Shipping And Trade In The Java Sea Region 1870-1940 A Collection Of Statist:

Shipping and Trade in the Java Sea Region, 1870-1940 L.J. Touwen, 2021-10-01 Extremes in the Archipelago L.J. Touwen, 2021-08-04 In the late colonial period 1870-1942 the Outer Islands of Indonesia formed a dynamic area. The economic development of these islands outside Java is analysed in this book by focusing on the enormous increase in trade after 1900. The Outer Islands are described individually and as a group, paying special attention to regional differences. The core of the study is to examine the effects of trade, foreign and domestic, on economic development. Although the economic policy of the colonial government played a role in the gradual formation of a national economy, it did little to advance the relatively backward regions of the Outer Islands. As one of the largest and most tumultuous economies in Southeast Asia, Indonesia nowadays attracts a lot of international attention. This book will serve the study of the diverse and dynamic economic history of late colonial Indonesia, which profoundly influenced post-war events and the formation of a national state.

Historical Dictionary of Indonesia Audrey Kahin, 2015-10-29 A wide flung archipelago lying between the Pacific and Indian Oceans, Indonesia is the world's most populous Islamic country. For over two thousand years it was a crossroads on the major trading route between China and India, but it was not brought together into a single entity until the Dutch extended their rule throughout the Netherlands East Indies in the early part of the 20th century. Declaring its independence from the Dutch in 1945, the Republic of Indonesia was ruled by only two regimes over the next half century. Throughout the years, the country has continued to be dogged by an inefficient bureaucracy and by perpetual problems of corruption. However, since 2004, Indonesia has successfully carried out four direct elections for president, together with an equal number of elections for legislative bodies at all levels of government, and has finally in 2014 elected a president with no ties to either the military or to the previous authoritarian power structure. This third edition of *Historical Dictionary of Indonesia* contains a chronology, an introductory essay, appendixes, and an extensive bibliography. The dictionary section has over 900 cross-referenced entries on important personalities, politics, economy, foreign relations, religion, and culture. This book is an excellent access point for students, researchers, and anyone wanting to know more about Indonesia.

Historical Dictionary of Indonesia R. B. Cribb, Audrey Kahin, 2004 Indonesia is Asia's third largest country in both population and area, a sprawling tropical archipelago of some 180 million people from hundreds of ethnic groups with a complex and turbulent history. One of Asia's newly industrializing countries, it is already a major economic powerhouse. In over 800 clear and succinct entries, the dictionary covers people, places, and organizations as well as economics, culture, and political thought from Indonesia's ancient history up until the recent past. Includes a comprehensive bibliography, maps, chronology, list of abbreviations, and appendix of election results and major office holders. This second edition has been thoroughly updated and expanded to cover the events that have occurred in Indonesia's history in the past fifteen years.

Cross-border Mobility Wendy Mee, 2025-10-01 *Cross-border Mobility: Women, Work, and Malay Identity in Indonesia* offers a fresh perspective on the association between mobility

and the ethnocultural category Malay In so doing it raises new research questions that are relevant to the study of Indonesian women s socioeconomic mobility more generally Based on fieldwork in Sambas a region of Indonesia bordering Malaysia this study documents the ethnocultural consequences of the highly mobile working lives of Sambas Malay women Emphasising the significance of territorial borders in women s working lives this study highlights how women s border location not only facilitates cross border pathways of international labour migration and trade but also generates feelings of peripherality that inform women s imaginative construction of other nonterritorial borders that need to be crossed Shaped by social class gender and the economic and cultural possibilities of political decentralization the study identifies three borderscapes that orient women s work related mobility and create diverse outcomes for the ethnocultural category Sambas Malay This book offers a fresh perspective on the association between mobility and the ethnocultural category Malay This study documents the broader cultural consequences of Indonesian Malay women s work related mobility on the practice and understanding of what it means to be Malay In so doing the book Provides a rare investigation into the ethnocultural effects of Indonesian women s mobility i e in term of the way women s mobility reconfigures ethnic identifications Critically addresses the historically informed assumption that Malay men through their mobility are the carriers of Malayness Islamic reform and modernity Deepens our appreciation of the significance of gendered forms of mobility across territorial and non territorial borders to the construction of identity Provides a borderlands perspective on women s independent labour migration in a part of West Kalimantan where studies of women s labour migration remain scarce

Shipping and Trade in the Java Sea Region, 1870-1940 Jeroen Touwen, 2001 The Java Sea Region was the scene of increasing flows of shipping and trade during the late colonial period It was an arena of intense competition between Indonesian Chinese and European shipping in both foreign and interregional trade This dynamic process can now be studied in detail for the first time on the level of individual ports Anthropologica ,2001 For Profit and Prosperity Wim Ravesteijn, Jan Kop, 2008 Roads railway lines and bridges harbours and cities irrigation and drinking water supplies evidence of the presence of Dutch engineers in the former Dutch East Indies may be found everywhere in Indonesia For Profit and Prosperity places this legacy from the colonial past in its true perspective This publication provides a detailed description of some of the most important civil public works projects of the Dutch East Indian era while simultaneously outlining the contribution made by the Netherlands to the restoration modernisation and development of such works in the Republic of Indonesia The public works once constructed by Dutch engineers have greatly influenced the way in which Indonesia has become what it is today For Profit and Prosperity reveals just how all of that happened and it does not merely confine itself to the technological aspect The relevant social economic and cultural developments are also subjected to careful scrutiny This book therefore describes in a unique way just how technology and society can influence each other For Profit and Prosperity does not so much set out to provide a comprehensive catalogue style overview of all the public works structures created in the archipelago but rather

to provide an insight into the way in which civil engineering evolved in the former colony At the same time an impression is inevitably given of the effect which all of that had upon Dutch civil engineering in general **Bouwen in de Archipel** Wim Ravesteijn, Jan Kop, 2004 **NEHA bulletin** ,2002 **Perdagangan pelabuhan di Borneo** Hanizah Hj.
