Race In The News:

Race and the News Media Paul L. Fisher, Ralph Lynn Lowenstein, 1967 **Race News** Fred Carroll, 2017-11-06 Once distinct the commercial and alternative black press began to crossover with one another in the 1920s The porous press culture that emerged shifted the political and economic motivations shaping African American journalism It also sparked disputes over radical politics that altered news coverage of some of the most momentous events in African American history Starting in the 1920s Fred Carroll traces how mainstream journalists incorporated coverage of the alternative press s supposedly marginal politics of anti colonialism anti capitalism and black separatism into their publications He follows the narrative into the 1950s when an alternative press re emerged as commercial publishers curbed progressive journalism in the face of Cold War repression Yet as Carroll shows journalists achieved significant editorial independence and continued to do so as national newspapers modernized into the 1960s Alternative writers politics seeped into commercial papers via journalists who wrote for both presses and through professional friendships that ignored political boundaries Compelling and incisive **Race News** reports the dramatic history of how black press culture evolved in the twentieth century **Media & Minorities** Stephanie Greco Larson, 2006 **Media Minorities** looks at the media s racial tendencies with an eye to identifying the system supportive messages conveyed and offering challenges to them The book covers all major media including television film newspapers radio magazines and the Internet and systematically analyzes their representation of the four largest minority groups in the U S African Americans Native Americans Latinos and Asian Americans Entertainment media are compared and contrasted with news media and special attention is devoted to coverage of social movements for racial justice and politicians of color *Race and News* Christopher P. Campbell, Kim M. LeDuff, Cheryl D. Jenkins, Rockell A. Brown, 2013-07-03 The history of American journalism is marked by disturbing representations of people and communities of color from the disgraceful stereotypes of pre civil rights America to the more subtle myths that are reflected in routine coverage by journalists all over the country *Race and News Critical Perspectives* aims to examine these journalistic representations of race and in doing so to question whether or not we are living in a post racial world By looking at national coverage of stories like the Don Imus controversy Hurricane Katrina Barack Obama s presidential candidacy and even the Virginia Tech shootings readers are given an opportunity to gain insight into both subtle and overt forms of racism in the newsroom and in national dialogue The book itself is divided into two sections with the first examining the journalistic routine and the decisions that go into covering a story with or without relation to race The second section comprised of case studies explores the coverage of national stories and how they have impacted the dialogue on race and racism in the United States As a whole the collection of essays and studies also reflects a variety of research approaches With a goal of contributing to the discussion about race and its place in American journalism this broad examination makes *Race and News* an ideal text for courses on cultural diversity and the media as well as making it valuable to professional journalists and

journalism students who seek to improve their approach to coverage of diverse communities *Networked News, Racial Divides* Sue Robinson, 2018 Tracks power privilege and processes of community trust building in digitized media ecologies focusing on public dialogues about racial inequality *Race, Media, and the Crisis of Civil Society* Ronald N. Lichter, 2007 Beginning with the 1988 presidential election and now updated through 2004 The Nightly News Nightmare shows how network news coverage of what is arguably the nation's most important political event has declined Through extensive analysis of news content from the Big Three and Fox acclaimed media scholars Farnsworth and Lichter compare what the candidates said with what the networks say they said and judge the disparity a nightmare The authors go on to suggest that perhaps the candidates themselves do a better job of portraying the campaigns than those who used to be the trusted network guardians of the news While making clear that overall coverage of the Bush Kerry race marked an improvement compared to previous elections Farnsworth and Lichter also point out that in other ways things were worse **Reporting on Race in a Digital Era** Carolyn Nielsen, 2020-02-19 This book explores U S news media's 21st century reckoning with race from the election of President Barack Obama through the birth and growth of the Black Lives Matter movement to the tense weeks after a white police officer killed an unarmed African American teenager in Ferguson Missouri While legacy newsrooms struggled to interpret complex events a diverse group of digital storytellers used emerging technologies Veteran journalist and media scholar Carolyn Nielsen examines how the first two decades of this century produced new models for journalists to explore the complexity of racism amplify the voices of lived experience and understand their audiences Using critical analysis of news coverage and interviews with reporters who cover racial issues the book shows how new models of journalism break with legacy journalism's conceptions of objectivity expertise and news judgment to provide deeper understanding of systems of power *Columbia Alumni News*, 1914
