New Criminology Revisited:

The New Criminology Revisited P. Walton, J. Young, 2016-07-27 In 1973 *The New Criminology* was published and quickly established itself as a key textbook in criminology casting a major influence over a generation of scholars. It has remained in print ever since. This volume published twenty five years later traces the major developments in the field including feminism, postmodernism, critical criminology and realism. The articles are by leading authorities from Britain, the United States and Australia and include Stan Cohen, Elliott Currie, Pat Carlen and Kerry Carrington as well as separate commentaries by the three original authors themselves: Ian Taylor, Paul Walton and Jock Young. **The New Criminology Revisited** Paul Walton, Jock Young, 1998

Criminological Theory J. Robert Lilly, Francis T. Cullen, Richard A. Ball, 2007 The Fourth Edition of this highly acclaimed book expands on previous editions with coverage of newly emerged theories and empirical updates supported by a significant amount of new references. *Criminological Theory* provides coverage of the latest theories in the field without diminishing the presentation of classic analysis. Major theoretical perspectives that have developed from both recent critical work and traditional schools together with practical applications compel the reader to apply theories to the contemporary social milieu. Recent Developments in Criminological Theory Stuart Henry, 2017-07-05 This volume contains recent and cutting edge articles from leading criminological theorists. The book is organized into ten sections each representing the latest in the multi disciplinary orientations representing a cross section of contemporary criminological theory. These sections include 1 Classical and Rational Choice 2 Biological and Biosocial 3 Psychological 4 Social Learning and Neutralization 5 Social Control 6 Social Ecology Sub cultural and Cultural 7 Anomie and Strain 8 Conflict and Radical 9 Feminist and Gender 10 Critical Criminologies Anarchist Postmodernist Peacemaking. The articles were selected based on their contributions to advancing the field including ways in which the authors of each chapter understand the current theoretical tendencies of their respective approaches and how they envision the future of their theories. Because of this the articles focus on theory rather than empirical research. Of particular note is the tendency toward integration of different perspectives as described by editors Henry and Lukas in their original introduction to this volume. Sociology Robert Van Krieken, Daphne Habibis, Philip Smith, Brett Hutchins, Greg Martin, Karl Maton, 2013-09-12 Building upon the success of previous editions this fully revised edition of *Sociology* lays the foundations for understanding sociology in Australia. The depth and breadth of the book ensures its value not only for first year students but for sociology majors requiring on going reference to a range of theoretical perspectives and current debates. This fifth Australian edition continues to build on the book's reputation for coverage clarity and content drawing upon the work of leading Australian sociologists as well as engaging with global social trends and sociological developments. *Changing Contours of Criminal Justice* Mary Bosworth, Carolyn Hoyle, Lucia Zedner, 2016-11-03 Celebrating the 50th Anniversary of the Oxford Centre for Criminology this edited collection of essays seeks to explore the changing contours of criminal justice over the past half century and to

consider possible shifts over the next few decades The question of how social science disciplines develop and change does not invite any easy answer with the task made all the more difficult given the highly politicised nature of some subjects and the volatile evolving status of its institutions and practices A case in point is criminal justice at once fairly parochial much criminal justice scholarship is now global in its reach and subject areas that are now accepted as central to its study victims restorative justice security privatization terrorism citizenship and migration to name just a few were topics unknown to the discipline half a century ago Indeed most criminologists would have once stoutly denied that they had anything to do with it Likewise some central topics of past criminological attention like probation have largely receded from academic attention and some central criminal justice institutions like Borstal and corporal punishment have at least in Europe been abolished Although the rapidity and radical nature of this change make it quite impossible to predict what criminal justice will look like in fifty years time reflection on such developments may assist in understanding how it arrived at its current form and hint at what the future holds The contributors to this volume have been invited to reflect on the impact Oxford criminology has had on the discipline providing a unique and critical discussion about the current state of criminal justice around the world and the origins and future implications of contemporary practice All are leading internationally renowned criminologists whose work has defined and often re defined our understanding of criminal justice policy and literature

