**New Dimensions in Military History** Russell F. Weigley, 1998-11 An anthology of papers presented in the course conducted for future leaders of U S military by the U S Army War College in the 1970s Papers address such questions as what is military history Is it only the study of conflict of battles and skirmishes. The main purpose of the course in military history was to encourage historical mindedness rather than to impart a specific body of knowledge Emphasized throughout was the fact that lessons to be learned might more likely be negative ones cautionary examples of what not to do The result was a practical search for problems of the past paralleling similar problems of today Generally recognized as the leading military historian in the U S Weigley has published numerous works British Generals in the War of 1812 Wesley B. Turner, 1999-03-30 The Canadian people have faced crises of leadership but never more seriously than during the War of 1812 Despite the many studies of this turbulent time there are still controversies over traditional issues one being the quality of leadership on both sides **New Dimensions in Military History** Russell Frank Weigley, 1975 An anthology of papers presented in the course conducted for future leaders of U S military by the U S Army War College in the 1970s Papers address such questions as what is military history Is it only the study of conflict of battles and skirmishes The main purpose of the course in military history was to encourage historical mindedness rather than to impart a specific body of knowledge Emphasized throughout was the fact that lessons to be learned might more likely be negative ones cautionary examples of what not to do The result was a practical search for problems of the past paralleling similar problems of today Generally recognized as the leading military historian in the U S Weigley has published numerous works The Embattled Past Edward M. Coffman, 2013-12-09 Internationally recognized for having reinvigorated and redefined his field distinguished military historian Edward M Coffman is a dedicated and much admired teacher and mentor In The Embattled Past several of his most important essays have been assembled into a collection that serves as an essential reference to the discipline and an initiation to the study of military history for aspiring scholars Coffman's introduction to the volume charts his own professional journey and sets the book within the larger context of Americans attitudes toward their military both inside and outside of academia The essays explore a range of critical issues in military historiography such as strategies for conducting oral history and research methodologies and examine questions at the heart of the field Included are two seminal essays on World War I which provide a fascinating overview of American war strategies and illuminate the reasons why so many historians have ignored this critical turning point in twentieth century history. The volume concludes with an unpublished essay detailing Coffman's experience of interviewing General Douglas MacArthur in 1960 This exciting new book offers readers insights into more than two hundred years of United States military history while also providing a comprehensive overview of Coffman's stellar contributions to the field Important and engaging The Embattled Past is a primer on the profession from one of the most honored scholars of our time **Army** ,1976 **Race and Gender in Modern Western** 

**Warfare** David Ulbrich, Bobby A. Wintermute, 2018-12-03 This book fills a gap in the historiographical and theoretical fields of race gender and war In brief Race and Gender in Modern Western Warfare RGMWW offers an introduction into how cultural constructions of identity are transformed by war and how they in turn influence the nature of military institutions and conflicts Focusing on the modern West this project begins by introducing the contours of race and gender theories as they have evolved and how they are employed by historians anthropologists sociologists and other scholars The project then mixes chronological narrative with analysis and historiography as it takes the reader through a series of case studies ranging from the early nineteenth century to the Global War of Terror The purpose throughout is not merely to create a list of so called great moments in race and gender but to create a meta landscape in which readers can learn to identify for themselves the disjunctures flaws and critical synergies in the traditional memory and history of a largely monochrome and male exclusive military experience The final chapter considers the current challenges that Western societies particularly the United States face in imposing social diversity and tolerance on statist military structures in a climates of sometimes vitriolic public debate RGMWW represents our effort to blend race gender and military war to problematize these intersections and then provide some answers to those problems The Harmon Memorial Lectures in Military History, 1959-1987 United States. Dixon, 1986 This book traces Austria's attempts in 1918 1922 to create and control a new army and to do so under the limitations imposed by the Paris Peace Conference The tragic tale that

