Racialisation Of British Policing:

The Racialisation of British Policing Simon Holdaway, 1996-03-06 Drawing extensively on his own and others research Simon Holdaway argues that to understand manifestations of race within and outside the police we need to analyse processes of racialisation previously ignored by the untheoretical emphases of much of criminology Importantly he analyses how race is manifested within the organisational and cultural contexts of British policing Laced with quotations from research contemporary policy documents and other sources this is a graphic and compelling account of racialised relations within police work which will appeal to students on a very wide range of social science degrees from sociology to police studies

Policing Race and Place in Indian Country Barbara Perry, 2009-01-01 Policing Race and Place in Indian Country is the first book to explore Native Americans perspectives on the way law enforcement operates in Indian Country In particular it addresses the ways in which Native American communities especially those in and around reservations are both over and underpoliced in ways that perpetuate both the criminalization and victimization of Native Americans as nations and as individuals

Policing and the Condition of England Ian Loader, Aogán Mulcahy, 2003 Citizens it is said have lost faith in the English police Opinion polls repeatedly show that trust in and respect for the police have declined precipitously from the historically high levels achieved during the golden age of the 1950s Successive decades of rising crime political violence and urban disorder miscarriages of justice and declining effectiveness have left the police in what seems like a permanent crisis of legitimation A once revered national institution has become thoroughly profane In this major new work on the relationship between English policing and culture Ian Loader and Aogan Mulcahy reassess and revise this received sociological and popular wisdom on the fate that has befallen the English police Paying close attention to the symbolic and cultural significance of the police Loader and Mulcahy document the mix of profane and sacred sensibilities that struggle with one another to determine the contours of what they call English policing culture They draw on documentary analysis of official representations of policing and oral historical research with citizens police officers former government ministers and civil servants to show that far from being demystified policing is a cultural institution that remains deeply entangled with questions of subjectivity recognition belonging and collective identity This cultural sociology of English policing sheds new light on the social changes and conflicts that have called police authority into question in the decades since 1945 and offers an important appraisal of what is at stake in the contemporary cultural politics of policing

Police Culture in a Changing World Bethan Loftus, 2012-01-19 This fascinating new title offers an ethnographical investigation of contemporary police culture based on extensive field work across a range of ranks and units in the UK s police force By drawing on over 600 hours of direct observation of operational policing in urban and rural areas and interviews with over 60 officers the author assesses what impact three decades of social economic and political change have had on police culture She offers new understandings of the policing of ethnicity gender and sexuality and the ways in which reform initiatives are accommodated

and resisted within the police The author also explores the attempts of one force to effect cultural change both to improve the working conditions of staff and to deliver a more effective and equitable service to all groups in society Beginning with a review of the literature on police culture from 30 years ago the author goes on to outline the new social economic and political field of contemporary British policing Taking this as a starting point the remaining chapters present the main findings of the empirical research in what is a truly comprehensive analysis of present day policing culture *The New Policing* Eugene McLaughlin,2007 The New Policing provides a comprehensive introduction to the critical issues confronting policing today It incorporates an overview of traditional approaches to the study of the police with a discussion of current perspectives The book goes on to examine key themes including the core purpose of contemporary policework the reconfiguration of police culture organizational issues and dilemmas currently confronting the police the managerial reforms and professional innovations that have been implemented in recent years and the future of policing security and crime control In offering this discussion of the nature and role of the police The New Policing illustrates the need to re examine and re think the theoretical perspectives that have constituted policing studies Examining evidence from the UK the USA and other western societies the book promotes and enables an understanding of the cultural and symbolic significance of policing in society Race, Gender and the Body in British Immigration Control E. Smith,M. Marmo,2014-07-29 This book analyses the practice of virginity testing endured by South Asian women who wished to enter Britain between the late 1960s and the early 1980s and places this practice into a wider historical context Using recently opened government documents the extent to which these women were interrogated and scrutinized at the border is uncovered *Handbook of Policing* Tim Newburn,2012-08-21 This new edition of the Handbook of Policing updates and expands the highly successful first edition and now includes a completely new chapter on policing and forensics It provides a comprehensive but highly readable overview of policing in the UK and is an essential reference point combining the expertise of leading academic experts on policing and policing practitioners themselves *Questioning Crime and Criminology* Moira Peelo,Keith Soothill,2013-01-11 This is a text for criminology students designed to take them to the heart of the contradictions confusions and blurred boundaries around the subject of crime about what crime is about social regulation and control and about social responsibility It focuses on the key questions and issues underpinning them in contemporary definitions representations and explanations of crime It aims to question the platitudes and cliches surrounding public discussion of crime by acknowledging the individual social and political frameworks within which we explore crime and criminality *The Official History of Criminal Justice in England and Wales* Tim Newburn,2024-09-12 This is the fifth and final volume in the Official History of Criminal Justice in England and Wales This volume covers the uneven and often irresolute evolution of policing from the late 1940s to the end of the 1990s concentrating on the impact of a succession of scandals on the reputation and regulation of the police and the fluctuating relations between central government local authorities and police forces in shaping the control of

police funding policy and organisation particularly in response to a growth in the scale and intensity of social protest and above all on the shifting sands of the policing of public order illustrated in the prolonged miners strike and urban unrest of the 1980s It is a complement to earlier volumes in the series that focused on the liberalisation of the laws on capital punishment abortion and homosexual relations between adult men in the 1960s the founding of the Crown Court in 1971 and the Crown Prosecution Service in 1985 transformations in penal policy and the politics of law and order It will be of much interest to scholars of British political history criminology and sociology

