Entries include social, economic and political forces that have influenced racing, controversial historical and current issues, legal and illegal gambling and racing finance, the British impact on world horseracing history and heritage of horseracing, links between horse racing and the arts, media and technology, human and equine biographies, venues associated with racing, horseracing websites. The Encyclopedia of British Horse Racing provides a unique source of information and will be of great interest to sports historians as well as all those whose work or leisure brings them into the world of racing.

Encyclopedia of Post-Colonial Literatures in English Eugene Benson, L.W. Conolly, 2004-11-30 Post Colonial Literatures in English together with English Literature and American Literature form one of the three major groupings of literature in English and as such are widely studied around the world. Their significance derives from the richness and variety of experience which they reflect. In three volumes this Encyclopedia documents the history and development of this body of work and includes original research relating to the literatures of some 50 countries and territories. In more than 1 600 entries written by more than 600 internationally recognized scholars, it explores the effect of the colonial and post colonial experience on literatures in English worldwide.
