[A Rainbow Palate](#) Carolyn Cobbold, 2024-05-31 We live in a world saturated by chemicals our food our clothes and even our bodies play host to hundreds of synthetic chemicals that did not exist before the nineteenth century By the 1900s a wave of bright coal tar dyes had begun to transform the Western world Originally intended for textiles the new dyes soon permeated daily life in unexpected ways and by the time the risks and uncertainties surrounding the synthesized chemicals began to surface they were being used in everything from clothes and home furnishings to cookware and food In [A Rainbow Palate](#) Carolyn Cobbold explores how the widespread use of new chemical substances influenced perceptions and understanding of food science and technology as well as trust in science and scientists Because the new dyes were among the earliest contested chemical additives in food the battles over their use offer striking insights and parallels into today's international struggles surrounding chemical food and trade regulation

Popped Culture Andrew F. Smith, 2021-11-24 The history legends and cookery of America's favorite snack food Whether in movie theaters or sports arenas at fairs or theme parks around campfires or family hearths Americans consume more popcorn by volume than any other snack To the world popcorn seems as American as baseball and apple pie Within American food lore popcorn holds a special place for it was purportedly shared by Native Americans at the first Thanksgiving In **Popped Culture** Andrew F Smith tests such legends against archaeological agricultural culinary and social findings While debunking many myths he discovers a flavorful story of the curious kernel's introduction and ever increasing consumption in North America Unlike other culinary fads of the nineteenth century popcorn has never lost favor with the American public Smith gauges the reasons for its unflagging popularity the invention of wire over the fire poppers commercial promotion by shrewd producers the fascination of children with the kernel's magical pop and affordability To explain popcorn's twentieth century success he examines its fortuitous association with new technology radio movies

television microwaves and recounts the brand name triumphs of American manufacturers and packagers His familiarity with the history of the snack allows him to form expectations about popcorn s future in the United States and abroad Smith concludes his account with more than 160 surprising historical recipes for popcorn cookery including the intriguing use of the snack in custard hash ice cream omelets and soup Diet for a Large Planet Chris Otter,2023-06-05 In this magisterial study Chris Otter traces Britain s transition to a diet rich in animal proteins and refined carbohydrates like wheat and sugar a diet that required more acreage than that of Britain itself and that if followed everywhere would soon deplete the planet s resources as the title announces this was truly a diet for a large planet From the late 1700s to the end of World War II Otter accounts for the structures practices and ideologies generated by Britain s nutrition transition He shows how Britain was the first nation to undergo the population explosion urbanization and industrialization we associate with modernity and how it managed the unprecedented problem of how to feed its growing population Its radical solution would be to outsource its food production leading away from a locally produced plant based diet to one reliant on global markets international trade networks and enormous agro food systems that would have planetary effects on famine war the world economy and the wider earth system Not only did this phase in Britain s history make the consumption of meat white bread sugar and butter a coveted diet linked to development luxury and power it also opened up a new phase in economic history one whose dramatic effects endure to this day whether in terms of health problems eating disorders or the seemingly endless world food crisis

The New Dietetics, What to Eat and How John Harvey Kellogg,1927 Every Catholic An Apostle William L. Portier,2017-11-17 Born in Boston of immigrant parents Thomas A Judge CM 1868 1933 preached up and down the east coast on the Vincentian mission band between 1903 and 1915 Disturbed by the leakage of the immigrant poor from the church he enlisted and organized lay women he met on the missions to work for the preservation of the faith his watchword His work grew apace with and in some ways anticipated the growing body of papal teaching on the lay apostolate When he became superior of the godforsaken Vincentian Alabama mission in 1915 he invited the lay apostles to come south to help This is the layman s hour he wrote in 1919 By then however many of his lay apostles had evolved in the direction of vowed communal life This pioneer of the lay apostle founded two religious communities one of women and one of men With the indispensable help of his co founder Mother Boniface Keasey he spent the last decade of his life trying to gain canonical approval for these groups organizing them and helping them learn to train the work a day man and woman into an apostle to cause each to be alert to the interests of the Church to be the Church The roaring twenties saw the work expanded beyond the Alabama missions as far as Puerto Rico which Judge viewed as a gateway to Latin America The Great Depression ended this expansive mood and time and put agonizing pressure on Judge his disciples and their work In 1932 the year before Judge s death the apostolic delegate upon being appraised of Judge s financial straits described his work as the only organized movement of its kind in the Church today that so completely meets the wishes of the Holy Father with reference to the Lay