emerges is one in which optimism ironically feeds the currents of distrust and bitterness which finally cause the demise of the embryonic Austrian republic and adds to our understanding of the failure of Europe as a whole to achieve a secure peace between the wars Private Truths, Public Lies Timur Kuran, 1998-06-16 Drawing on diverse intellectual traditions including those rooted in economics psychology sociology and political science Kuran provides a unified theory of how preference falsification shapes collective decisions orients structural change sustains social stability distorts human knowledge and conceals political possibilities Special Bibliography No. 26 on United States Army Special Operations and Low-intensity Conflict, 1940-1986 Claude C. Sturgill, US Army Military History Institute, 1989 **Armor**, 2002 The magazine Canada: Selected References .1981 Anticipating Total War Manfred F. Boemeke, Roger Chickering, Stig Förster, 1999-03-28 The essays in Anticipating Total War explore the discourse on war in Germany and the United States between 1871 and 1914 The concept of total war provides the analytical focus The essays reveal vigorous discussions of warfare in several forums among soldiers statesmen women s groups and educators on both sides of the Atlantic Predictions of long cataclysmic wars were not uncommon in these discussions while the involvement of German and American soldiers in colonial warfare suggested that future combat would not spare civilians Despite these anticipations of total war virtually no one realized the practical implications in planning for war in the early twentieth century Salisbury John Hosler, 2013-05-13 The English scholar John of Salisbury was a major intellectual of the twelfth century whose contributions to the fields of education grammar political theory and rhetoric are well known His significance is amplified further in John of Salisbury Military Authority of the Twelfth Century Renaissance in which John D Hosler examines his heretofore overlooked contributions to the ideals and practice of medieval warfare This book surveys an array of military topics present within John's extant corpus including generalship strategy tactics logistics military organization and training it also collates John's military lexicon and charts the influence of classical texts upon his conceptualization of war John of Salisbury it argues deserves inclusion in the roll call of military theoreticians and writers of pre Reformation Europe Α Cumulative Bibliography of Medieval Military History and Technology Kelly DeVries, 2001-11-01 There is perhaps no other more lively area for study in medieval history than medieval military history with its attendant and complementary field the history of medieval military technology In the past twenty years it seems that more major scholarly inroads have been made in this field than in any other historical genre of medieval studies or chronological period of military history What this has meant is that it is now more difficult to keep up with all of the trends and sources in the field than ever before Hence the need for a reference work which covers what has previously been written and which in turn can assist the scholar both the more experienced academic and the beginner to improve his or her work in medieval military history or the history of medieval military technology Utilizing library catalogues bibliographies and footnotes this bibliography has compiled the most complete list of secondary references to works in medieval military history and the history of military technology It

keeps fairly strictly to a geography which centers on conventional medieval boundaries Europe Byzantium and the Middle East However the chronology does differ from the conventional medieval dates Because of its influence on the early Middle Ages references to Late Antiquity especially to the military history and technology of the third and fourth century Roman Empire have been included For the opposite reason the influence of the Middle Ages on the sixteenth and early seventeenth centuries references to military history and technology up to 1648 have been included as well This is especially important in the study of the Ottoman Turkish Wars and Arms and Armor where the end of the fifteenth century as a chronological terminus makes little sense The Rebirth of the Habsburg Army Scott Lackey, 1995-10-20 Friedrich Beck was the single most important figure in the transformation of the inept Habsburg military into the modern military state that would wage World War I He correctly perceived that only an elite body of officers responsible for war planning and preparation could provide lasting security for the Austro Hungarian empire After firmly establishing the general staff as an institution Beck led war planning to counter threats from Russia Italy and the Balkans and spearheaded a vast rebuilding of the rail network While his rise to power marked a return to the favorite system of military administration of the early Franz Joseph period Beck proved himself a man with real military ability that revolutionized an army **World Military History Bibliography** Barton Hacker, 2003-06-01 Preclassical and indigenous nonwestern military institutions and methods of warfare are the chief subjects of this annotated bibliography of work published 1967 1997 Classical antiquity post Roman Europe and the westernized armed forces of the 20th century although covered receive less systematic attention Emphasis is on historical studies of military organization and the relationships between military and other social institutions rather than wars and battles Especially rich in references to the periodical literature the bibliography is divided into eight parts 1 general and comparative topics 2 the ancient world 3 Eurasia since antiquity 4 sub Saharan Africa and Oceania 5 pre Columbian America 6 postcontact America 7 the contemporary nonwestern world and 8 philosophical social scientific natural scientific and other works not primarily historical
