Treatise on Titrimetry Joseph Jordan, 1974 **Metal-Ligand Interactions in Organic Chemistry and Biochemistry** A. Pullman, N. Goldblum, 2013-11-09 The 9th Jerusalem Symposium was dedicated to the memory of Professor Ernst David Bergmann An imposing and deeply moving memorial session chaired by Professor Ephraim Katzir the President of the State of Israel and a close friend of Professor Bergmann preceded the Symposium itself During this session Professor Bergmann's personal scientific achievements and contributions to the development of his country were described and praised besides President Katzir by Professor A. Dvoretzky President of the Israel Academy of Sciences and Humanities Professor D. Ginsburg Dean of the Israel Institute of Technology in Haifa and the author of these lines May I just quote short extracts from these speeches President Katzir As we open this ninth in the series of symposia initiated in 1967 it is difficult for me as I am sure for many of Ernst Bergmann's friends co-workers and students to be here without him He was not only a great scientist and a beloved teacher he was one of the most important founders of science in this country To him we owe many institutes and the establishment here of many branches of science Professor Dvoretzky Ernst Bergmann's greatness did not stem from one component overshadowing all the others It was a multifaceted greatness consisting of the harmonious coalescing of seemingly contrasting entities into a wonderful unity *Catalog of Copyright Entries.
