Racial Neoliberalism, Social Forgetting, and Scientific Colonialism in Dutch Primary School History Textbooks¹

Abstract

Textbooks are explicitly racial texts that offer important insights into national memories of slavery and colonialism. The Dutch have long engaged in the social forgetting of slavery even as race served as an organizing principal during centuries of colonial domination of the Dutch West Indies and Suriname. While the Dutch have recently begun to address their history of enslavement, they have yet to sufficiently address how the discursive legacies of slavery continue to impact the lives of Afro-Dutch descendants of enslaved² Africans and White Dutch in The Netherlands today. This paper uses qualitative content and discourse analytic methods to examine the depiction of slavery, The Netherlands' role in the slave trade and enslavement, and the commemoration of slavery in all Dutch primary school history textbooks published since 1980 to address questions of whether textbooks feature scientific colonialism to perpetuate The Netherlands' social forgetting of slavery in a nation that denies the existence of race even as racialized socioeconomic inequalities persist. A Eurocentric master narrative of racial Europeanization perpetuates Dutch social forgetting of slavery and scientific colonialism to both essentialize Afro-Dutch and position their nation squarely within Europe's history of enslavement even while attempting to minimize their role within it. Findings have important implications for both The Netherlands and all nations with histories of enslavement as the discourses and histories presented in textbooks impact generations of students, who shape local and national policy regarding racial minorities, racial identities, and ideologies.

INTRODUCTION

Textbooks, often a critical element of primary and secondary curriculum, play an important role in shaping how students view their nation's history and conceptions of racial groups, racial and power hierarchies (Apple and Christian-Smith, 1991; Giroux 1997; Giroux and McLaren, 1989). U.S. scholars consistently find that curriculum privileges the dominant culture by excluding minority groups and their oppression by the dominant group thereby obscuring historical roots of contemporary inequality and signaling to students which groups belong to the national community (Brown and Brown, 2010; Pinar 1993; Zimmerman 2002). Racing Back to Slavery Henri Turner, 2003 **The Slave Race** John Hall, 2021-03-17 Joe Peters returns to Ulon A planet controlled by an empire that engineered him But despise him as they only accept blind obedience He must decide his next move as mankind is depending on his might The new Slave Race is being created while the old is dying out But Joe is yet to understand the storm ravaged world he now returns to The Legardean s have in their grasp what they ve been searching for They now only need to reach out and take the millions they need to build the new force A slave race that will secure their future for millennia to come But they now realise they have created their own possible downfall so will stop at nothing to eliminate the threat Only with help from Connor Wilson his willing companion and those around him can he hope to resist the might of the Legardean Empire *Race, Class, and Political Symbols* Anita M. Waters, 2017-09-08 Dr Waters is one of a new breed of analysts for whom the interpenetration of politics culture and national development is key to a larger integration of social research *Race Class and Political Symbols* is a remarkably cogent examination of the uses of Rastafarian symbols and reggae music in Jamaican electoral campaigns The author describes and analyzes the way Jamaican politicians effectively employ improbable strategies for electoral success She includes interviews with reggae musicians Rastafarian leaders government and party officials and campaign managers Jamaican democracy and politics are fused to its culture hence campaign advertisements reggae songs party pamphlets and other documents are part of the larger picture of Caribbean life and letters This volume centers and comes to rest on the adoption of Rastafarian symbols in the context of Jamaica s democratic institutions which are characterized by vigorous campaigning electoral fraud and gang violence In recent national elections such violence claimed the lives of hundreds of people Significant issues are dealt with in this cultural setting race differentials among Whites Browns and Blacks the rise of anti Cubanism the Rastafarians response to the use of their symbols and the current status of Rastafarian ideological legitimacy Charles W. Chesnutt and the Fictions of Race Dean McWilliams, 2010-07-01 Charles Chesnutt 1858 1932 was the first African American writer of fiction to win the attention and approval of America s literary establishment Looking anew at Chesnutt s public and private writings his fiction and nonfiction and his well known and recently rediscovered works Dean McWilliams explores Chesnutt s distinctive contribution to American culture how his stories and novels challenge our dominant cultural narratives particularly their underlying assumptions about race The published canon of Chesnutt s work has doubled in the last decade three novels completed but unpublished in Chesnutt s life have appeared as have scholarly editions of Chesnutt s journals his letters and his essays This book is the first to offer chapter length analyses of each of Chesnutt s six novels It also devotes three chapters to his short fiction Previous critics have read Chesnutt s nonfiction as biographical background for his fiction McWilliams is the first to analyze these nonfiction texts as complex verbal artifacts embodying many of the same tensions and ambiguities found in Chesnutt s stories and novels The book includes separate chapters on Chesnutt s journal and on his important essay

