Describes the key features of many amazing underwater ships *Ships and Submarines* Steve Parker,2010 [USN Submarine vs IJN Antisubmarine Escort](#) Mark Stille,2022-01-20 This fully illustrated study examines and compares the roles of the US Navy submarines and the Imperial Japanese Navy s anti submarine warfare capabilities during World War II In 1941 and 1942 US Navy submarine operations in the Pacific were largely ineffective hampered by faulty torpedo design conservative tactics and insufficiently aggressive submarine captains Eventually though a new generation of wartime submarine commanders combined with reliable torpedoes new generation boats improved intelligence and advanced radar inflicted devastating losses on Japanese shipping Antisubmarine warfare was initially accorded a low priority by the Imperial Japanese Navy the lack of ASW escorts and modern weaponry and an inability to develop tactics resulted in devastation to vital convoys and hampered its ability to deter and destroy enemy submarines This book explores all these factors and the role that US submarines played in supporting the major fleet operations in the Pacific Theater notching up almost 500 patrols by war s end for the loss of 52 submarines to the Japanese The technical and tactical developments implemented by the opposing sides are documented in detail including US improvements to submarine design and weaponry and more aggressive

tactics and the Japanese development of destroyer escorts changes to depth charge design and improved submarine detection capacity My First Book of Questions and Answers Ships and Submarines James Pickering,2002

Confederate Submarines and Torpedo Vessels 1861-65 Angus Konstam,2004-08-20 The primary Union strategy during the American Civil War was a massive naval blockade of the entire Southern coastline of the Confederacy and it was in the effort to counter this blockade that the Confederates developed their first submarines and torpedo boats This book traces the development of these new technologies including the CSS Little David and Hunley respectively the first torpedo boat and submarine to sink an enemy warship The wreck of the Hunley was raised in 2000 and this is the first book ever to integrate details of its recovery with an account of Confederate submarines in action **USN Fleet Destroyer vs IJN Fleet Submarine** Mark Stille,2018-11-29 Leading up to the Pacific War Japanese naval strategists believed that a decisive fleet engagement would be fought against the United States Navy Outnumbered by the USN the Imperial Japanese Navy planned to use its large ocean going submarines to chip away at its opponent before the grand battle In order to accomplish this the IJN s submarine force was tasked to perform extended reconnaissance of the USN s battle fleet even in port and then shadow and attack it For their part the USN was fully aware of the potential threat posed by Japanese submarines and destroyer crews were trained and equipped with modern anti submarine weapons and tactics to screen the battle fleet Challenging the assumption that Japanese submarines were ineffective during the Pacific War this fully illustrated study examines their encounters with the US Navy and the successes and failures of American destroyers in protecting their capital ships

Ships and Submarines Steve Parker,2009 Discover the inner workings of 15 different machines in each fascinating title from simple inventions to the latest cutting edge designs **Hearings Before Committee on Naval Affairs of the House of Representatives, on Estimates Submitted by the Secretary of the Navy, 1915** United States.
