Living Languages: An Integrated Approach to Teaching Foreign Languages in Primary Schools Catherine Watts, Clare

Forder, Hilary Phillips, 2012-10-03 *Living Languages* is simply bursting with practical and original ideas aimed at teachers and trainee teachers of foreign languages in primary schools. Written by a team of experienced linguists, this book will inspire and motivate the foreign language classroom and the teachers who work within it. *Living Languages* comprises eight chapters and is structured around the integrated classroom, merging language learning with different aspects of the wider curriculum such as multimedia, performance, celebrations and festivals, creativity and alternative approaches to teaching languages.

Downloadable resources are also included with the book, containing additional teaching materials and the associated films and audio recordings which make this a fully developed and effective teaching resource. Over 50 real-life case studies and projects are presented, all of which have been tried and tested in the classroom, with several having won recent educational awards. Ideas and activities outlined in this unique resource include Languages across the curriculum, helping to cement cross-curricular links and embed new languages in different contexts; linking subjects such as history, science, PE and mathematics with French, German and Spanish; Arts and crafts projects in Languages; making and doing, including making books, creating beach huts and cooking biscuits; Languages celebrations and festivals, projects including the German Christmas market, Spanish Day of the Dead, celebrating Mardi Gras and the European Day of Languages among many others. Continuing Professional Development to inspire primary teachers to continue their individual professional development. The chapter contains concrete examples of others' experiences in this area and includes details of support organisations and practical opportunities. Each project is explored from the teachers' perspective, with practical tips, lesson plans and reflections woven throughout the text, such as what to budget, how to organise the pre-event period, how to evaluate the activity and whom to contact for further advice in each case. Activities and examples throughout are given in three languages: French, German and Spanish.

Teaching Mathematics in Grades 6 - 12 Randall E. Groth, 2012-08-10 *Teaching Mathematics in Grades 6-12* by Randall E. Groth explores how research in mathematics education can inform teaching practice in grades 6-12. The author shows preservice mathematics teachers the value of being a researcher, constantly experimenting with methods for developing students' mathematical thinking and connecting this research to practices that enhance students' understanding of the material. Ultimately, preservice teachers will gain a deeper understanding of the types of mathematical knowledge students bring to school and how students' thinking may develop in response to different teaching strategies.