McInerney, 2020-06-09 From the mid 1990s onwards Ireland experienced unprecedented growth levels in immigration from around the world prompted by the country's changing economic fortunes In turn the people of a very small and conservative country saw the rapid development of diverse minorities in their midst especially in the capital Dublin From a sociological point of view such communities posed challenges for the national police force An Garda Siochána As part of a strategy to engage with rapidly changing demographics An Garda Siochána launched the Garda Racial and Intercultural Office GRIO In 2001 the author of this book was invited to establish a framework and practical measures to negotiate the non discriminatory policing of Ireland's changing society The author proposed the appointment of Garda Ethnic Liaison Officers ELOs to liaise and reassure members of these new minorities while developing the officers own deeper understanding of difference and vulnerability These appointed ELOs were trained in cultural awareness and difference by the author in conjunction with minority representatives which in turn influenced their thinking in the delivery of a non discriminatory front line police service The role of the ELO makes the Irish police authorities one of the first in the world with specialist officers dedicated to building relations with minorities This book has many lessons to offer sociologists academics criminologists lawyers social policymakers and police institutions dealing with the plight of refugees asylum seekers economic migrants and marginalised people the world over

Policing, Ethics and Human Rights Peter Neyroud, Alan Beckley, 2001-01-01 Ethical and human rights issues have assumed an increasingly high profile in the wake of miscarriages of justice racism Lawrence Inquiry incompetence and corruption in both Britain and overseas At the same time the implementation of the Human Rights Act 1998 in England and Wales will have a major impact on policing challenging many of the assumptions about how policing is carried out This book aims to provide an accessible introduction to the key issues surrounding ethics in policing linking this to recent developments and new human rights legislation It sets out a powerful case for a modern ethical policing approach Policing Ethics and Human Rights argues that securing and protecting human rights should be a major if not the major rationale for public policing

Why Slavery Endures David W. Bulla, 2020-11-09 This book examines slavery an antiquated ugly inhumane practice seemingly abolished in the nineteenth century yet never eradicated The legacies of historical slavery have become increasingly subject to public debate manifested in calls for reparations the UNESCO Slave Route Project and in the dismantling of Confederate

monuments in the United States NGOs have researched and publicized the extent of contemporary slavery which some of the essays in this collection discuss This area of inquiry intersects with wider debates about the legacies of colonialism and structural racism which could be seen in the Rhodes Must Fall campaigns in South Africa and Oxford NGOs estimate that there are between 21 and 46 million slaves worldwide today The essays gathered here critically examine the historical roots of slavery the issue of reparations and deconstruct contemporary human trafficking

Policing, Race and Racism Mike Rowe, 2012-12-06 Over recent years race has become one of the most important issues faced by the police This book seeks to analyse the context and background to these changes to assess the impact of the Lawrence Inquiry and the MacPherson Report and to trace the growing emphasis on policing as an antiracist activity proactively confronting racism in both crime and non crime situations Whilst this change has not been wholly or consistently applied it does represent an important change in the discourse that surrounds police relations with the public since it changes the traditional role of the police as neutral arbiters of the law This book shows why race has become the most significant issue facing the British police and argues that the police response to race has led to a consideration of fundamental issues about the relation of the police to society as a whole and not just minority groups who might be most directly affected

Critical Perspectives on Effective Policing and Police Brutality Cyndy Aleo, 2017-12-15 One of the most hotly debated subjects in current events is the use of force by police personnel In recent years protests have taken place over most of the United States after several high profile cases in which excessive force during arrests was claimed This volume examines opinions surrounding police action in the United States and abroad such as arguments in favor of or against controversial policies such as stop and frisk Through this wide spectrum of experiences students are encouraged to reach their own conclusions using the information they have read and synthesized

The Policing Web Jean-Paul Brodeur, 2010-09-30 Nearly all research devoted to policing focuses on public uniformed police and their legal use of force An overwhelming amount of this work draws on evidence from Anglo American police forces These twin emphases have led to a limited view Agencies such as criminal investigation units intelligence services private security companies and military policing organizations have almost entirely escaped scholarly attention In *The Policing Web* Jean Paul Brodeur looks at policing as a whole He illuminates its full diversity showing how it extends far beyond the confines of public police working in uniform and visible to all Brodeur considers military policing both when it complements the values of democracy and when it does not He also discusses criminal individuals acting as police informants and criminal organizations enforcing their own

rules in urban zones deserted by the police Brodeur argues that the diverse strands of the policing web are united by a common definition that emphasizes the license granted to policing agencies legally or with impunity to use means otherwise forbidden to the rest of the population Employing an international and comparative approach Brodeur establishes a comprehensive model that links all the components of policing The policing web however is not a neat and well integrated structure There is not just one policing web There are several depending on the country police history and culture and the various public images of policing These often overlooked factors are essential components of the context of policing Wide ranging and authoritative The Policing Web expands the very idea of what policing is and how it works and presents a novel yet fundamental understanding of law enforcement Researching the Police in the 21st Century J.
