America on Fire: The Untold History of Police Violence and Black Rebellion Since the 1960s Elizabeth Hinton, 2021-05-18 Not since Angela Davis's 2003 book *Are Prisons Obsolete* has a scholar so persuasively challenged our conventional understanding of the criminal legal system Ronald S. Sullivan Jr. Washington Post From one of our top historians a groundbreaking story of policing and riots that shatters our understanding of the post civil rights era What began in spring 2020 as local protests in response to the killing of George Floyd by Minneapolis police quickly exploded into a massive nationwide movement Millions of mostly young people defiantly flooded into the nation's streets demanding an end to police brutality and to the broader systemic repression of Black people and other people of color To many observers the protests appeared to be without precedent in their scale and persistence Yet as the acclaimed historian Elizabeth Hinton demonstrates in *America on Fire* the events of 2020 had clear precursors and any attempt to understand our current crisis requires a reckoning with the recent past Even in the aftermath of Donald Trump many Americans consider the decades since the civil rights movement in the mid 1960s as a story of progress toward greater inclusiveness and equality Hinton's sweeping narrative uncovers an altogether different history taking us on a troubling journey from Detroit in 1967 and Miami in 1980 to Los Angeles in 1992 and beyond to chart the persistence of structural racism and one of its primary consequences the so called urban riot Hinton offers a critical corrective the word riot was nothing less than a racist trope applied to events that can only be properly understood as rebellions explosions of collective resistance to an unequal and violent order As she suggests if rebellion and the conditions that precipitated it never disappeared the optimistic story of a post Jim Crow United States no longer holds Black rebellion *America on Fire* powerfully illustrates was born in response to poverty and exclusion but most immediately in reaction to police violence In 1968 President Lyndon Johnson launched the War on Crime sending militarized police forces into impoverished Black neighborhoods Facing increasing surveillance and brutality residents threw rocks and Molotov cocktails at officers plundered local businesses and vandalized exploitative institutions Hinton draws on exclusive sources to uncover a previously hidden geography of violence in smaller American cities from York Pennsylvania to Cairo Illinois to Stockton California The central lesson from these eruptions that police violence invariably leads to community violence continues to escape policymakers who respond by further criminalizing entire groups instead of addressing underlying socioeconomic causes The results are the hugely expanded policing and prison regimes that shape the

lives of so many Americans today Presenting a new framework for understanding our nation s enduring strife America on Fire is also a warning rebellions will surely continue unless police are no longer called on to manage the consequences of dismal conditions beyond their control and until an oppressive system is finally remade on the principles of justice and equality

Human Relations Commissions Valerie Martinez-Ebers,Brian Calfano,2020-09-08 During the 1950s amid increased attention to the problems facing cities such as racial disparities in housing education and economic conditions tense community police relations and underrepresentation of minority groups local governments developed an interest in human relations In the wake of the shocking 1965 Watts uprising a new authority was created the Los Angeles City Human Relations Commission Today such commissions exist all over the United States charged with addressing such tasks as fighting racial discrimination and improving fair housing access Brian Calfano and Valerie Martinez Ebers examine the history and current efforts of human relations commissions in promoting positive intergroup outcomes and enforcing antidiscrimination laws Drawing on a wide range of theories and methods from political science social psychology and public administration they assess policy approaches successes and failures in four cities The book sheds light on the advantages and disadvantages of different commission types and considers the stresses and expectations placed on commission staff in carrying out difficult agendas in highly charged political contexts Calfano and Martinez Ebers suggest that the path to full inclusion is fraught with complications but that human rights commissions provide guidance as to how disparate groups can be brought together to forge a common purpose The first book to examine these widely occurring yet understudied political bodies Human Relations Commissions is relevant to a range of urban policy issues of interest to both academics and practitioners

Bales,2022-09-22 Nelson Algren was a renowned Chicago writer known for his social commentary and his novels like The Man with the Golden Arm and A Walk on the Wild Side Although he continues to be remembered almost exclusively for his novels this book aims to highlight the value and influence of his short form works Before he died in 1981 Algren had amassed a genre defying body of work including short stories articles poems and book reviews The present book features a comprehensive analysis and discussion of Algren s lost

literature including everything but his novels One of the pieces covered is a masterpiece of race relations written in 1950 more than 60 years before the galvanization of the Black Lives Matter movement Another is a scathing poem about Algren s transatlantic love affair with Simone de Beauvoir Both items are reprinted in the book courtesy of the Algren estate This book also includes references to Algren s works that have yet to be studied by Algren scholars