The Future American Moreover Charles W Chesnutt and the Fictions of Race approaches Chesnutt s writings from the perspective of recent literary theory To a greater extent than any previous study of Chesnutt it explores the way his texts interrogate and deconstruct the language and the intellectual constructs we use to organize reality The full effect of this new study is to show us how much more of a twentieth century writer Chesnutt is than has been previously acknowledged This accomplishment can only hasten his reemergence as one of our most important observers of race in American culture

Youngquist,2016-05-23 In highlighting the crucial contributions of diasporic people to British cultural production this important collection defamiliarizes prevailing descriptions of Romanticism as the expression of a national character or culture The contributors approach the period from the perspective of the Atlantic maritime economy making a strong case for viewing British Romanticism as the effect of myriad economic and cultural exchanges occurring throughout a circum

Atlantic world driven by an insatiable hunger for sugar and slaves Typically taken for granted the material contributions of slaves sailors and servants shaped Romanticism both in spite of and because of the severe conditions they experienced throughout the Atlantic world The essays range from Sierra Leone to Jamaica to Nova Scotia to the metropole examining not only the desperate circumstances of diasporic peoples but also the extraordinary force of their creativity and resistance Of particular importance is the emergence of race as a category of identity class and containment Race Romanticism and the Atlantic explores that process both economically and theoretically showing how race ensures the persistence of servitude after abolition At the same time the collection never loses sight of the extraordinary contributions diasporic peoples made to British culture during the Romantic era Designs of our Slave Race Shannon Smith,2015-03-27 In the future robots will be made to serve us To better serve humanity they were made smarter perhaps too smart Follow the development of the HX01 robots through the eyes of one of the developers of it Shannon whom while not a model of human behaviour finds herself wrestling with the moral implications of her creation Race And Culture Thomas Sowell,2025-04-01 Encompassing more than a decade of research around the globe this book shows that cultural capital has far more impact than politics prejudice or genetics on the social and economic fates of minorities nations and civilization **Apocalyptic Rhetoric and the Black Protest Movement** Aaron Pride,2023-12-06 Apocalyptic Rhetoric and the Black Protest Movement offers a challenging new formulation of African American religious culture by asserting that African American Christianity produced a militant millennialist movement that invoked the apocalypse the kingdom of God and the end of the world to compel Black people to oppose racial injustice in the early twentieth century In this account of the Black civil rights movement in Boston in the early twentieth century Aaron Pride argues that the apocalyptic rhetoric and millennial imagery disseminated from the Boston Guardian by William Monroe Trotter cast Booker T Washington and other opponents of Black protest as false prophets biblical villains and harbingers of the end times By placing Black Christianity at the center of Black civil rights activism in the early twentieth century this book provides a seminal interpretation of the emancipatory capacity of religion as cultural and intellectual force in social and political movements This book will be of interest to scholars of cultural history Black studies and the history of religion Relational Formations of Race Natalia Molina,Daniel Martinez HoSang,Ramón A. Gutiérrez,2019-02-05 Relational Formations of Race brings African American Chicanx Latinx Asian American and Native American studies together in a single volume enabling readers to consider the racialization and formation of subordinated groups in relation to one another These essays conceptualize racialization as a dynamic and interactive process group based racial constructions are formed not only in relation to whiteness but also in relation to other devalued and marginalized groups The chapters offer explicit guides to understanding race as relational across all disciplines time periods regions and social groups By studying race relationally and through a shared context of meaning and power students will draw connections among subordinated groups and will better comprehend the logic that underpins the forms of inclusion and
