have afforded them more privileges within their home country collides with the American racial system *Racial Baggage* examines how immigration reconfigures U S race relations illuminating how the immigration experience can transform understandings of race in home and host countries Drawing on interviews with Mexicans in Los Angeles and Guadalajara sociologist Sylvia Zamora illustrates how racialization is a transnational process that not only changes immigrants themselves but also everyday understandings of race and racism within the United States and Mexico Within their communities and networks that span an international border Zamora argues immigrants come to define race in a way distinct from both the color conscious hierarchy of Mexican society and the Black White binary prevalent within the United States In the process their stories demonstrate how race is not static but rather an evolving social phenomenon forever altered by immigration
