Rational Choice Theory Margaret S. Archer, Jonathan Q. Tritter, 2013-04-03 Rational Choice Theory is flourishing in sociology and is increasingly influential in other disciplines Contributors to this volume are convinced that it provides an inadequate conceptualization of all aspects of decision making of the individuals who make the decisions of the process by which decisions get made and of the context within which decisions get made The critique focuses on the four assumptions which are the bedrock of rational choice rationality the theory's definition of rationality is incomplete and cannot satisfactorily incorporate norms and emotions individualism rational choice is based upon atomistic individual decision makers and cannot account for decisions made by couples groups or other forms of collective action process the assumption of fixed well ordered preferences and perfect information makes the theory inadequate for situations of change and uncertainty aggregation as methodological individualists rational choice theorists can only view structure and culture as aggregates and cannot incorporate structural or cultural influences as emergent properties which have an effect upon decision making The critique is grounded in discussion of a wide range of social issues including race marriage health and education

Schizophrenia Bulletin, 1990 **Integration in Multicultural England** Jörg Friedrichs, 2025-07-24 Positive relations between Muslims and non Muslims are important for the future in Britain and beyond By studying community relations this book takes an innovative approach that moves beyond mapping British Muslims or British Islam Instead Jörg Friedrichs discusses the actual ways Muslims and non Muslims relate or fail to relate where it matters most namely in diverse inner cities Is Britain a multicultural country is it moving towards greater integration or is this a false dichotomy Given their unique everyday experience inner city residents prove to be experts when it comes to community relations To give them a voice and learn from their experience the book takes us on a tour of diverse English inner cities Reassuringly the grassroots perspective of residents is consistent with a vision of integration in multicultural England Residents are concerned not so much about hot button issues like extremism or terrorism Instead their minds are set on practical matters how to coexist peacefully in stressful urban environments and how to find love and raise families when norms diverge Caught between grievance and aspiration inner city residents from any background express disappointment at Muslim and non Muslim parents sending their children to different schools They also discuss whether governance should be community blind or community based and if Britain is ready for a Muslim Prime Minister In all of this Muslim and non Muslim residents acknowledge that we live in a multicultural society For most however it does not follow that we should

adopt multiculturalism as an ideology Instead most people crave and support a move towards greater integration
