an in depth view of racism in modern America which may be less conspicuous but not necessarily less destructive than its predecessor *Jim Crow* The book's rich analysis and theoretical insight shed light on how despite many efforts to end America's historic racial problem it has evolved and persisted into the 21st century

**Contemporary Asian America** Min Zhou, James V. Gatewood, 2007-01-01 How does one capture the delightful irony of Edith Wharton's prose or the spare lyricism of Kate Chopin's Kathleen Wheeler challenges the reader to experiment with a more imaginative method of literary criticism in order to comprehend more fully writers of the Modernist and late Realist period In examining the creative works of seven women writers from the late nineteenth and early twentieth centuries Wheeler never lets the mystery

and magic of literature be overcome by dry critical analysis Modernist Women Writers and Narrative Art begins by evaluating how Edith Wharton Kate Chopin and Willa Cather all engaged in an ironic critique of realism They explored the inadequacies of this form in expressing human experience and revealed its hidden often contradictory assumptions Building on the foundation that Wharton Chopin and Cather established Jean Rhys Katherine Mansfield Stevie Smith and Jane Bowles brought literature into the era we now consider modernism Drawing on insights from feminist theory deconstructionism and revisions of new historicism Kathleen Wheeler reveals a literary tradition rich in narrative strategy and stylistic sophistication
