Race and Nation Paul R. Spickard, 2005 *Race and Nation* offers a comparison of the various racial ethnic systems that have developed around the world in locations that include China New Zealand Eritrea Jamaica Intermarriage from Central Europe to Central Asia Adrienne Edgar, Benjamin Frommer, 2020-06-01 *Intermarriage from Central Europe to Central Asia* examines the practice and experience of interethnic marriage in a range of countries and eras from imperial Germany to present day Tajikistan In this interdisciplinary volume Adrienne Edgar and Benjamin Frommer have drawn contributions from anthropologists and historians The contributors explore the phenomenon of intermarriage both from the top down in the form of state policies and official categories and from the bottom up through an intimate look at the experience and agency of mixed families in modern states determined to control the lives and identities of their citizens to an unprecedented degree Contributors address the tensions between state ethnic categories and the subjective identities of individuals the status of mixed individuals and families in a region characterized by continual changes in national borders and regimes and the role of intermarried couples and their descendants in imagining supranational communities The first of its kind *Intermarriage from Central Europe to Central Asia* is a foundational text for the study of intermarriage and ethnic mixing in Eastern Europe and Eurasia *Multiculturalism and Democracy in North Africa* Moha Ennaji, 2014-04-16 Investigating the connections between multiculturalism minorities citizenship and democracy in North Africa this book argues that multiculturalism in this region and in the Arab world at large has reached a significant level in terms of scale and importance In the rest of the world there has been a trend albeit a contested one toward a greater recognition of minority rights The Arab world however particularly North Africa seems to be an exception to this trend as Arab states continue to promote highly unitary and homogenizing ideas of nationhood and state unity whilst discouraging or even forbidding minority political mobilization The central theoretical premise of this book is that North Africa is a multicultural region where culture is inherently linked to politics religion gender and society and a place where democracy is gradually taking root despite many political and economic hurdles Addressing the lacuna in literature on this issue this book opens new avenues of thought and research on diversity linking policy based on cultural difference to democratic culture and to social justice *Multiculturalism and Democracy in North Africa* will be of use to students and researchers with an interest in Sociology Cultural Studies and Political Science more broadly **Mapping the Middle East** Zayde Antrim, 2018-04-15 *Mapping the Middle East* explores the many ways people have visualized the vast area lying between the Atlantic Ocean and the Oxus and Indus River Valleys over the past millennium By analyzing maps produced from the eleventh century on Zayde Antrim emphasizes the deep roots of mapping in a region too often considered unexamined and unchanging before the modern period As Antrim argues better known maps from the nineteenth and twentieth centuries a period coinciding with European colonialism and the rise of the nation state not only obscure this rich past but also constrain visions for the region's future Organized chronologically

Mapping the Middle East addresses the medieval Realm of Islam the sixteenth to eighteenth century Ottoman Empire French and British colonialism through World War I nationalism in modern Turkey Iran and Israel Palestine and alternative geographies in the twentieth and twenty first centuries Vivid color illustrations throughout allow readers to compare the maps themselves with Antrim s analysis Much more than a conventional history of cartography Mapping the Middle East is an incisive critique of the changing relationship between maps and belonging in a dynamic world region over the past thousand years

**Gateway State** Sarah Miller-Davenport,2021-07-06 How Hawai i became an emblem of multiculturalism during its journey to statehood in the mid twentieth century Gateway State explores the development of Hawai i as a model for liberal multiculturalism and a tool of American global power in the era of decolonization The establishment of Hawai i statehood in 1959 was a watershed moment not only in the ways Americans defined their nation s role on the international stage but also in the ways they understood the problems of social difference at home Hawai i s remarkable transition from territory to state heralded the emergence of postwar multiculturalism which was a response both to independence movements abroad and to the limits of civil rights in the United States Once a racially problematic overseas colony by the 1960s Hawai i had come to symbolize John F Kennedy s New Frontier This was a more inclusive idea of who counted as American at home and what areas of the world were considered to be within the U S sphere of influence Statehood advocates argued that Hawai i and its majority Asian population could serve as a bridge to Cold War Asia and as a global showcase of American democracy and racial harmony In the aftermath of statehood business leaders and policymakers worked to institutionalize and sell this ideal by capitalizing on Hawai i s diversity Asian Americans in Hawai i never lost a perceived connection to Asia Instead their ethnic difference became a marketable resource to help other Americans navigate a decolonizing world As excitement over statehood dimmed the utopian vision of Hawai i fell apart revealing how racial inequality and U S imperialism continued to shape the fiftieth state and igniting a backlash against the islands white dominated institutions

**Disciples of the State?** Kristin Fabbe,2019-03-28 As the Ottoman Empire crumbled the Middle East and Balkans

became the site of contestation and cooperation between the traditional forces of religion and the emergent machine of the sovereign state Yet such strategic interaction rarely yielded a decisive victory for either the secular state or for religion By tracing how state builders engaged religious institutions elites and attachments this book problematizes the divergent religion state power configurations that have developed There are two central arguments First states carved out more sovereign space in places like Greece and Turkey where religious elites were integral to early centralizing reform processes Second region wide structural constraints on the types of linkages that states were able to build with religion have generated long term repercussions Fatefully both state policies that seek to facilitate equality through the recognition of religious difference and state policies that seek to eradicate such difference have contributed to failures of liberal democratic consolidation

**Forward Without Fear** Derek Taira, 2024-06 During Hawai i s territorial period 1900 1959 Native Hawaiians resisted assimilation by refusing to replace Native culture identity and history with those of the United States By actively participating in U S public schools Hawaiians resisted the suppression of their language and culture subjection to a foreign curriculum and denial of their cultural heritage and history which was critical for Hawai i s political evolution within the manifest destiny of the United States In *Forward without Fear* Derek Taira reveals that many Native Hawaiians in the first forty years of the territorial period neither subscribed nor succumbed to public schools aggressive efforts to assimilate and Americanize them but instead engaged with American

education to envision and support an alternate future one in which they could exclude themselves from settler society to maintain their cultural distinctiveness and protect their Indigenous identity Taira thus places great emphasis on how they would have understood their actions as flexible and productive steps for securing their cultural sovereignty and safeguarding their future as Native Hawaiians and reshapes historical understanding of this era as one solely focused on settler colonial domination oppression and elimination to a more balanced and optimistic narrative that identifies and highlights Indigenous endurance resistance and hopefulness

**The Reckoning of Pluralism** Kabir Tambar, 2014-04-16 The Turkish Republic was founded simultaneously on the ideal of universal citizenship and on acts of extraordinary exclusionary violence Today nearly a century later the claims of minority communities and the politics of pluralism continue to ignite explosive debate The Reckoning of Pluralism centers on the case of Turkey's Alevi community a sizeable Muslim minority in a Sunni majority state Alevis have seen their loyalty to the state questioned and experienced sectarian hostility and yet their community is also championed by state ideologues as bearers of the nation's folkloric heritage Kabir Tambar offers a critical appraisal of the tensions of democratic pluralism Rather than portraying pluralism as a governing ideal that loosens restrictions on minorities he focuses on the forms of social inequality that it perpetuates and on the political vulnerabilities to which minority communities are thereby exposed Alevis today are often summoned by political officials to publicly display their religious traditions but pluralist tolerance extends only so far as these performances will validate rather than disturb historical ideologies of national governance and identity Focused on the inherent ambivalence of this form of political incorporation Tambar ultimately explores the intimate coupling of modern political belonging and violence of political inclusion and domination contained within the practices of pluralism
