Palmer, 2025-09-02 This second volume of Bryan Palmer s history of Canada covers 1890 to 1960 Weaving together themes that include business labour politics and social history this account brings the experiences of Indigenous peoples into the centre of the narrative Canada experienced extraordinary growth during these decades notably after the Second World War when many Canadians quickly became far better off Yet vast inequalities persisted Indigenous peoples experienced ongoing and often worsening deprivation and ordinary people saw little or no real improvement in their lives These realities set the stage for the interplay of reform resistance and reaction that followed after 1960 Palmer examines the continuing role of capitalism and colonialism in structuring Canada in the period between 1890 and 1960 from capital s conflicts and fragile ententes with labour to the struggles of Indigenous Peoples and francophone Canada and the changing role of Canadian capital internationally Relying on the work of scholars who have produced a vast academic literature on a wide range of topics in Canadian history Bryan Palmer offers a new history of Canada which reflects the knowledge and values of 21st century Canadians **The Land of Too Much** Monica Prasad, 2012-12-31 Monica Prasad s powerful demand side hypothesis addresses three questions Why does the United States have more poverty than any other developed country Why did it experience an attack on state intervention in the 1980s known today as the neoliberal revolution And why did it

recently suffer the greatest economic meltdown in seventy five years *The Limits of Labour* David Bright,2011-11-01 In a few short decades before the First World War Calgary was transformed from a frontier outpost into a complex industrial metropolis With industrialization there emerged a diverse and equally complex working class David Bright explores the various levels of class formation and class identity in the city to argue that Calgary s reputation as a prewar centre of labour conservatism is in need of revision Bright also delineates the trials of the Calgary labour movement in the 1920s Internal divisions and dissent prevented the movement from realizing the potential strength of the working class Instead even as local capitalism restructured itself political and industrial labour organizations wilfully fragmented their own base of support In particular they failed to address the concerns and needs of the growing number of unemployed in the city a neglect that foreshadowed events of the 1930s This failure left the labour movement unable to meet the challenge of the Great Depression In part at least the demise of labour as a viable political alternative in Calgary paved the way for the rise of Social Credit Using Calgary as a model *The Limits of Labour* reasserts the need to place class formation at the heart of the development of western Canada and provides an historical context to the renewed struggle of labour for social justice in the 1990s **Canadian History: Confederation to the present** Martin Brook Taylor,Doug Owram,1994-01-01 In these two volumes which replace the Reader s Guide to Canadian History experts provide a select and critical guide to historical writing about pre and post Confederation Canada with an emphasis on the most recent scholarship Cover Toronto's Poor Bryan D. Palmer,Gaétan Héroux,2016-11-23 Toronto s Poor reveals the long and too often forgotten history of poor people s resistance It details how people without housing people living in poverty and unemployed people have struggled to survive and secure food and shelter in the wake of the many panics downturns recessions and depressions that punctuate the years from the 1830s to the present Written by a historian of the working class and a poor people s activist this is a rebellious book that links past and present in an almost two hundred year story of struggle and resistance It is about men women and children relegated to lives of desperation by an uncaring system and how they have refused to be defeated In that refusal and in winning better conditions for themselves Toronto s poor create the possibility of a new kind of society one ordered not by acquisition and individual advance but by appreciations of collective rights and responsibilities **The Struggle for Canadian Sport** Bruce Kidd,1996-05-21 Canadian sports were turned on their head during the years between the world wars The middle class amateur men s organizations which dominated Canadian sports since the mid nineteenth century steadily lost ground swamped by the rise of consumer culture and badly battered and split by the depression In *The Struggle for Canadian Sport* Bruce Kidd illuminates the complex and fractious process that produced the familiar contours of Canadian sport today the hegemony of continental cartels like the NHL the enormous ideological power of the media the shadowed participation of women in sports and the strong nationalism of the amateur Olympic sports bodies Kidd focuses on four major Canadian organizations of the interwar period the Amateur Athletic Union the Women s Amateur Athletic

