Hogan, 2019-10-02 As Wesley C Hogan sees it the future of democracy belongs to young people While today's generation of leaders confronts a daunting array of existential challenges increasingly it is young people in the United States and around the world who are finding new ways of belonging collaboration and survival That reality forms the backbone of this book as Hogan documents and assesses young people's interventions in the American fight for democracy

and its ideals Beginning with reflections on the inspiring example of Ella Baker and the Student Nonviolent Coordinating Committee in the 1960s Hogan profiles youth led organizations and their recent work Examples include Southerners on New Ground SONG in the NAFTA era Oakland s Ella Baker Center and its fight against the school to prison pipeline the Dreamers who are fighting for immigration reform the Movement for Black Lives that is demanding a reinvestment in youth of color and an end to police violence against people of color and the International Indigenous Youth Council water protectors at Standing Rock who fought to stop the Dakota Access Pipeline and protect sovereign control of Indigenous lands As Hogan reveals the legacy of Ella Baker and the civil rights movement has often been carried forward by young people at the margins of power and wealth in U S society This book foregrounds their voices and gathers their inventions not in a comprehensive survey but as an activist mix tape with lively fresh perspectives on the promise of twenty first century U S democracy

**Orientations** Kandice Chuh, Karen Shimakawa, 2001-09-03 A critical examination of what constitutes the varied positions grouped together as Asian American seen in relation to both American and transnational forces Asian/American David Palumbo-Liu, 1999 This book argues that the invention of Asian American identities serves as an index to the historical formation of modern America By tracing constructions of Asian American to an interpenetrating dynamic between Asia and America the author obtains a deeper understanding of key issues in American culture history and society The formation of America in the twentieth century has had everything to do with westward expansion across the Pacific frontier and the movement of Asians onto American soil After the passage of the last piece of anti Asian legislation in the 1930 s the United States found it had to grapple with both the presence of Asians already in America and the imperative to develop its neocolonial interests in East Asia The author argues that under these double imperatives a great wall between Asian and American is constructed precisely when the two threatened to merge Yet the very incompleteness of American identity has allowed specific and contingent fusion of Asian and American at particular historical junctures From the importation of Asian labor in the mid nineteenth century the territorialization of Hawaii and the Philippines in the late nineteenth century through wars with Japan Korea and Vietnam and the Cold War with China to today s Asian Pacific Economic Cooperation group the United States in the modern age has seen its national identity as strongly attached to the Pacific As this has taken place so has the formation of a variety of Asian American identities Each contains a specific notion of America and reveals a particular conception of Asian and American Complicating the usual notion of identity politics and drawing on a wide range of writings sociological historical cultural medical anthropological geographic economic journalistic and political the author studies both how the formation of these identifications discloses the response of America to the presence of Asians and how Asian Americans themselves have inhabited these roles and resisted such categorizations inventing their own particular subjectivities as Americans *Spirit and Resistance* George E. Tinker, 2004-09-15 Writing from a Native American perspective theologian Tinker probes American Indian culture its vast religious and cultural legacy and its ambiguous

relationship to the tradition historic Christianity that colonized and converted it He offers novel proposals about cultural survival and identity sustainability and the endangered health of Native Americans