The Defender Ethan Michaeli,2016-01-12 This extraordinary history of the influential black newspaper is deeply researched elegantly written and a towering achievement Brent Staples New York Times Book Review In 1905 Robert S Abbott started printing The Chicago Defender a newspaper dedicated to condemning Jim Crow and encouraging African Americans living in the South to join the Great Migration Smuggling hundreds of thousands of copies into the most isolated communities in the segregated South Abbott gave voice to the voiceless galvanized the electoral power of black America and became one of the first black millionaires in the process His successor wielded the newspaper s clout to elect mayors and presidents including Harry S Truman and John F Kennedy who would have lost in 1960 if not for The Defender s support Drawing on dozens of interviews and extensive archival research Ethan Michaeli constructs a revelatory narrative of journalism and race in America bringing to life the reporters who braved lynch mobs and policemen s clubs to do their jobs from the age of Teddy Roosevelt to the age of Barack Obama This epic meticulously detailed account not only reminds its readers that newspapers matter but so do black lives past and present USA Today

[The Consulting Room and Beyond](#) Therese Ragen,2010-04-15 The Consulting Room and Beyond is not a typical example of clinical writing in the field of psychoanalysis Therese Ragen pushing the boundaries of the genre thoughtfully explores in a very immediate way the intersubjective nature of psychoanalysis particularly looking at the role of the psychoanalyst s subjectivity both how it influences and is influenced by the psychoanalytic relationship The profound ways in which analyst and patient affect each other are captured as the author moves from a moment with a patient to one of her own memories to a dream to a professional consultation and back to the session with the patient Ragen s detailed descriptions of her subjective experiences and clinical skill help to weave the anecdotes into a compelling narrative worthy of the attention of theorists academics and clinicians alike

Winning the War for Democracy David Lucander,2014-09-15 Scholars regard the March on Washington Movement MOWM as a forerunner of the postwar Civil Rights movement Led by the charismatic A Philip Randolph MOWM scored an early victory when it forced the Roosevelt administration to issue a landmark executive order that prohibited defense contractors from practicing racial discrimination Winning the War for Democracy The March on Washington Movement 1941 1946 recalls that triumph but also looks beyond Randolph and the MOWM s national leadership to focus on the organization s evolution and actions at the local level Using the personal papers of previously unheralded MOWM members such as T D McNeal internal government documents from the Roosevelt administration and other primary sources David Lucander highlights how local affiliates fighting for a double victory against fascism and racism helped the national MOWM accrue the political capital it

needed to effect change Lucander details the efforts of grassroots organizers to implement MOWM's program of empowering African Americans via meetings and marches at defense plants and government buildings and in particular focuses on the contributions of women activists like Layle Lane E Pauline Myers and Anna Arnold Hedgeman Throughout he shows how local activities often diverged from policies laid out at MOWM's national office and how grassroots participants on both sides ignored the rivalry between Randolph and the leadership of the NAACP to align with one another on the ground

Nettles, 2024-04-16 Black Chicago culture is American culture During the Great Migration more than a half million Black Americans moved from the South to Chicago and with them they brought the blues amplifying what would be one of the city's greatest musical art forms In 1958 the iconic Johnson Publishing Company the voice of Black America launched the Ebony Fashion Fair show leading to the creation of the first makeup brand for Black skin For three decades starting in the 1970s households across the country were transported to a stage birthed in Chicago as they moved their hips in front of TV screens airing Soul Train Chicago is where Oprah Winfrey a Black woman who did not have the traditional look TV managers pushed

on talent premiered her talk show which went on to break every record possible and solidify her position as the Queen of Daytime TV It s where Hall of Famer Michael Jordan led the Bulls to six championships including two three peats making the NBA a must see attraction worldwide and wearing Jordans a style symbol to this day And it s home to Grammy winner Chance the Rapper whose work honors the city s cultural institutions from the White Sox to modern art superstar Hebru Brantley Pop culture expert Arionne Nettles takes us through the history of how Black Chicagoans have led pop culture in America for decades and gives insight into the ways culture spreads and influences our lives **The Fall of the House of Labor** David Montgomery,1987-08-28 This book studies the changing ways in which American industrial workers mobilised concerted action in their own interests between the abolition of slavery and the end of open immigration from Europe and Asia Sustained class conflict between 1916 and 1922 reshaped governmental and business policies but left labour largely unorganised and in retreat The House of Labor so arduously erected by working class activists during the preceeding generation did not collapse but ossified so that when labour activism was reinvigorated after 1933 the movement split in two These developments are analysed here in ways which stress the links between migration neighbourhood life racial subjugation business reform the state and the daily experience of work itself
