Race War The Theory:

Race War La-Temus Marshall, 2004-11-15 After decades and decades of trying to unify the country across color lines two politicians along with some of their racist corporate friends hatched a plot to bring a national vote to divide the United States into separate state hood countries so that every race of people can now have their own country to be among their own people When the day of division came things went smooth as expected Little did we know that not only were we being monitored by foes but after capturing two enemy soldiers while out on patrol during the race war a black recon team captain interagated the two and found out that the mission by the two powerful countries was to invade occupy and place into slavery all Americans into concentration camps to be used as labor As the plot was discovered the captain contacted each country s central command and after reveiling the plot to the leaders all races had no choice but to come back together as one America to defeat this formidable force and to prove once and for all that United We Stan Divided We Fall **Theory of gontierism**

Hal Draper, 1986-01-01 In this third volume of his definitive study of Karl Marx s political thought Hal Draper examines how Marx and Marxism have dealt with the issue of dictatorship in relation to the revolutionary use of force and repression particularly as this debate has centered on the use of the term dictatorship of the proletariat Writing with his usual wit and perception Draper strips away the layers of misinterpretation and misinformation that have accumulated over the years to show what Marx and Engels themselves really meant by the term Just War Theory and Non-State Actors Eric E.

Smith, 2020-03-20 This book uses an historical body of knowledge Just War Theory as the basis for analyzing modern conflicts involving Armed Non State Actors who employ force against states As the global community faces the challenges of globalization terrorism 24 hour international news coverage super power collapse weapons of mass destruction and failed states the author explores whether the historic bodies of knowledge governing decision makers during conflict remain relevant Tracing the evolution of Just War Theory he analyzes circumstances involving Armed Non State Actor ANSA groups possessing powerful and destructive capabilities and a desire to use them and pursues answers to the central research question how does Just War Theory apply in modern scenarios involving ANSA groups who challenge the state and international institution s monopoly on use of force The study finds that Just War Theory still has the capacity to accommodate modern day statecraft and application in scenarios involving Armed Non State Actors This book will be of great interest to those researching and studying in the fields of political theory security studies international relations war and conflict studies and public ethics **Chinese Asianism, 1894-1945** Craig A. Smith, 2022-03-07 Chinese Asianism examines

Chinese intellectual discussions of East Asian solidarity analyzing them in connection with Chinese nationalism and Sino Japanese relations Beginning with texts written after the first Sino Japanese War of 1894 and concluding with Wang Jingwei s failed government in World War II Craig Smith engages with a period in which the Chinese empire had crumbled and

intellectuals were struggling to adapt to imperialism new and hegemonic forms of government and radically different epistemes He considers a wide range of writings that show the depth of the pre war discourse on Asianism and the influence it had on the rise of nationalism in China Asianism was a call for Asian unity Smith finds but advocates of a united and connected Asia based on racial or civilizational commonalities also utilized the packaging of Asia for their own agendas to the extent that efforts towards international regionalism spurred the construction of Chinese nationalism Asianism shaped Chinese ideas of nation and region often by translating and interpreting Japanese perspectives and leaving behind a legacy in the concepts and terms that persist in the twenty first century As China plays a central role in regional East Asian development Asianism is once again of great importance today