Federation the Workers Sport Association and the National Hockey League Each of these organizations became focal points of debate and political activity and they often struggled with each other Each had a radically different agenda the AAU sought the making of men and the strengthening of English Canadian nationalism the WAAF promoted the health and well being of sportswomen the WSA was a vehicle for socialism and the NHL was concerned with lucrative spectacles These national organizations stimulated and steered many of the resources available for sport and contributed significantly to the expansion of opportunities They enjoyed far more power than other Canadian cultural organizations of the period and they attempted to manipulate both the direction and philosophy of Canadian athletics Through their control of the rules and prestigious events and their countless interventions in the mass media they shaped the dominant practices and coined the very language with which Canadians discussed what sports should mean The success and outcome of each group as well as their confrontations with one another were crucial in shaping modern Canadian sports The Struggle for Canadian Sport adds to our understanding of the material and social conditions under which people created and elaborated sports and the contested ideological terrain on which sports were played and interpreted *The Workers' Festival* Craig Heron, Steven Penfold, 2005-01-01 The Workers Festival ranges widely into many key themes of labour history union politics and rivalries radical movements religion race and gender and consumerism leisure as well as cultural history public celebration urban procession urban space and communication and popular culture **Citizens and Nation** Gerald Friesen, 2000-01-01 Friesen links the media studies of Harold Innis to the social history of recent decades The result is a framework for Canadian history as told by ordinary people **In the Shadow of Detroit** David Roberts, 2006 Roberts intertwines McGregor's corporate civic and personal lives to trace his pioneering role in the automobile industry Some themes from McGregor's career that are considered here include company growth the technical and cultural concept of the automobile the impact of automotive transportation technological reliance on Detroit parent branch relations the effects of border proximity industrial and political lobbying labor relations secondary manufacturing public involvement and the Great War In addition Roberts probes McGregor's often subservient relationship with the enigmatic Henry Ford and examines how McGregor drew praise and political ire in calling for regional governance in the Border Cities opposite Detroit In the years before his premature death McGregor and his company dominated and defined the growing automotive industry in Windsor Detroit and their story deserves to be more widely known **The Fate of Labour Socialism** James Naylor, 2016-01-01 Almost a century before the New Democratic Party rode the first orange wave their predecessors imagined a movement that could rally Canadians against economic insecurity win access to necessary services such as health care and confront the threat of war The party they built during the Great Depression the Co operative Commonwealth Federation CCF permanently transformed the country's politics Past histories have described the CCF as social democrats guided by middle class intellectuals a party which shied away from labour radicalism and communist agitation James Naylor's assiduous research tells a very different

story a CCF created by working class activists steeped in Marxist ideology who sought to create a movement that would be both loyal to its socialist principles and appealing to the wider electorate The Fate of Labour Socialism is a fundamental reexamination of the CCF and Canadian working class politics in the 1930s one that will help historians better understand Canada's political intellectual and labour history Canada and the First World War, Second Edition David MacKenzie, 2018-12-03 The First World War is often credited as being the event that gave Canada its own identity distinct from that of Britain France and the United States Less often noted however is that it was also the cause of a great deal of friction within Canadian society The fifteen essays contained in Canada and the First World War examine how Canadians experienced the war and how their experiences were shaped by region politics gender class and nationalism Editor David MacKenzie has brought together some of the leading voices in Canadian history to take an in depth look into the tensions and fractures the war caused and to address the way some attitudes about the country were changed while others remained the same The essays vary in scope but are strongly unified so as to create a collection that treats its subject in a complete and comprehensive manner Canada and the First World War is a tribute to esteemed University of Toronto historian Robert Craig Brown one of Canada's greatest authorities on the Great War World War One The collection is a significant contribution to the on going re examination of Canada's experiences in war and a must read for students of Canadian history *Rebel Life (2nd ed.)* Mark Leier, 2013-09-05 Extensively revised throughout and including a brand new chapter Rebel Life chronicles the life of labour organizer revolutionary anarchist and labour spy Robert Gosden This new edition includes new information about Gosden's career that has come to light since the first edition was published in 1999 Canada's west coast was rife with upheaval in the second and third decades of the twentieth century At the centre of the turmoil is Robert Gosden migrant labourer turned radical activist turned police spy In 1913 he publicly recommends assassinating Premier Richard McBride to resolve the miners strike By 1919 he is urging Prime Minister Robert Borden to disappear key labour radicals to quell rising discontent What happened Rebel Life plumbs the enigma that was Gosden but is much more it is an introduction to BC labour history With its archival photograph and sidebars rich with historical arcana and a chapter outlining the research that unearthed Gosden's story Rebel Life is a rich resource for instructors students and trade unionists and an ideal introduction to the historian's craft **A History of Human Rights in Canada** Janet Miron, 2009 Human rights equality and social justice are at the forefront of public concern and political debate in Canada Global events especially the war on terrorism have fostered further interest in the abuse of human rights especially when sanctioned or perpetuated by democratic governments This groundbreaking contributed volume seeks to shed light on this topic by uniting original essays that examine the history of human rights in Canada Contributors explore a variety of themes integral to the post confederation period including immigration and ethnicity gender sexuality class disability state formation and provincial federal relations Three key issues emerge throughout incidents of discrimination in both government and society the efforts of human rights

and civil liberties activists to create a more open and tolerant society and the implementation of state legislation designed to protect or enhance civil rights