Sociology After Postmodernism David Owen, 1997-03-25 Postmodernism is frequently described as dealing a death blow to sociology This book however argues that it is a mistake to conceive postmodernism in terms of a fatal attack upon what sociologists do The contributors locate the identity of sociology after postmodernism as a contested site which opens up the possibility of re imagining the enterprise of sociology They show how this re imagination might be conducted and trace some of the key potential consequences

research and to bring to life the key theoretical debates within the discipline This book will be essential reading for students seeking an understanding of the nature of the discipline of criminology and criminological research *Football and Accelerated Culture* Steve Redhead,2015-06-26 In *Football and Accelerated Culture* Steve Redhead offers a new and challenging theorisation of global football culture exploring the relationship between sport and culture in a rapidly shifting world Incorporating cutting edge concepts from accelerated culture and claustropolitanism to non postmodernity he reflects on the demise of working class football cultures and the rapid media globalisation of the people s game Drawing on international empirical research and a unique and ground breaking study of football hooligan memoirs the book delves into a wide array of disciplines examining fascinating topics such as the relationship between music and football hooligans and ultras the rise of social media and anti modern football movements and ultra realist criminology *Football and Accelerated Culture* offers a new way of thinking about sporting cultures that expands the boundaries of physical cultural studies As such it is important reading for anybody with an interest in the culture of sport and leisure social theory communication studies criminology or socio legal studies

Anomie, Strain and Subcultural Theories of Crime Joanne M. Kaufman,2017-05-15 Anomie strain and subcultural theories are among the leading theories of crime Anomie theories state that crime results from the failure of society to regulate adequately the behavior of individuals particularly the efforts of individuals to achieve monetary success Strain theories focus on the impact of strains or stressors on crime including the inability to achieve monetary success through legal channels And subcultural theories argue that some individuals turn to crime because they belong to groups that excuse justify or approve of crime This volume presents the leading selections on each theory including the original statements of the theories key efforts to revise the theories and the latest statements of each theory The coeditors Robert Agnew and Joanne Kaufman are prominent strain theorists and their introductory essay provides an overview of the theories discusses the relationship between them and introduces each of the selections

Critique and Radical Discourses on Crime George Pavlich,2019-07-12 This title was first published in 2000 *Critique and Radical Discourses on Crime* develops a unique line of thought in contemporary criminology re examining an under researched dimension of radical discourse In particular it focuses attention on the distinguishing feature of radical discourses their allegiance to various visions of critique The book reassesses the genres of critique evident in previous forms of radical criminology formulates a different genre of critique appropriate to the uncertainties of postmodern conditions and shows how these genres can be articulated to differently conceived radical discourses on crime

Offending Youth Kerry Carrington, Margaret Pereira, 2009 Rates of female delinquency especially for violent crimes are increasing in most common law countries At the same time the growth in cyber bullying especially among girls appears to be a related global phenomenon While the gender gap in delinquency is narrowing in Australia United States Canada and the United Kingdom boys continue to dominate the youth who commit crime and have a virtual monopoly over sexually violent crimes Indigenous youth continue to be vastly over represented in the juvenile justice system in every Australian jurisdiction The Indigenisation of delinquency is a persistent problem in other countries such as Canada and New Zealand Young people who gather in public places are susceptible to being perceived as somehow threatening or riotous attracting more than their share of public order policing Professional football has been marred by repeated scandals involving sexual assault violence and drunkenness Given the cultural significance of footballers as role models to thousands if not millions of young men around the world it is vitally important to address this problem Offending Youth explores these key contemporary patterns of delinquency the response to these by the juvenile justice agencies and moreover what can be done to address these problems The book also analyses the major policy and legislative changes from the nineteenth to twenty first centuries chiefly the shift the penal welfarism to diversion and restorative justice Using original cases studied by Carrington twenty years ago Offending Youth illustrates how penal welfarism criminalised young people from socially marginal backgrounds especially Aboriginal children children from single parent families family less children state wards and young people living in poverty or in housing commission estates A number of inquiries in Australia and the United Kingdom have since established that children committed to these institutions supposedly for their own good experienced systemic physical sexual and psychological abuse during their institutionalisation The book is dedicated to the survivors of these institutions who only now are receiving official recognition of the injustices they suffered The underlying

philosophy of juvenile justice has fundamentally shifted away from penal welfarism to embrace positive policy responses to juvenile crime such as youth conferencing cautions warnings restorative justice circle sentencing and diversion examined in the concluding chapter Offending Youth is aimed at a broad readership including policy makers juvenile justice professionals youth workers families teachers politicians as well as students and academics in criminology policing gender studies masculinity studies Indigenous studies justice studies youth studies and the sociology of youth and deviance more generally
